

EDUCATION STATISTICS

2010-11

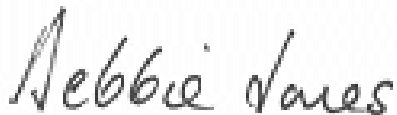

INTRODUCTION

This is the fourteenth edition of the Lambeth "Education Statistics", providing statistical data on the Education Service within the borough.

Everyone now realises how important it is to measure performance by objective means. Statistical measurements can never tell us everything about the effectiveness of a service. However, they can help us to judge progress, to question our use of resources and to compare what we are doing with the achievement of others in our quest for constant improvement. Better statistics lead to better performance management. It is at the heart of what local authorities can do to support educational achievement.

In Lambeth, we are committed to making ourselves a questioning and a learning local authority. We hope this document will enable those in schools and other services to make better judgements about their own performance and to set targets for improvement. We intend that this data will also inform every aspect of our work and the decisions that the Council makes.

This data will help the service to manage performance better and to make best use of resources in addressing issues of pupil achievement.

A handwritten signature in black ink that reads "Debbie Jones". The signature is written in a cursive, flowing style.

Debbie Jones
Executive Director of Children and Young People's Service (CYPS)

Primary Schools Budget Share, 2011-12

The following information must be taken into account when interpreting this data:

-The primary roll figures are FTEs (Full Time Equivalent) with part-time pupils counted as 0.5 of a pupil, and do not include pupils in special units within certain schools.

-The total budget figures shown **do not** include the following payments: funding for special unit pupils; or National Non-Domestic Rates (NNDR) costs.

-Funding is dependent on a range of factors, such as the number of pupils on roll, the proportion of the school roll who are classified with SEN (special educational need), and the prior attainment profile of a school's pupils.

School	2011/12		
	Pupil Roll (FTE)	Total Budget	Budget per Pupil
Allen Edwards	390.0	£2,202,749	£5,648

Secondary School Budget Share, 2011-12

The following information must be taken into account when interpreting this data:

-All figures shown relate to pupils of compulsory school age only. Post-16 provision is funded separately by the YPLA (formerly LSC) and is not included here.

-The total LA budget figures shown **do not** include payments for National Non-Domestic Rates (NNDR) costs.

-Funding is dependent on a range of factors, such as the number of pupils on roll, the proportion of the school roll who are classified with SEN (special educational need), and the prior attainment profile of a school's pupils.

School	2011/12		
	Pupil Roll (excluding 6th Forms)	Total Budget (LA funding only)	Budget per Pupil
Archbishop Tenison's	474	£3,395,469	£7,163
Bishop Thomas Grant	909	£6,021,552	£6,624
Charles Edward Brooke	526	£3,977,752	£7,562
Dunraven	977	£6,793,722	£6,954
Elmgreen	806	£5,449,763	£6,761
La Retraite	747	£5,059,847	£6,774
Lilian Baylis	629	£5,006,162	£7,959
London Nautical	561	£3,934,460	£7,013
Norwood	712	£5,136,413	£7,214
St Martin-in-the-Fields	747	£5,190,027	£6,948
Stockwell Park	982	£7,141,661	£7,273
Lambeth average	734	£5,191,530	£7,113

Overall absence includes authorised and unauthorised due to reasons such as: sickness, religious observance, work experience, fixed exclusion, authorised annual holidays or other good reason e.g family bereavement.

Figures here relate to the attendance records for day pupils of compulsory school age (Autumn term 2009 and Spring term 2010 combined)

Persistent absence represents the number of pupil enrolments where 52 or more half day sessions were missed.

Permanent Exclusions from School, 2005-2010

Type of School	2004-05	2005-06	2006-07	2007-08	2008-09	2009-10
Primary	14	18	8	11	10	19
Secondary	17	9	26	43	45	43
Special	0	2	3	2	1	1
Total	31	29	37	56	56	63

Source: DfE PLASC 2005-2006 & Schools Census 2007 onwards

The mechanism for reporting permanent exclusions for the previous academic year changed in 2008, from an annual to a termly report. This, to some extent, explains the differences between the 2005-06 and 2006-07 figures.

Total SEN figures may not equate to their constituent parts due to rounding.

NATIONAL CURRICULUM TERMS AND DEFINITIONS

1. The National Curriculum

Pupils aged 5 - 16 in state schools must be taught the National Curriculum. This is divided into four "key stages", which depend on children's ages.

Year Group	Foundation	1	2	3	4	5	6	7	8	9	10	11
Age of pupils at end of year	5	6	7	8	9	10	11	12	13	14	15	16
KEY STAGE	EYFS	KEY STAGE 1		KEY STAGE 2			KEY STAGE 3			KEY STAGE 4 (GCSE)		

EYFS = Early Years Foundation Stage

Levels of Achievement

The National Curriculum sets standards of achievement in each subject for pupils aged 5-14. For most subjects, the levels range from 1-8. Pupils climb the levels as they get older and learn more.

Most 5 year olds are expected to achieve 78 points or more across all 13 scales, with 6+ in both the CLL and PSE scales.

Most 7 year olds are expected to achieve Level 2B

Most 11 year olds are expected to achieve Level 4

Most 14 year olds are expected to achieve Levels 5 or 6

parts of a subject on a particular day. At Key Stage 1 prior to 2005, pupils were tested in reading, writing and mathematics. In 2005 this changed so that teacher assessments in these subjects were reported, underpinned by the tests. At Key Stage 2 pupils are tested in English and mathematics (the science tests were discontinued in 2010) and Key Stage 3 are now wholly teacher assessments. These tests and assessments give a measure of how pupils and schools are doing, compared with national standards in these subjects.

2. Social Factors Influencing Performance

Research conducted over many years has shown that a pupil's background and circumstances can have an effect on performance. The tables and graphs on the following pages show the performance of pupils in Lambeth schools for each of the key stages. Some of the factors that Lambeth considers when looking at performance include:

Gender

Girls tend to do better than boys in all the key stages. This is especially noticeable in English.

Free School Meals

Previous research has shown a link between social deprivation and performance. Lambeth, in common with many other LAs, uses eligibility for free school meals as a proxy indicator for deprivation.

Fluency in English

Lambeth uses a London wide scale to describe the fluency levels of pupils whose first language is not English. "Stage 1" pupils are beginners, "Stage 2" pupils are becoming familiar with English, "Stage 3" pupils still need some support with English and "Stage 4" pupils are fully fluent in English. "Stage 5" refers to pupils who only speak English.

Ethnicity

Both National and Lambeth research has shown differences in educational achievement when ethnic background is examined. Lambeth collects ethnic background information using 21 categories, which best cover the diverse background of the borough.

Note of Caution

The tables on the following pages show the number of pupils in each category. Care should be taken when interpreting categories where the numbers are small, as the results can be distorted dramatically by the effects of very few pupils.

Figures may not add to 100% due to rounding

*Other. This includes pupils who were disapplied or absent, and those where no level could be calculated

Key: Level 1 should stretch a typical 5-6 year old.
 Level 2 should stretch a typical 7 year old.
 Level 3 should stretch a typical 9 year old

n/a = data not available

Two levels progress from KS1 to KS2 e.g. level 2 to 4, is the typical expectation for all pupils nationally.

The Lambeth and national figures use a different methodology to the school-level calculations. Please refer to the DfE - http://www.education.gov.uk/performance/primary_10.shtml - for further information.

"<" denotes a school had 10, or fewer, pupils eligible for KS2 assessment at the time of the tests.

"~" denotes schools who boycotted the KS2 tests in 2010.

n/a = data not available

Average point scores shown here are calculated using the individual point scores achieved by pupils in English and maths e.g. where a pupil gained 27 and 33 points in the two subjects, their APS is 30 - where the aggregate (60 total points) is divided by the number of subjects (2). School APS figures are the aggregate of pupil point scores, divided by the total number of subjects taken.

n/a = data not available

Pupil Achievement in the Key Stage 2 Teacher Assessments, 2010 (Level 4 or above)

Pupil Achievement in the Key Stage 2 Teacher Assessments, 2010 (Level 5)

Key Stage 1 to 2 Contextual Value Added, 2010

Contextual Value Added (CVA) - Terms and definitions

CVA is not very different from VA. The basic principle of measuring progress from Key Stage 1 to Key Stage 2 remains the same. However, a number of other factors which are outside a school's control, such as gender, special educational needs, movement between schools, and family circumstances, are also known to affect pupils' performance. CVA takes these factors into account, which means comparisons against other schools becomes more meaningful.

Having taken into account the range of factors affecting performance, each pupil's CVA score is based on a comparison between their actual Key Stage 2 performance and their performance predicted by the CVA model.

KS1-2 CVA Score - An average of all pupils' CVA scores is produced for a school. That average is adjusted by the CVA model to account for cohort size, which then produces a school level CVA measure. This number is presented as a number based around 100 to indicate the value the school has added on average for its pupils. Scores above 100 represent schools where pupils on average made more progress than similar pupils nationally. While scores below 100 represent schools where pupils made less progress.

Coverage Indicator - This shows the percentage of pupils at the end of Key Stage 2 included in the CVA calculation. Pupils not included are new arrivals to the country with no prior attainment, or those previously educated in the independent sector. If the coverage is very low (below 50 per cent) then the CVA score is not published because it does not properly represent the effectiveness of the school.

CVA Confidence Intervals - The uncertainty of a CVA score as a measure of school effectiveness can be presented as a confidence interval (CI). This is a range of scores (defined by a lower and upper limit) within which we can be statistically confident that the 'true' school effectiveness will lie. The degree of significance that can be attached to a school's CVA measure depends, among other things, on the number of pupils included in the calculation with cohort size also having a bearing on the CI range.

CVA percentiles

The CVA percentiles give the distribution of CVA scores and show where schools are placed nationally compared to other schools, based on the CVA measure.

101.8 and above	100.8 to 101.7	100.3 to 100.7	99.8 to 100.2	99.3 to 99.7	97.9 to 99.2	97.8 and below

PUPIL ACHIEVEMENT - KEY STAGE 2

Key Stage 2 Test Performance by Socio-Economic Indicators, 2009 & 2010

The KS2 science tests were discontinued in 2010 so the science teacher assessments (TA) are shown here for information only - they do not form part of the average calculations. The 2009 averages have also been re-calculated to allow comparison. 2010 results and pupil numbers relate to 47 schools only, as 15 boycotted the tests.

Terms used and their definitions

Cohort - This relates to the total number of pupils at the end of Key Stage 4, irrespective of their age. This figure includes pupils who did not attempt or pass any GCSEs or equivalent.

The KS2-GCSE (incl E&M) contextual value added measure - This is based on individual pupil progress between the KS2 tests and GCSE capped at a pupil's best eight GCSE or equivalent results, combined with other factors that are outside a school's control. For example, a CVA score will be adjusted taking into account factors such as gender, SEN, pupil mobility and ethnic background.

Confidence Intervals - This refers to the range of scores (defined by an upper and lower limit) within which we can be statistically confident the CVA measure represents the overall effectiveness of a school. This relates to the size of the cohort i.e. the smaller the cohort, the larger the range will be and the less confidence can be placed on the CVA measure as an indicator of whether a school's effectiveness is significantly above or below average.

The coverage indicator - This shows the proportion of pupils at the end of KS4 (irrespective of their age) who were included in the value added calculation. It also gives some indication of schools where the value added measures may be unrepresentative. A low indicator means information was not available to calculate the value added for a large proportion of a school's pupils, and so these pupils could not be included in the calculation.

Average Number of Qualifications - This is the average number of GCSE and equivalent qualifications taken by students included in the Key Stage 2 to GCSE contextual value added calculation.

How to interpret a school's value added measure

Scores above 1000 represent schools where students made more progress, on average, than pupils nationally. Scores below 1000 represent schools where students made less progress.

For each of the KS4 CVA measures, a measure of 1006 means that on average each of the school's pupils achieved the equivalent of one GCSE grade higher in one subject than the average attained by similar pupils. A score of 1048 means that on average each pupil achieved one GCSE grade higher in each of their best eight subjects than the average attained by similar pupils. Conversely, a score of 994 means that the school's pupils achieved one grade lower in one subject on average, while a score of 952 means that pupils achieved on average one grade lower in each of their best eight subjects.

The table below shows where schools can be placed nationally compared to other schools, based on their CVA measure.

1034.5 and above	Top 5% of schools nationally
1012.7 to 1034.4	Next 20% of schools nationally
1004.9 to 1012.6	Next 15% of schools nationally
996.2 to 1004.8	Middle 20% of schools nationally
989.3 to 996.1	Next 15% of schools nationally
971.2 to 989.2	Next 20% of schools nationally
971.1 and below	Bottom 5% of schools nationally

Borough and national figures are not published in these indicators

% of pupils included in the calculation - these figures in the table refer to the proportion of pupils with matched KS2 results. If a pupil has below a B grade in the given subject, and does not have KS2 results, they are not included in the progress measure calculations (see note 3 below for the reason for this).

Explanatory notes

1. National targets require schools to ensure that a specified percentage of pupils make at least expected progress in English and, separately, in maths between the end of KS2 and the end of KS4. 'Expected progress' assumes pupils achieving a level 4 in English or in maths by the end of KS2 are expected to achieve at least a C grade GCSE in that subject.
2. Pupils who have not been entered for GCSEs or are ungraded will be deemed as not having made expected progress, regardless of their starting point.
3. Pupils attaining level 5 at KS2 are expected to attain at least a grade B GCSE. Given that level 5 is the highest National Curriculum level at which a pupil can be assessed, all pupils attaining grades A*-B will be deemed to have made the expected progress – whether or not their prior attainment is known.
4. Pupils attaining level 2 at KS2 are expected to attain a grade E GCSE. Therefore, pupils known to be assessed at level 2 or below at KS2 – namely those with a 'B' (working below the level assessed by the tests) or 'N' (no test level awarded) will not be deemed to have made expected progress if they attain a grade A*-E at GCSE.

"<" denotes the school or college has 10 or fewer students in a particular performance indicator. Results are not shown because of the risk of an individual student's results being identified.

"-" denotes data is not available.

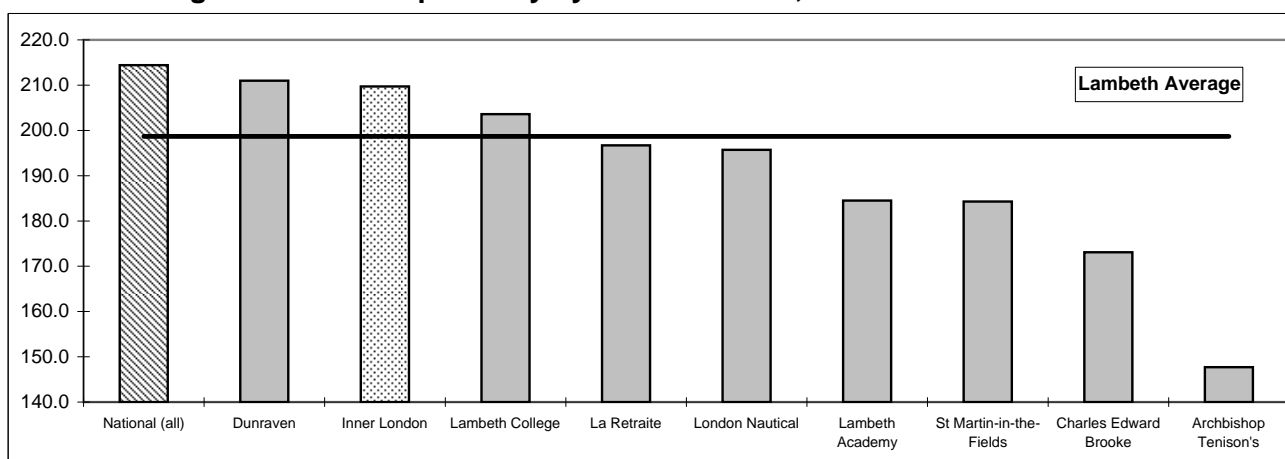

QCDA APS = Qualifications and Curriculum Development Agency Average Points Score. This method of scoring qualifications was introduced in 2006 and enables the inclusion of a wider range of vocational options. Each qualification is allocated an 'equivalence' which relates to the size and challenge a qualification poses compared to an A Level.

The Lambeth and Inner London figures include all providers. The National data is shown twice, once for all providers (all schools and FE colleges) and secondly excluding independent schools.

Students included were entered for a GCE or VCE A level or other Level 3 qualification equivalent in size to an A-level.

Croydon, Merton, Kingston and Richmond are included in these tables for information, as collectively they educate a large proportion of our residents post-16.

PUPIL ACHIEVEMENT - A/AS LEVEL AND EQUIVALENT

- Data not available. < is displayed where cohort size equals 10 or below.

Terms used and their definitions

Cohort - This relates to the total number of 16-18 year olds at the end of their A/AS or equivalent studies. VA information is not shown where this figure is 10 or below.

The KS4 to KS5 VA measure - This is a new measure introduced in 2008 and allows comparisons to be made between institutions with different intakes by taking into account each student's starting point or Key Stage 4 prior attainment, usually attained whilst in Year 11 - the biggest single predictor of their results at 'Key Stage 5'. It also takes into account a number of other explanatory factors which have been observed to impact on its students' results, even after allowing for their prior attainment, such as gender, the type of qualification and size of the learning programme they have studied.

Confidence Intervals - This refers to the range of scores (defined by an upper and lower limit) within which we can be statistically confident the VA measure represents the overall effectiveness of an institution. This relates to a number of factors, such as cohort size. The larger the range between the upper and lower CIs the less confidence can be placed on the VA measure as an indicator of whether a school or college's effectiveness is significantly above or below the national average.

The coverage indicator - This shows the proportion of students at the end of KS5 study who were included in the value added calculation. It also gives some indication of schools where the value added measures may be unrepresentative. A low indicator means information was not available to calculate the value added for a large proportion of the institutions students, and so these students could not be included in the calculation.

How to interpret a value added measure

Scores above 1000 represent schools where students made more progress, on average, than pupils nationally. Scores below 1000 represent schools where students made less progress.

An institutional VA score of 1030 means that on average each of the school/college students achieved the equivalent of one A level grade higher in one subject than the average attained by similar students. Conversely, a score of 970 means that the school/college students achieved one grade lower than the average attained by similar students.

Some examples for Key Stage 4 to 5 VA are: a score of 995.3 with a CI between 983.1 and 1007.5 means the progress made by students in the institution's 'Key Stage 5' cohort is not significantly different from the national average; a score of 1023.7 with a CI between 1015.3 and 1032.1 means the progress made by students in the institution's 'Key Stage 5' cohort is significantly above the national average; a score of 987.6 with a CI between 977.9 and 997.3 means the progress made by students in the institution's 'Key Stage 5' cohort is significantly below the national average.

The table below shows where schools can be placed nationally compared to other schools, based on their VA measure.

1031.7 and above	1011.4 - 1031.6	1003.9 - 1011.3	996.3 - 1003.8	987.9 - 996.2	967.8 - 987.8	967.7 and below

PUPIL ACHIEVEMENT - A/AS LEVEL AND EQUIVALENT

Proportion of people studying in a local authority at age 16 that reach the level 2 threshold by age 19 (National Indicator 79)

	Young people aged 19 at the end of:				
	2004/05	2005/06	2006/07	2007/08	2008/09
Lambeth	55.4%	61.4%	67.9%	71.2%	74.1%
National	69.1%	71.2%	73.7%	76.5%	78.7%
LA to National Gap	-13.7%	-9.8%	-5.8%	-5.2%	-4.6%

Proportion of people studying in a local authority at age 16 that reach the level 3 threshold by age 19 (National Indicator 80)

	Young people aged 19 at the end of:				
	2004/05	2005/06	2006/07	2007/08	2008/09
Lambeth	33.1%	39.2%	42.8%	44.8%	47.4%
National	45.4%	46.7%	48.1%	49.8%	51.4%
LA to National Gap	-12.3%	-7.5%	-5.3%	-5.0%	-4.0%

Figures shown here are based on the Fisher Family Trust matched administrative dataset for 2008/09. The dataset is made up of PLASC (pupil level annual school census) data collected by DfE, ILR (individual learner record) data from the Data Service and awarding body data.

Level 2 threshold = 5 GCSEs at grades A*-C or equivalent. Level 3 threshold = 4 AS or 2 A-levels or equivalent.

LA figures are calculated with the numerator being those young people studying at a school in the LA at academic age 15 (ie in year 11) who reach Level 2/3 at 19 as appropriate (regardless of where they eventually gain the L2/3). The denominator is based on the Annual School Census figure for number attending schools in the given LA at academic age 14).

The methodology for the LA figures differs from the national figures in the SFR, in that achievements for young people entering the data after year 11 are not counted towards the LA numerators.

The time series has been revised since last year's publication to take account of improved methodology assigning young people to local authorities.

PUPIL ACHIEVEMENT - A/AS LEVEL AND EQUIVALENT

Travel to study patterns for 14-16 year old Lambeth residents, 2009

	2009	
	Number	% of residents
Lambeth resident 14-16 year old cohort	4,437	
Remain in borough for education	2,074	47%
'Exports' to other boroughs	2,363	53%
'Imports' from other boroughs	808	

2010 data for the 14-16 cohort will be available in June, after the publication of this document.

Of the 14-16 year old resident population, 53% of Lambeth residents are educated out of borough (exports). Lambeth is the top exporter of pupils of all London boroughs.

The top 5 boroughs Lambeth exports its 14-16 residents to are Wandsworth (717), Southwark (610), Croydon (367), Westminster (300), and Merton (140).

Lambeth's 14-16 year old imports (residents from other boroughs educated in our schools/college) are mainly from Southwark (287 students), Croydon (198) Wandsworth (92) and Merton (58).

Travel to study patterns for 16-18 year old Lambeth residents, 2009 & 2010

	2009		2010	
	Number	% of residents	Number	% of residents
Lambeth resident 16-18 year old cohort	6,412		5,805	
Remain in borough for education	1,902	30%	1,776	31%
'Exports' to other boroughs	4,510	70%	4,029	69%
'Imports' from other boroughs	1,281		1,187	

Of the 16-18 year old resident population, in 2010 69% of Lambeth residents are educated out of borough (exports). Only Merton and Southwark export more (81% and 74% in 2010). This has been the case for several years now.

The top 5 boroughs Lambeth exports its 16-18 residents to are Wandsworth (1,474 residents), Croydon (483), Richmond (318), Westminster (268) and Southwark (239).

Lambeth's 16-18 year old imports (residents from other boroughs educated in our schools/college) are mainly from Southwark (424 students), Wandsworth (207) and Croydon (200).
