**Attachments:** Cycle Route Map - C5 and CS7.pdf

Hi Matthew

Mr Edwards asked me to prepare a map showing the route of Quietway 5 which runs through Clapham Common.

Attached is a screenshot from TfL's map of Cycleways, located here: <https://tfl.gov.uk/modes/cycling/routes-and-maps/cycleways>. Note TfL are in the process of rebranding all former Cycle Superhighways and Quietways as 'Cycleways'.

The map shows Cycleway 5 (labelled C5, formerly known as Quietway 5) running through the Common, but also continuing on quieter roads to the north, highlighting my point to Mr Edwards that Quietways are on quieter routes, not necessarily off-carriageway / traffic-free routes.

Cycle Superhighway 7 (labelled CS7) is also shown on the map.

Thanks  
Emily
