

Lot 1 – Part H

Community Safety Specification

This specification could include items for staff to operate under a Community Safety Accreditation Scheme as provided for by the Police Reform Act 2002. They might be dealing with enforcement for such items as:-

- Cycling on the footpath
- Dog fouling
- Littering
- Graffiti
- Fly-posting
- Anti-Social Behaviour
- Traffic control

There is no policy or specification for this as yet but the Tenderers should be aware that this could be a possibility during the term of the contract.

A specification will be prepared as and when required, potentially building on services in other parts of this Lot

The Contractor would be required to prepare a proposal for this work for negotiation with the Council. Subject to this being satisfactory the work would be commissioned. If it is unsatisfactory then the Council reserves the right to seek alternative proposals from alternative suppliers.
