

Felling Consultation Report

Consultation reference DTC 33841 on the felling of this tree was opened by **Lambeth Council** between 21.08.24 and 19.09.24 and has now closed.

Dear Residents,

Following investigations as part of Lambeth council's normal tree management practices, this tree has been conclusively implicated in subsidence related damage to property, and regrettably, will be removed to prevent further damage.

Please note that as part of our policy to not remove healthy trees wherever possible, all other reasonable mitigation measures, such as a crown reduction, were evaluated and in this instance have been deemed unsuitable.

*Posted on behalf of
Lambeth Trees Services*

Felling is scheduled for W/C 28/10/2024
