

Directory of Summaries of UDP Representations and Council Responses

This document consists of summaries of all objections received to the Policies, Major Development Opportunities (MDOs), Proposals Map and Glossary of the First Deposit Draft UDP of January 2002 and the Council's response to them. Representations were received between the date of deposit and the closing date for duly made representations (15th January to 25th February-2002).

This document is set out following Policies 1-80, then deals with MDOs 1-133. The final responses dealing with the Glossary and the Proposals Map are at the end of the document.

The document is to be read alongside the Revised Deposit Draft UDP of June 2004. The Council's responses elucidate the changes that have been incorporated in the Revised Deposit Draft and explain why these changes have been proposed.

The Council is now seeking responses to the changes made. The Revised Deposit Draft is out for consultation from Thursday 8th July to Wednesday 18th August 2004.

Please note that some further amendments have been made to the responses to representations agreed by Council on 14th April 2004. These have been necessary in response to events that have occurred since that date as well as providing further clarification to some of the responses received in light of new information.

To locate a response to your representation, if it was in respect of:

A Specific Policy

- Locate the Page number of the relevant policy on the Contents Page;
- Refer to the page number and check the details of representations made at the end of each objection.

A Specific Paragraph

- Locate the page number of the relevant policy to which the paragraph is pertinent;
- Refer to the END of the objection schedule for this policy, where any representations to a supporting paragraph have been responded to;
- Check details of representations at the end of each objection.

The Glossary

- Locate the page number of the Glossary (at end of document);
- Check through details of representations made at the end of each objection.

The Proposals Map

- Locate the page number of the Proposals Map (at end of document);
- Check through details of representations made at the end of each objection.
