

# EDUCATION STATISTICS

**2013-14**

## **INTRODUCTION**

This is the seventeenth edition of the Lambeth "Education Statistics", providing statistical data on the Education Service within the borough.

Everyone now realises how important it is to measure performance by objective means. Statistical measurements can never tell us everything about the effectiveness of a service. However, they can help us to judge progress, to question our use of resources and to compare what we are doing with the achievement of others in our quest for constant improvement. Better statistics lead to better performance management. It is at the heart of what local authorities can do to support educational achievement.

In Lambeth, we are committed to making ourselves a questioning and a learning local authority. We hope this document will enable those in schools and other services to make better judgements about their own performance and to set targets for improvement. We intend that this data will also inform every aspect of our work and the decisions that the Council makes.

This data will help the service to manage performance better and to make best use of resources in addressing issues of pupil achievement.

## SCHOOL BUDGET SHARE

### Primary Schools Budget Share, 2014-15

The following information must be taken into account when interpreting this data:

-Unlike previous years' the primary pupil roll figures now relate to all pupils on roll, rather than a full-time equivalent. This is due to increased complexity in how part-time pupils are now classified in the schools census.

-The total budget figures shown **do not** include payments for National Non-Domestic Rates (NNDR) costs.

-Funding is dependent on a range of factors, such as the number of pupils on roll, the proportion of the school roll who are classified with SEN (special educational need), and the prior attainment profile of a school's pupils.

The mechanism for reporting permanent exclusions for the previous academic year changed in 2008, from an annual to a termly report. This, to some extent, explains the differences between the 2005-06 and 2006-07 figures.

The lower figures in 2010-11 for primaries and secondaries are in part due to academies data not being included.

# NATIONAL CURRICULUM TERMS AND DEFINITIONS

## 1. The National Curriculum

Pupils aged 5 - 16 in state schools must be taught the National Curriculum. This is divided into four "key stages", which depend on children's ages.

Year Group	Foundation	1	2	3	4	5	6	7	8	9	10	11
Age of pupils at end of year	5	6	7	8	9	10	11	12	13	14	15	16
KEY STAGE	EYFS	KEY STAGE 1		KEY STAGE 2				KEY STAGE 3			KEY STAGE 4 (GCSE)	

EYFS = Early Years Foundation Stage

### Levels of Achievement

The National Curriculum sets standards of achievement in each subject for pupils aged 5-14. For most subjects, the levels range from 1-8. Pupils climb the levels as they get older and learn more.

The DfE classifies a good level of development as those pupils at or exceeding all Prime Learning Goals and Literacy and Maths (12 Goals in total), with the other key indicator being those pupils at or above all 17 Learning Goals. The EYFS was totally changed in 2013 so in this edition comparison to previous years' data is not possible.

Most 7 year olds are expected to achieve Level 2B

Most 11 year olds are expected to achieve Level 4

Most 14 year olds are expected to achieve Levels 5 or 6

Pupils must take national tests at the end of each key stage. These show a pupil's performance in selected parts of a subject on a particular day. At Key Stage 1 prior to 2005, pupils were tested in reading, writing and mathematics. In 2005 this changed so that teacher assessments in these subjects were reported, underpinned by the tests. At Key Stage 2 pupils are tested in English and mathematics (the science tests were discontinued in 2010) and Key Stage 3 are now wholly teacher assessments. These tests and assessments give a measure of how pupils and schools are doing, compared with national standards in these subjects.

## 2. Social Factors Influencing Performance

Research conducted over many years has shown that a pupil's background and circumstances can have an effect on performance. The tables and graphs on the following pages show the performance of pupils in Lambeth schools for each of the key stages. Some of the factors that Lambeth considers when looking at performance include:

### Gender

Girls tend to do better than boys in all the key stages. This is especially noticeable in English.

### Free School Meals

Previous research has shown a link between social deprivation and performance. Lambeth, in common with many other LAs, uses eligibility for free school meals as a proxy indicator for deprivation.

### Fluency in English

Lambeth uses a London wide scale to describe the fluency levels of pupils whose first language is not English. "Stage 1" pupils are beginners, "Stage 2" pupils are becoming familiar with English, "Stage 3" pupils still need some support with English and "Stage 4" pupils are fully fluent in English. "Stage 5" refers to pupils who only speak English.

### Ethnicity

Both National and Lambeth research has shown differences in educational achievement when ethnic background is examined. Lambeth collects ethnic background information using 21 categories, which best cover the diverse background of the borough.

### Note of Caution

The tables on the following pages show the number of pupils in each category. Care should be taken when interpreting categories where the numbers are small, as the results can be distorted dramatically by the effects of very few pupils.

The EYFSP is a teacher assessment of reception age children in Prime Learning Goals (Communication and Language, Physical Development, and Personal Social and Emotional Development) and Specific Learning Goals (Literacy, Mathematics, Understanding of the World, and Expressive Arts and Design).

A pupil is scored with 1 - Emerging, 2 - Expected, or 3 - Exceeding. A 2 or 3 is required to achieve the early learning goal.

The EYFS was totally changed in 2013 so that comparison to previous years' data is not possible. The DfE have said "From 2013, children will be defined as having reached a good level of development at the end of the EYFS if they achieve at least the expected level in: the early learning goals in the prime areas of learning (personal, social and emotional development; physical development; and communication and language) and; the early learning goals in the specific areas of mathematics and literacy. The GLD measure will be supported by a measure of the average of the cohort's total point score across all the early learning goals in order to also help to promote the attainment of all children across all the early learning goals."

The measures reported here are:

- Percentage of pupils with a Good Level of Development (GLD). These are pupils expected or exceeding all Prime Learning Goals and Literacy and Mathematics.
- Average Total Points for the cohort. If a pupil achieves the expected in all the learning goals, their average total points will be 34.0 (17 early learning goals times the score of 2)
- Percentage expected or exceeding all the 17 Learning Goals

## Terms used and their definitions

**KS1-2 value added measures.** Each pupil's value added score is based on comparing their KS2 performance with the median - or middle - performance of other pupils with the same or similar results at KS1. The individual scores are averaged for the school to give a score that is represented as a number based around 100. This indicates the value the school has added, on average, for their pupils. Three VA measures are published, one combines reading, writing and maths (the Overall measure), with reading, writing and maths measures also published separately.

**Confidence Limits.** These denote a range of scores within which we are statistically confident that a school's true VA score will fall, and are always centred around the school's VA score. For example, for a VA score of 101, if the difference between the upper and lower limits is 2 points, the range (or interval) goes from 99 to 103. The size of the interval is determined by the number of pupils in the KS2 cohort. Smaller schools have wider intervals as fewer pupils means there is less evidence on which to judge the school's overall effectiveness.

**Coverage indicator.** This shows the proportion of pupils eligible for KS2 assessment that were included in the value added calculation. A low indicator means information was not available to calculate the value added for a large proportion of a school's pupils, and so these pupils could not be included in the value added calculation.

## How to interpret a school's value added measure

Scores above 100 represent schools where, on average, pupils made more progress than similar pupils nationally, whilst scores below 100 represent schools where pupils made less progress. For example, a measure of 101 means that, on average, each of a school's pupils made one term's more progress between KS1 and KS2 than the median for pupils with similar attainment at KS1. Conversely, a score of 99 means a school's pupils made a term's less progress.

To judge a school's effectiveness, both the VA score and the confidence limits need to be taken into account. If the whole range of the confidence interval is above 100 i.e. the lower limit is above 100, we can say the school score is *significantly above* the national average. In this instance we can be confident the school is helping its pupils make better than average progress. Conversely, when the entire range of the confidence interval is below 100 i.e. the upper limit is less than 100, we can say the school score is *significantly below* the national average. The third scenario is where the confidence interval straddles the national average of 100 i.e. the school is not significantly different from the national average. In other words, we cannot confidently say the school's VA score is definitely above or below the national average.

The table below shows percentiles for the KS1-2 Overall VA measure. They illustrate the distribution of scores and show where schools can be placed nationally compared to others.

101.7 and above	100.7 to 101.6	100.3 to 100.6	99.7 to 100.2	99.3 to 99.6	98.3 to 99.2	Below 98.3

Prior to 2013, average point scores shown here are calculated using the individual point scores achieved by pupils in English and maths e.g. where a pupil gained 27 and 33 points in the two subjects, their APS is 30 - where the aggregate (60 total points) is divided by the number of subjects (2). School APS figures are the aggregate of pupil point scores, divided by the total number of subjects taken. The 2013 figures relate to APS in reading, writing (TA) and maths to take account of changes made by the DfE.

Raising the attainment of children with the most deprived circumstances is a Government priority. The pupil premium guarantees additional funding for schools with children eligible for free school meals (FSM), children looked after (CLA) and children of service personnel.

These measures show how the performance of disadvantaged pupils (defined as FSM and CLA) compares against other pupils in a school. Readers will be able to see whether there is any gap in performance and, in due course, whether any gap has closed over time.

SUPP (suppressed) = if the number of pupils who are either FSM eligible or continuously looked after for 6 months totals fewer than 6 then any indicator relating to FSM/CLA or non-FSM/CLA will be suppressed. In his 2011 report on Key Stage 2 assessment, testing and accountability, Lord Bew took account of feedback from schools in relation to the use of small numbers in accountability.

Disadvantaged pupils refers to those who were eligible for Pupil Premium funding, defined as being FSM eligible at any time in the previous six years, or have been looked after continuously for more than six months, and children of service personnel.

Terms used and their definitions

**Pupil progress** - The Government expects the majority of pupils to make at least expected progress in English and, separately, in maths between the end of KS2 and the end of KS4. Expected progress is defined as pupils achieving a level 4 in English or in maths by the end of KS2 achieving at least a C grade GCSE in that subject.

**VA score** - this is based on a pupil's "best eight" results, with bonuses awarded for achievements in English and maths. The resulting score is a number based around 1000, with the national outcome being 1000.

**Confidence Intervals** - This refers to the range of scores (defined by an upper and lower limit) within which we can be statistically confident the CVA measure represents the overall effectiveness of a school. This relates to the size of the cohort i.e. the smaller the cohort, the larger the range will be and the less confidence can be placed on the CVA measure as an indicator of whether a school's effectiveness is significantly above or below average.

**The coverage indicator** - This shows the proportion of pupils at the end of KS4 (irrespective of their age) who were included in the value added calculation. It also gives some indication of schools where the value added measures may be unrepresentative. A low indicator means information was not available to calculate the value added for a large proportion of a school's pupils, and so these pupils could not be included in the calculation.

How to interpret a school's value added measure

Scores above 1000 represent schools where students made more progress, on average, than pupils nationally. Scores below 1000 represent schools where students made less progress.

For each of the KS4 VA measures, a measure of 1006 means that on average each of the school's pupils achieved the equivalent of one GCSE grade higher in one subject than the average attained by similar pupils. A score of 1048 means that on average each pupil achieved one GCSE grade higher in each of their best eight subjects than the average attained by similar pupils. Conversely, a score of 994 means that the school's pupils achieved one grade lower in one subject on average, while a score of 952 means that pupils achieved on average one grade lower in each of their best eight subjects.

Average grades are based on the average points score, and are seen as a more meaningful indicator to the public than APS. As an example, a C- = 37.0 to 38.9; C = 39.0 to 40.9; C+ = 41.0 to 42.9. For more detailed information and for all the grade thresholds go to [http://www.education.gov.uk/schools/performance/secondary\\_11/documents.html](http://www.education.gov.uk/schools/performance/secondary_11/documents.html)

"<" denotes the school or college has 10 or fewer students in a particular performance indicator. Results are not shown because of the risk of an individual student's results being identified.

"-" or "n/a" denotes data is not available.

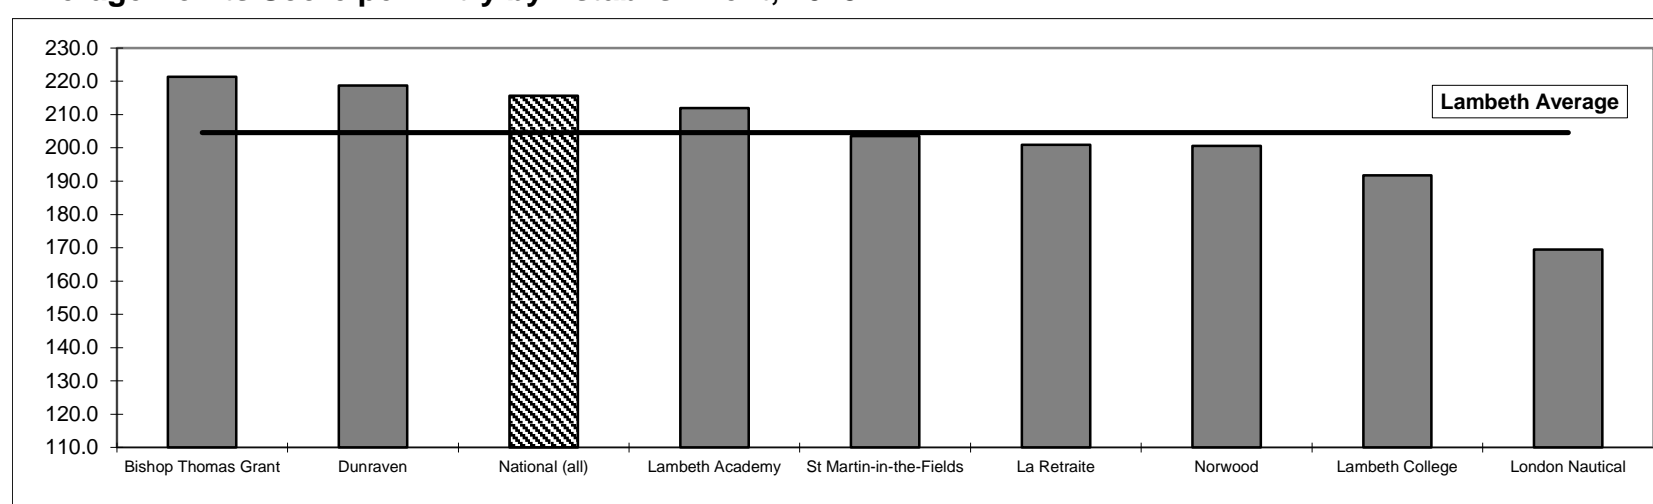

APS = Average Points Score. The DfE scoring method includes all types of Level 3 qualification. Each one is allocated an 'equivalence' which relates to the size and challenge a qualification poses compared to an A Level. The UCAS points tariff still exists for entry into the HE sector.

The Lambeth figures include all providers. The National data is shown twice, once for all providers (all schools and FE colleges) and secondly excluding independent schools.

Students included were entered for a GCE or VCE A level or other Level 3 qualification equivalent in size to an A-level.

Croydon, Merton, Kingston and Richmond are included in these tables for information, as collectively they educate a large proportion of Lambeth residents post-16.

**Explanatory KS4-5 value-added text taken from Performance Tables:**

Value added is a measure of the progress students have made between the different stages of their education in relation to their peers nationally. For level 3 value added, we look at the results achieved by each student in advanced level qualifications and compare them with the achievements of similar students nationally who, according to their results at the end of key stage 4, were of the same level of ability.

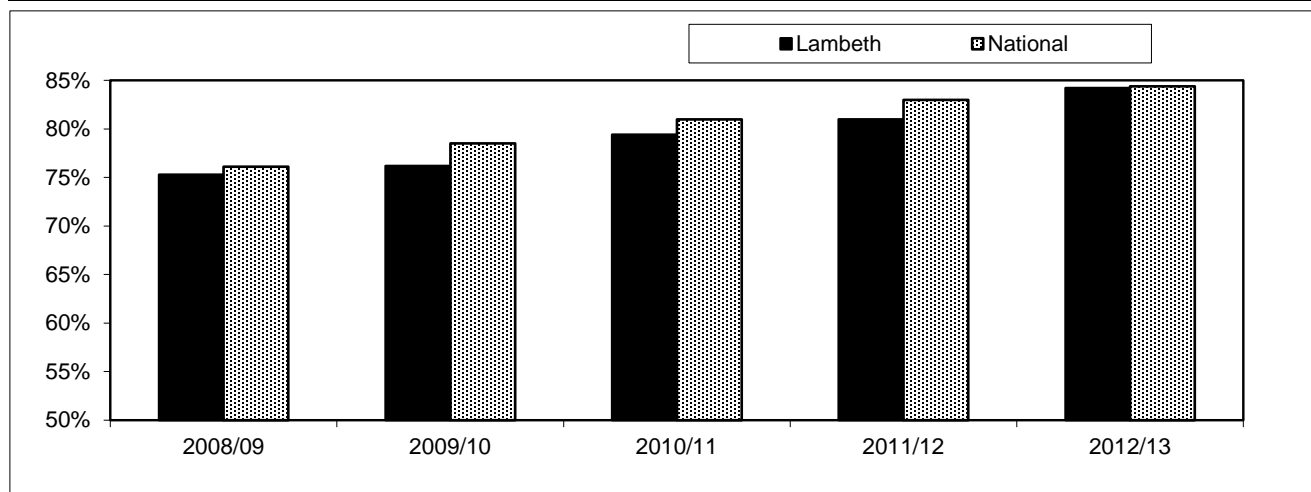

Value added scores are given as a number of grades above or below the national average. Positive scores indicate students made more progress than the national average, and negative scores indicate students made less progress than the national average.

## PUPIL ACHIEVEMENT - A/AS LEVEL AND EQUIVALENT

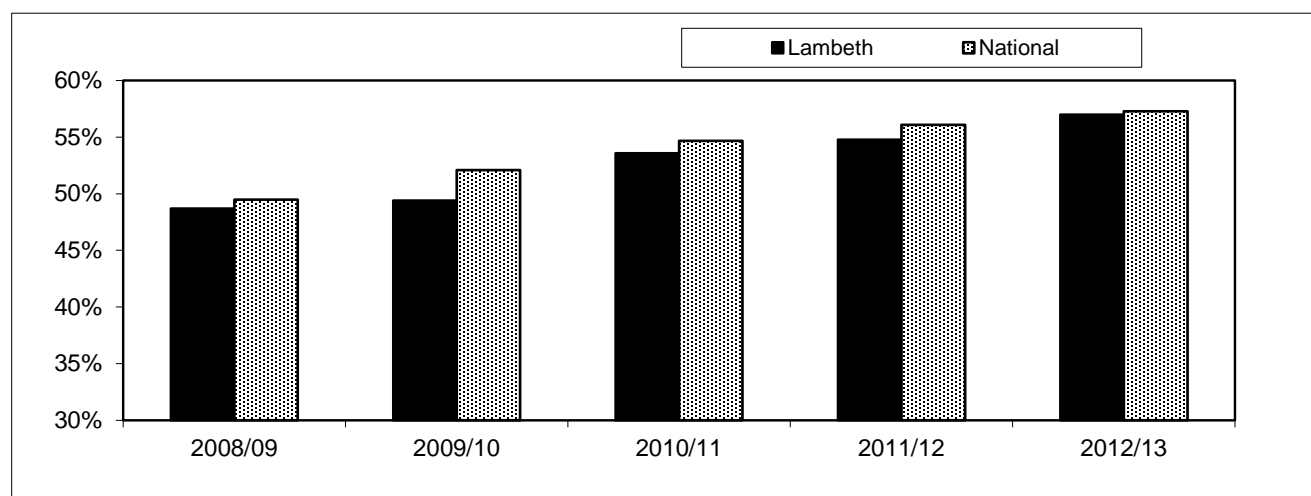

**Proportion of people studying in a local authority at age 16 that reach the level 2 threshold by age 19**

	Young people aged 19 at the end of:				
	2008/09	2009/10	2010/11	2011/12	2012/13
Lambeth	75.3%	76.2%	79.4%	81.0%	84.2%
National	76.1%	78.5%	81.0%	83.0%	84.4%
LA to National Gap	-0.8%	-2.3%	-1.6%	-2.0%	-0.2%

**Proportion of people studying in a local authority at age 16 that reach the level 3 threshold by age 19**

	Young people aged 19 at the end of:				
	2008/09	2009/10	2010/11	2011/12	2012/13
Lambeth	48.7%	49.4%	53.6%	54.8%	57.0%
National	49.5%	52.1%	54.7%	56.1%	57.3%
LA to National Gap	-0.8%	-2.7%	-1.1%	-1.3%	-0.3%

Figures shown here are based on the DfE matched administrative dataset. The dataset is made up of DfE Schools Census data, ILR (individual learner record) data from the Data Service and awarding body data.

Level 2 threshold = 5 GCSEs at grades A\*-C or equivalent. Level 3 threshold = 4 AS or 2 A-levels or equivalent.

LA figures are calculated with the numerator being those young people studying at a school in the LA at academic age 15 (i.e. in year 11) who reach Level 2/3 at 19 as appropriate (regardless of where they eventually gain the L2/3). The denominator is based on the Annual School Census figure for number attending schools in the given LA at academic age 14. These denominators were revised this year to include the dual registered pupils in their main institution (whereas before they were not counted).

The methodology for the LA figures differs from the national figures in the main SFR, in that achievements for young people entering the data after year 11 are not counted towards the LA numerators.
