1 - Introduction

Lambeth commissions Experian Goad data annually for the six largest town centres in the borough in addition to the Lower Marsh/The Cut CAZ Frontage. This data provides a full list of the occupants of ground floor units within each location surveyed and includes information on use class and vacancy. It should be noted that planning histories are not checked as part of the data collection process, so the Goad data is not a definitive record of the lawful planning use of each unit. As and when planning applications or prior approval applications (if required) are received, the lawful use will be fully investigated prior to determination. The Goad data should therefore be used to give an indication only of the position on numbers and proportions of ground floor uses in each centre.

The following tables summarise the latest set of ground floor data for each of the major centres, the largest district centres and the Lower Marsh/The Cut CAZ Frontage. The Brixton primary shopping area data was collected through an in-house survey undertaken in March 2019. The Brixton indoor markets data is sourced from a 2019 Goad data. The Herne Hill data was collected through an in-house survey undertaken in November 2016. Where relevant to the Draft Revised Local Plan - Proposed Submission Version 2020 (DRLLP PSV 2020) policy requirements, A1 proportions are highlighted in blue, A3/4/5 proportions are highlighted in green and evening and night-time economy proportions are highlighted in yellow.

2 - Major Centres

2.1 Brixton (March 2019)

Major Centre Boundary

DRLLP PSV 2020 policy PN3(a) requires that, in the primary shopping area (PSA), the proportion of retail (A1) units does not fall below 60 per cent and that the proportion of food and drink uses (A3/4/5) does not exceed 25 per cent, taking account of unimplemented planning permissions for change of use. In addition, no more than 2 in 5 consecutive ground floor units in the primary shopping area should be in food and drink use (A3/4/5) at one time.

Table 1: Brixton primary shopping area (PSA) (March 2019)

DRLLP PSV 2020 policy PN3(b) requires in the indoor markets (Brixton Village, Market Row, Reliance Arcade), that no less than 50 per cent of floorspace should be in A1 use and no more than 50 per cent floorspace should be in A3 use within each indoor market. The following table outlines ground floor data for units in the Brixton primary shopping area as of March 2019. It excludes units located in each of the indoor markets:

The following tables outline the latest ground floor data for units in each of the indoor markets:

DRLLP PSV 2020 policy PN3(c) proposes to implement an evening economy management zone. In this zone the proportion of evening and night-time economy uses (A3/A4/A5 and nightclubs) should not exceed 40 per cent, taking account of unimplemented planning permissions for change of use. No more than 10 per cent of ground floor units in the evening economy management zone should be in A4 use. In addition, no more than 3 in 5 consecutive ground floor units should be in evening and night-time economy uses (A3/A4/A5 and nightclubs), taking account of unimplemented planning permissions for change of use.

The following table outlines ground floor data for units inside the proposed new evening economy management zone:

Table 5: Ground floor data for units in the proposed new evening economy management zone (March 2019)

One of the six *sui generis* (SG) units is a nightclub therefore 37.9% of units are in evening and night-time economy uses (A3/A4/A5 and nightclubs).

DRLLP PSV 2020 policy PN3(d) states that outside of the primary shopping area, indoor markets (as shown on the Policies Map) and evening economy management zone, ground

floor uses should be in A, D or B use. The proportion of units in A4 and nightclub use should not exceed 5 per cent and no more than 2 in 5 consecutive ground floor units should be in A4 or nightclub use. This should take account of unimplemented planning permissions for change of use.

Table 6: Ground floor data for units outside of the primary shopping area, indoor markets and proposed new evening economy management zone (March 2019)

One of the ten *sui generis* (SG) units is a nightclub therefore 0.9% of units are in A4 or nightclub uses.

2.2 Streatham (July 2019)

Major Centre Boundary

DRLLP PSV 2020 policy PN4(b) states that within the major centre as a whole, no fewer than 60 per cent of ground floor units in each of the two primary shopping areas (Streatham Hill and Streatham Central) are to be in A1 use and within each area no more than 25 per cent food and drink use (A3/A4/A5) and no more than 2 in 5 consecutive food and drink uses.

The following table outlines ground floor data for units in each of the two Streatham primary shopping areas (PSA), Streatham Hill and Streatham Central:

3 - District Centres

3.1 Clapham (July 2019)

District Centre Boundary

DRLLP PSV 2020 policy PN5(c) requires no more than 25 per cent of original ground-floor units in food and drink use (A3/4/5) across the centre as a whole; and no more than 2 in 5 consecutive units in food and drink use. The following table outlines ground floor data for units in the Clapham district centre:

Table 8: Clapham District Centre

Use Class	Count	Proportion (%)	
A1	106	35.8	
A2	31	10.5
