**Duncan Whitfield**

Interim Corporate Director of
Finance and Governance and
Section 151 Officer

I am pleased to present the council's 2022/23 statement of accounts. This foreword provides a guide to the most significant matters reported in the council's accounts. Lambeth's financial statements for 2022/23 have been prepared in accordance with the standard format for local authority accounts as recommended by the Chartered Institute of Public Finance and Accountancy (CIPFA) as prescribed by the Code of Practice on Local Authority Accounting in the United Kingdom, which is in turn based on the International Financial Reporting Standards.

The foreword provides:

- Financial context
- The Borough Plan and our 2030 goals
- Medium Term Financial Strategy (MTFS)
- Financial Performance – 2022/23
- Explanation of the key financial statements

FINANCIAL CONTEXT

A lack of stability and certainty has been a major issue for local government finance in the recent past. We now know that funding reforms or changes in funding distribution will not be implemented until 2025-26 at the earliest. This means further delay in funding certainty for local government. This is on top of the major cut in government funding, over a decade, which continues to impact council finances and the service which we provide.

The economic impact of the war in Ukraine, and the resulting increase in inflation together with the challenges post pandemic has dragged the UK into a prolonged (but mild) recession. There is a risk that inflation is more persistent than expected. Inflation predictions by the Bank of England have been below those we have actually experienced. As a result, Government funding for local government has fallen in real terms.

The resulting cost-of-living crises has exacerbated the current situation and has had a major impact in the finances of not just the council but residents and businesses across the Borough, the capital and the whole of the country.

Difficult decisions have been made by residents and business in the Borough. Our most vulnerable communities are hit the most especially due to rising cost of essential needs. During what is a difficult time for our borough and our country, we have mobilised our staff and partners to continue to provide critical services for our community. Our approach has been strongly rooted in the ambitions and themes of Lambeth's Borough Plan. We have responded at pace to protect those who have needed it.

We have provided support to children during school holidays, helped families with household bills, promoted warmth places, and reduced council tax bills for those on council tax support schemes. We also recognise that we need to continue the support in 2023-24 which is why Lambeth Council's cost of living crisis response plan will direct an extra £10 million to vital support for those hit hardest by the cost of living crisis.

BOROUGH PLAN – LAMBETH 2030 - OUR FUTURE , OUR LAMBETH

Lambeth is a global destination, with strong institutions that help shape a unique cultural offer – from Waterloo and South Bank, to the vibrance of Brixton and local highstreets of Streatham and West Norwood, Lambeth has something for everyone. We are a place of sanctuary, and for hundreds of years, we have welcomed new communities who have left a lasting imprint on our borough.

We know it is this exceptional history and the contribution and kindness of the people of Lambeth that makes it so special. It is weaved throughout every neighbourhood and community and is why so many of us continue to visit, work in the borough, and have made Lambeth the place they call home. Recognising and reflecting this impact is important to us as we look to the future of Lambeth. We know that to be the best borough we can possibly be, we need to harness and nourish our assets, resources, and community energy, so that everyone in Lambeth can belong, can thrive, and so that nobody is left behind.

Doing this will not be easy and cannot be done alone. Despite all our strengths and our passion, we know a longer-term, nuanced and joined-up approach is needed to continue to tackle the economic, social and environmental challenges facing our residents, our businesses, our partners. We will continue to be ambitious – and have the courage and willingness to do things differently, in partnership, to deliver for our residents.

To address the challenges that lie ahead, we’ve developed our collective roadmap to 2030 – “Our Future, Our Lambeth” – a Borough Plan that unites us all.

To design this Borough Plan, we invited everyone who lives, visits, and works in Lambeth to have their say. Founded on what we were told matters to you, this Borough Plan builds on the strengths that exist in the borough and in our communities, affirms our collective vision and ambitions and outlines how we will take forward our shared priorities, with a longer-term look to 2030 so that we can deliver sustainable change.

With bold political and civic leadership and strengthened partnerships with key institutions and local organisations, now is the time to future-proof Lambeth and work more closely and effectively together to deliver better outcomes for the people of Lambeth. This Borough Plan will not have all the answers to the challenges we face but it is our commitment to everyone in Lambeth that we will strive to get the basics right, and that we will harness the abundance of local expertise, energy and passion in our design and decision-making so that everybody in the borough is empowered to create Lambeth 2030.

Our Lambeth 2030 Goals

A Borough of Equity and Justice

- By 2030, Lambeth will have lower levels of deprivation, with fewer children growing up in poverty.
- By 2030, Lambeth will tackle the structural inequalities adversely impacting Black, Asian and Multi-Ethnic residents by being a borough of anti-racism.
- By 2030, Lambeth will be a borough of progress, working with LGBTQ+ communities and disabled residents to tackle the biggest challenges they face.

Making Lambeth Neighbourhoods Fit for the Future

- By 2030, Lambeth will be a Net Zero Borough.
- By 2030, Lambeth residents will experience good health and wellbeing, with an improved healthy life expectancy for those with the poorest outcomes.
- By 2030, Lambeth will be a sustainable and healthy borough, with more accessible and active travel options for everyone.

Making Lambeth One of the Safest Boroughs in London

- By 2030, Lambeth will be a safer borough for everyone, with a significant reduction in serious violence against young people
- By 2030, Lambeth will be safer for women and girls, and all residents experiencing gender-based violence will be able to access support.
- By 2030, Lambeth will be a borough of prevention, tackling the root causes of violence to protect our communities.

Making Lambeth A Place We Can All Call Home

- By 2030, Lambeth will be a borough of opportunity, with local people benefitting from jobs in our future growth industries.
- By 2030, Lambeth will increase the supply of genuinely affordable housing and the quality of existing homes for residents who need them.
- By 2030, Lambeth will be a borough of sanctuary and an Age and Child Friendly borough.

MEDIUM TERM FINANCIAL STRATEGY (MTFS) 2023/24 TO 2026/27

The Medium Term Financial Strategy was agreed in March 2023 as part of the council's budget and council tax setting report. This sought to provide the financial framework for the four years from 2023/24 to 2026/27.

The main objectives of our MTFS are:

- Prioritise our resources in line with the Council's Borough Plan and priorities.
- Maintain a balanced budget position, and to always set a MTFS which maintains and strengthens that position.
- Provide a robust framework to assist the decision-making process within the Council.
- Manage the Council's finances with a forward looking four year rolling strategy.
- Deliver value for money to our taxpayers and protecting preventative services
- Exercise probity, prudence, and strong financial control.
- Manage risk, which includes holding reserves and balances at an appropriate and sustainable level as agreed by our S151 Officer.
- Continually review budgets to ensure resources are targeted on our key priorities.

These objectives are at the core of our current MTFS, and we will ensure that these objectives are upheld throughout the duration of the MTFS and beyond. Value for money and risk management are at the heart of the strategy. In respect of value for money to our taxpayers, Cabinet Members have sought to identify efficiencies and savings that do not adversely impact on service delivery where possible and have identified options to enhance value for money through improving performance and/or reducing internal costs.

Whilst the most recent Settlement saw an increase in funding for 2023/24 and together with the latest government announcements, we have more insight into 2024/25 than previously but the uncertainty continues. The MTFS will continue to be updated as we gain greater certainty and clarify on the level of funding. The delivery of agreed savings is an area of significant risk, and detailed plans are required to ensure that the risk is mitigated, and the saving is actually delivered and on time. The Council considers key corporate risks via the risk register, which is monitored at Management Board in addition to Corporate Committee (the Council's audit committee).

SUMMARY OF FINANCIAL PERFORMANCE IN THE YEAR

Overall the council has balanced its budget due to underspends in Corporate Items, the council's services have reported some major variances resulting in a net overspend £25.140m, broken down into the following areas:

- £20.023m – Children's Services, £17m Social Care and £3.3m for Education (GF)
- £6.743m – Housing Services (GF), £5.4m Temporary Accommodation
- £0.524m – Finance, Investment and Legal Services
- (£0.010m) – Sustainable Growth & Opportunity
- (0.016m) – NRPF (No Recourse to Public Funds)
- (£0.45m) – Adults & Health
- (£0.209m) – Chief Executive
- (£1.869m) – Resident Services

Financial Performance by Directorate

Council Outturn	Net	339,175	339,175	-

Dedicated Schools Grant

The £2.7m deficit brought forward has been turned into a cumulative surplus of £2.1m carried forward at the end of 2022/23. There were large underspends in SEND and Early Years that contributed to this, pointing to the need to improve links between finance and activity in these areas. There was also a credit balance in the Council's accounts that had long been treated as a school balance but had become too large to treat in that way, so there was a late decision to credit that balance to the DSG, thus, contributing to the cumulative surplus position.

Dedicated Schools Grant (DSG)	21/22 B/F Balances £000's	Budget £000's	Outturn £000's	In-year Variance £000's	22/23 c/f Variance £000's

Total Expenditure	2,743	229,707	224,851	(4,856)	(2,113)

Housing Revenue Account

Housing Revenue Account (HRA) reported a £9.098 adverse variance. The most significant multi-year theme is the cost of disrepairs, legal costs and compensation. The HRA is required to balance overall. The variance will have to be covered from reserves.

Housing Revenue Account	Budget £'000	Outturn £'000	Variance £'000
Housing Services	68,912	75,838	6,926
Central HRA Budgets & Transfers to Reserves	(83,684)	(122,010)	(38,326)

Housing Revenue Account (HRA)			
Income	(185,551)	(186,520)	(969)
Expenditure	172,378	167,228	(5,150)
CIES Below Cost of Services	150	1,786	1,636
Below the Line - MIRS	13,023	26,602	13,579
Total Expenditure	-	9,097	9,097

Capital

Capital budget for 2022/23 was £205.155. However, £135.621m has been spent. £69.536m will be carried forward into future years. Update on each capital theme is provided as a separate document to this report.

The council currently has £338.9m of approved schemes to be delivered from 2023/24. The capital investment programme (CIP) is an amalgamation of both General Fund and Housing Revenue Account capital schemes. It is expected that the main sources of capital funding in future years will be Section 106 and Community Infra-structure Levy (CIL) contributions from development and prudential borrowing. In developing the CIP for coming years, the council will need to consider the impact on revenue budgets of borrowing to finance its capital priorities, as borrowing costs represent a pressure on revenue unless the capital project generates an income stream. The council will continue to seek external funding where possible, however in line with other funding from central government, capital grants are also expected to reduce in coming years. The current economic conditions have had an effect on the availability of such funding; however it is not yet clear what the longer term implications may be. If there are significant drops of income, there may be a need to adjust the capital programme in the future.

Financing the Capital Investment Programme

- £26.6m of grant monies (£17.6 m in 2021/22)
- £38.6m (£29.4m in 2021/22) of internal reserves and revenue contributions (including via the Major Repairs Reserve)
- £31.1m of proceeds from the disposal of Council assets (£9.0m in 2021/22)
- £24.3m from internal and external borrowing against cash balances (£65.8m in 2021/22)
- £12.3m from developers' contributions (£7.4m in 2021/22)
- £2.8m from Section 20 receipts (none in 2021/22)
- Total: £135.6m

Directorate	2022/23 Budget £'000	2022/23 Actuals £'000	2022/23 Carry Forward £'000
Adults & Health	3,317	1,100	(2,217)
Resident Services	60,395	46,155	(14,240)
Housing Services (GF)	900	541	(359)
Sustainable Growth & Opportunity	40,563	33,008	(7,555)
Finance & Investment	8,161	7,809	(352)
Childrens Services	1,497	185	(1,312)
Housing Revenue Account (HRA)	90,323	46,823	(43,500)
Total	205,155	135,621	(69,536)

Borrowing

The council has long-term borrowing of £752.7m sourced from the Government owned Public Works Loan Board. It also has short-term borrowing of £65m from local authorities.

General and Earmarked Reserves

The council retains a level of earmarked reserves to fund exceptional items or pressures which are difficult to predict, and which are not included in revenue budgets or within the capital programme. There are also reserves for specific government funding that is carried forward from year to year.

The council planned for the use of reserves to help smooth the impact of government funding reductions and other budget pressures especially during the period of austerity. Not only did this help to protect council services but it has also allowed time to transition towards new ways of working, productivity improvements and efficiencies.

The general fund balance increase is part of a plan to rebuild after using the total to increase the provision for the Lambeth Redress scheme for costs above the current capitalisation order. Much of the decrease in reserves in the previous year is the continuation of using fund set aside for dealing with the medium term effects of the pandemic.

The General Fund reserves have also reduced to cover the overspend within the year and in the Housing Revenue Account (HRA), which is ring-fenced from the General Fund, reserves have decreased to cover in-year overspend.

Reserves	Balance as 31 March 2021 £'000	Balance as 31 March 2022 £'000	Balance as 31 March 2023 £'000
General Fund Balance	(25,870)	-	(849)
GF Earmarked Reserves	(151,068)	(141,464)	(130,113)
General Fund Total	(176,938)	(141,464)	(130,962)
HRA Balances	(10,971)	(17,896)	(8,798)
HRA Earmarked Reserves	(17,944)	(21,688)	(18,050)
HRA Total	(28,915)	(39,584)	(26,848)
Council Total	(205,853)	(181,048)	(157,810)

Pension Fund Revaluation and Pension Liability

The triennial valuation of the Pension Fund took place in 2022, which outlined the contribution rates required by the council in future to meet its Pension scheme liabilities. The contribution rates came into effect on 01 April 2023 and remain in place for three years until 31 March 2026. The next valuation will be carried out after 31 March 2025.

The overall net pension liability of the council is broader than that of the Pension Fund because it includes liabilities relating to employees with pensions managed by the London Pension Fund Authority (LPFA) as well as those of the Pension Fund.

For the Pension Fund and LPFA combined, the scheme assets decreased from £1.889bn to £1.731bn, reflecting the volatile market conditions in the UK and globally.

The overall net pension liability is the net of scheme assets and pension obligations and has increased from £575m to £116m. Please see the Pension Fund accounts for more details.

EXPLANATION OF THE KEY FINANCIAL STATEMENTS

The Statement of Accounts presents the council's income and expenditure for the year, and its financial position at 31 March 2023. It shows the core statement as well as notes to the statements. The format and content of the financial statements is prescribed by the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2022/23, which in turn is underpinned by International Financial Reporting Standards.

They can be complex to understand, with entries such as asset depreciation and impairments and pensions accounted for under IFRS and then reversed out to meet regulatory requirements and not having the same prominence as they would in a private sector set of accounts.

Comprehensive Income and Expenditure Statement (CIES) - This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

Movement in Reserves Statement (MiRS) - This statement shows the movement in the year on the different reserves held by Lambeth, analysed into 'usable reserves' (i.e., those that can be applied to fund expenditure or reduce local taxation) and other reserves. The 'surplus or (deficit) on the provision of services' line shows the true economic cost of providing services, more details of which are shown in the Comprehensive Income and Expenditure Summary (CIES). These are different from the statutory amounts required to be charged to the General Fund Balance and the Housing Revenue Account for council tax setting and dwellings rent setting purposes. The 'Net increase/decrease before transfers to Earmarked Reserves' line shows the statutory General Fund Balance before any discretionary transfers to or from earmarked reserves undertaken by the council.

Balance Sheet - The Balance Sheet shows the value as at the Balance Sheet date of assets and liabilities. The net assets of the council (assets less liabilities) are matched by the reserves held. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e., those reserves that the council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

Cash Flow Statement - The Cash Flow Statement shows the changes in cash and cash equivalents during the reporting period. The statement shows how Lambeth generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the council are funded by way of taxation and grant income or from the recipients of services provided by Lambeth. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e., borrowing) to the council.

There are various notes to the financial statements. One particular note that is specific to Local Government is the 'Adjustments between Accounting Basis and Funding Basis under Regulations' as this lists out the reversals from the financial statements to ensure the accounts comply with UK Statutory requirements and this should therefore be considered alongside the primary statements when reviewing the accounts. There are also a few supplementary statements that make up the accounts including:

The Housing Revenue Account – Income and Expenditure associated with Council Housing is ringfenced by law.

Collection Fund – Council Tax and Business Rates are separately accounted for with the impact of any surpluses and deficit in year impacting the council and other preceptors in future financial years.

Group Accounts – The accounts of the HFL group of companies, owned by the council, are amalgamated into the council's financial statements.

Pension Fund Accounts – The accounts for the Pension Fund are presented separately.

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The Authority's Responsibilities

The Council is required to:

- make arrangements for the proper administration of its financial affairs and to secure that one of its officers (the Chief Financial Officer) has the responsibility for the administration of those affairs;
- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets; and
- approve the statement of accounts.

The Chief Financial Officer's Responsibilities

The Chief Financial Officer is responsible for the preparation of the Statement of Accounts (which includes the financial statements) in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ('the Code') and the Update to the code and Specifications for Future Codes for Infrastructure Assets.

In preparing this statement of accounts, the CFO has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code;
- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities;
- assessed the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- used the going concern basis of accounting on the assumption that the functions of the Authority will continue in operational existence for the foreseeable future; and
- maintained such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Certification of the Chief Financial Officer

I hereby certify that the Statement of Accounts presents a true and fair view of the financial position of the London Borough of Lambeth, including its income and expenditure, and of the London Borough of Lambeth Pension Fund for the year ended 31 March 2023.

Duncan Whitfield

Interim Corporate Director of Finance and Governance and Section 151 Officer
London Borough of Lambeth

Date: 29th November 2024

Approval of the Statement of Accounts

I certify that the audited Statement of Accounts has been approved by resolution of the Audit Committee of the London Borough of Lambeth, in accordance with the Accounts and Audit Regulations 2015.

Councillor Rebecca Spencer
Chair – Corporate Committee

Date: 29th November 2024

INDEPENDENT AUDITOR’S REPORT

Independent Auditors's Report	Page Number
• Independent Auditor’s Report to London Borough of Lambeth	19
• Independent Auditor’s Report to London Borough of Lambeth Pension Fund	24

INDEPENDENT AUDITOR'S REPORT TO LONDON BOROUGH OF LAMBETH

Report on the audit of the financial statements

Opinion on the financial statement

We have audited the financial statements of London Borough of Lambeth ('the Council') and its subsidiaries ('the Group') for the year ended 31 March 2023, which comprise the Council and Group Comprehensive Income and Expenditure Statements, the Council and Group Movement in Reserves Statements, the Council and Group Balance Sheets, the Council and Group Cash Flow Statements, Housing Revenue Account, the Movement on the Housing Revenue Account Statement, Collection Fund Account and notes to the financial statements, including material accounting policy information. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23, as amended by the Update to the Code and Specifications for Future Codes for Infrastructure Assets ("the Code Update"), published in November 2022.

In our opinion, the financial statements:

- give a true and fair view of the financial position of the Council and the Group as at 31st March 2023 and of the Council's and the Group's expenditure and income for the year then ended; and
- have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 as amended by the Code Update.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities section of our report. We are independent of the Council and Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Interim Strategic Director of Finance & Investment's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, and taking into account the requirements of the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 as amended by the Code Update, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Council's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Interim Strategic Director of Finance & Investment with respect to going concern are described in the relevant sections of this report.

Other information

The Interim Strategic Director of Finance & Investment is responsible for the other information. The other information comprises the Annual Governance Statement and information included in the Statement of Accounts, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of the Interim Strategic Director of Finance & Investment for the financial statements

The Interim Strategic Director of Finance & Investment is required to comply with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 as amended by the Code Update and prepare the financial statements on a going concern basis, on the assumption that the functions of the Council will continue in operational existence for the foreseeable future. The Interim Strategic Director of Finance & Investment is responsible for assessing each year whether or not it is appropriate for the Council and Group to prepare its accounts on the going concern basis and disclosing, as applicable, matters related to going concern.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. Based on our understanding of the Council, we identified that the principal risks of non-compliance with laws and regulations related to the Local Government Act 2003 (and associated regulations made under section 21), the Local Government Finance Acts of 1988, 1992 and 2012, the Accounts and Audit Regulations 2015, and the Local Government and Housing Act 1989 and we considered the extent to which non-compliance might have a material effect on the financial statements.

Auditor's responsibilities for the audit of the financial statements (Continued)

We evaluated the Interim Strategic Director of Finance & Investment incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls) and determined that the principal risks were related to posting manual journal entries to manipulate financial performance, management bias through judgements and assumptions in significant accounting estimates and significant one-off or unusual transactions.

Our audit procedures were designed to respond to those identified risks, including non-compliance with laws and regulations (irregularities) and fraud that are material to the financial statements. Our audit procedures included but were not limited to:

- discussing with management and the Corporate Committee the policies and procedures regarding compliance with laws and regulations;
- communicating identified laws and regulations throughout our engagement team and remaining alert to any indications of non-compliance throughout our audit; and
- considering the risk of acts by the Council and the Group which were contrary to applicable laws and regulations, including fraud.

Our audit procedures in relation to fraud included but were not limited to:

- making enquiries of management and the Corporate Committee on whether they had knowledge of any actual, suspected or alleged fraud;
- gaining an understanding of the internal controls established to mitigate risks related to fraud;
- discussing amongst the engagement team the risks of fraud; and
- addressing the risks of fraud through management override of controls by performing journal entry testing.

There are inherent limitations in the audit procedures described above and the primary responsibility for the prevention and detection of irregularities including fraud rests with management and the Corporate Committee. As with any audit, there remained a risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal controls.

We are also required to conclude on whether the Interim Strategic Director of Finance & Investment's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. We performed our work in accordance with Practice Note 10: Audit of financial statement and regularity of public sector bodies in the United Kingdom, and Supplementary Guidance Note 01, issued by the National Audit Office in November 2024.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Report on the Council's arrangements for securing economy, efficiency and effectiveness in its use of resources

Matter on which we are required to report by exception

We are required to report to you if, in our opinion, we are not satisfied that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2023.

On the basis of our work, having regard to the guidance issued by the Comptroller and Auditor General in November 2024, we have identified the following significant weakness in the Council's arrangements for the year ended 31 March 2023:

Significant Weakness in arrangements	Recommendations
Weakness in the Council's financial sustainability arrangements for managing the risk of financial resilience. The Council's general fund balance at 31st March 2023 was £0.8 million and between 2023/24 to 2026/27 the Council has budgeted to replenish its balances by £0.5 million annually, aiming to achieve a general fund position of £2 million by 2026/27. This compares to a base budget of over £400 million. The Council has been relying on reserves to meet the costs of services but cannot continue to do so as the general fund is no longer sufficient, with no plan for its future replenishment.	The Council should take urgent steps to improve its financial resilience through replenishing its general fund balance to an appropriate level, and by setting an achievable programme of savings and determining how it can transform the way services are delivered.

Report on the Council’s arrangements for securing economy, efficiency and effectiveness in its use of resources (Continued)

In December 2023 we identified a significant weaknesses in relation to the governance and arrangements for improving economy, efficiency and effectiveness criteria for the 2021/2022 year. In our view these significant weaknesses remain for the year ended 31 March 2023:

Significant Weakness in arrangements	Recommendations
In November 2022 the ‘Kerslake review of affordable housing in Lambeth’ was published. The report identified underperformance of the Council’s wholly-owned subsidiary company, Homes for Lambeth, which in our view is evidence of a significant weakness in the council’s arrangements for governance and improving economy, efficiency and effectiveness.	The Council should put in place robust arrangements to monitor the implementation of the action plan. This should include ensuring that the actions have an appropriate and sustainable impact on its affordable housing strategy.

Responsibilities of the Accounting Officer

The Council is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in the Council’s use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor’s responsibilities for the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to satisfy ourselves that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources, and to report where we have not been able to satisfy ourselves that it has done so. We are not required to consider, nor have we considered, whether all aspects of the Council’s arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

We have undertaken our work in accordance with the Code of Audit Practice, having regard to the guidance issued by the Comptroller and Auditor General in November 2024.

Use of the audit report

This report is made solely to the members of London Borough of Lambeth, as a body, in accordance with part 5 of the Local Audit and Accountability Act 2014 and as set out in paragraph 44 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our audit work has been undertaken so that we might state to the members of the Council those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the members of the Council, as a body, for our audit work, for this report, or for the opinions we have formed.

Certificate

We certify that we have completed the audit of the London Borough of Lambeth Council in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice.

INDEPENDENT AUDITOR’S REPORT TO LONDON BOROUGH OF LAMBETH PENSION FUND

Report on the audit of the financial statements

Opinion on the financial statements of London Borough of Lambeth Pension Fund

We have audited the financial statements of London Borough of Lambeth Pension Fund ('the Pension Fund') for the year ended 31 March 2023, which comprise the Fund Account, the Net Assets Statement and notes to the financial statements, including material accounting policy information. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23.

In our opinion the financial statements:

- give a true and fair view of the financial transactions of the Pension Fund during the year ended 31 March 2023, and the amount and disposition of the Pension Fund's assets and liabilities as at 31 March 2023; and
- have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities section of our report. We are independent of the Council, as administering authority for the Pension Fund, in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Interim Corporate Director, Finance & Governance's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Pension Fund's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Interim Corporate Director, Finance & Governance with respect to going concern are described in the relevant sections of this report.

Other information

The Interim Corporate Director, Finance & Governance is responsible for the other information. The other information comprises the Annual Governance Statement and information included in the Statement of Accounts, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of the Interim Corporate Director, Finance & Governance for the financial statements

As explained more fully in the Statement of the Interim Corporate Director, Finance & Governance's Responsibilities, the Interim Corporate Director, Finance & Governance is responsible for the preparation of the Statement of Accounts, which includes the Pension Fund's financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23, and for being satisfied that they give a true and fair view. The Interim Corporate Director, Finance & Governance is also responsible for such internal control as the Interim Corporate Director, Finance & Governance determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The Interim Corporate Director, Finance & Governance is required to comply with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 and prepare the financial statements on a going concern basis, unless the Council is informed of the intention for dissolution of the Pension Fund without transfer of services or function to another entity. The Interim Corporate Director, Finance & Governance is responsible for assessing each year whether or not it is appropriate for the Pension Fund to prepare its accounts on the going concern basis and disclosing, as applicable, matters related to going concern.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the Pension Fund's financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Auditor's responsibilities for the audit of the financial statements (continued)

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. Based on our understanding of the Pension Fund, we identified that the principal risks of non-compliance with laws and regulations related to the Public Service Pensions Act 2013, the Local Government Pension Scheme Regulations 2013 (as amended) and the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016, and we considered the extent to which non-compliance might have a material effect on the financial statements.

We evaluated the Interim Corporate Director, Finance & Governance's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls) and determined that the principal risks were related to posting manual journal entries to manipulate financial performance, management bias through judgements and assumptions in significant accounting estimates and significant one-off or unusual transactions.

Our audit procedures were designed to respond to those identified risks, including non-compliance with laws and regulations (irregularities) and fraud that are material to the financial statements. Our audit procedures included but were not limited to:

- discussing with management and the Corporate Committee the policies and procedures regarding compliance with laws and regulations;
- communicating identified laws and regulations throughout our engagement team and remaining alert to any indications of non-compliance throughout our audit; and
- considering the risk of acts by the Fund which were contrary to applicable laws and regulations, including fraud.

Our audit procedures in relation to fraud included but were not limited to:

- making enquiries of management and the Corporate Committee on whether they had knowledge of any actual, suspected or alleged fraud;
- gaining an understanding of the internal controls established to mitigate risks related to fraud;
- discussing amongst the engagement team the risks of fraud; and
- addressing the risks of fraud through management override of controls by performing journal entry testing.

There are inherent limitations in the audit procedures described above and the primary responsibility for the prevention and detection of irregularities including fraud rests with management and the Corporate Committee. As with any audit, there remained a risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal controls.

We are also required to conclude on whether the Interim Corporate Director, Finance & Governance's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. We performed our work in accordance with Practice Note 10: Audit of financial statement and regularity of public sector bodies in the United Kingdom, and Supplementary Guidance Note 01, issued by the National Audit Office in September 2021.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Matters on which we are required to report by exception under the Code of Audit Practice

We are required by the Code of Audit Practice to report to you if:

- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014;
- we make a recommendation under section 24 of the Local Audit and Accountability Act 2014; or
- we exercise any other special powers of the auditor under sections 28, 29 or 31 of the Local Audit and Accountability Act 2014.

We have nothing to report in these respects.

Use of the audit report

This report is made solely to the members of London Borough of Lambeth Council, as a body and as administering authority for the London Borough of Lambeth Pension Fund, in accordance with part 5 of the Local Audit and Accountability Act 2014 and as set out in paragraph 44 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our audit work has been undertaken so that we might state to the members of the Council those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the members of the Council, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes relating to changes in 2022/23:

(1) A reorganisation of reporting segments resulted in the following changes: two new Directorates, the Chief Executive Directorate and the Housing Directorate. Legal Services moved to Finance and Investment.

*Restated as per Prior Period Adjustment, Note 34a

MOVEMENT IN RESERVES STATEMENT

The **Movement in Reserves** Statement shows the movement in the year on the individual 'usable reserves' (that is those that can be applied to fund expenditure or reduce local taxation) held by the authority, and there is one column for unusable reserves. The Total Comprehensive Income and Expenditure line here shows the surplus / deficit on the provision of services in the total usable reserves column and the other comprehensive (income) and expenditure in the unusable reserves column. These show the true economic cost of providing the authority's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance and the Housing Revenue Account for council tax setting and dwellings rent setting purposes.

BALANCE SHEET

The Balance Sheet shows the value of the assets and liabilities held by the council. The council's net assets (assets less liabilities) are matched by the reserves it holds. These reserves are shown in two categories – usable and unusable. Usable reserves may be used to provide services subject to statutory limitations and the need to maintain prudent levels of reserves for financial stability. Unusable reserves cannot be used to fund council services.

*Restated as per Prior Period Adjustment, Note 34a

Certification by the Chief Financial Officer

I certify that the statement of accounts gives a true and fair view of the financial position of the authority as at 31 March 2023 and its income and expenditure for the year ended 31 March 2023.

CASH FLOW STATEMENT

The **Cash Flow Statement** shows the changes in cash and cash equivalents of the Council during the reporting period.

The Statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities.

The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the authority.

Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the authority's future service delivery.

Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e., borrowing) to the authority.

*Restated as per Prior Period Adjustment, Note 34a

2021/22 (Adjusted)*		2022/23	
£'000		£'000	Note

STATEMENT OF ACCOUNTING POLICIES

Note 1: Statement of Accounting Policies

a. Basis of Preparation

The Accounts and Audit (England) Regulations 2015 require the council to prepare a Statement of Accounts for each financial year in accordance with proper accounting practices. For 2022/23, these proper accounting practices principally comprise:

- The Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 (the Code).
- The Local Authorities (Capital Finance and Accounting) (England) Regulations 2003 (SI 2003 No 3146, as amended) (the 2003 Regs).
- The Update to the Code and Specifications for Future Codes for Infrastructure Assets published in November 2022.

The Statement of Accounts has been prepared using the going concern basis as the functions of the authority will continue in operational existence for the foreseeable future. Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods and services is recognised when the Authority satisfies a performance obligation by transferring promised goods or services to the purchaser.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

The historical cost convention has been applied, modified by revaluation of the following material categories of non-current assets and certain financial instruments.

Class of Assets	Valuation Basis
Property, Plant and Equipment: Dwellings	Current value, comprising existing use value for social housing. Dwellings are valued using market prices for comparable properties, adjusted to reflect occupancy under secure tenancies.
Property, Plant and Equipment: Other Land and Buildings	Current value, comprising existing use value. Where prices for comparable properties are available in an active market, properties are valued at market value taking into account the existing use. Where no market exists or the property is specialised, current value is measured at depreciated replacement cost.
Property, Plant and Equipment: Surplus Assets	Land, Office and Retail assets have been based on the market approach using current market conditions and recent sales prices and other relevant information for similar assets in the local authority area, the measurement basis is fair value estimated at highest and best use from a market participant's perspective. Market conditions for these asset types are such that the level of observable inputs are significant leading to the properties being categorised at Level 2 in the fair value hierarchy.
Pensions Assets	Fair value <ul style="list-style-type: none"> • quoted securities – current bid price • unquoted securities – professional estimate • unitised securities – current bid price • property – market value.

Notes to the Accounts (General) (continued)

Note 1: Statement of Accounting Policies (continued)

b. Adjustments Between Accounting Basis and Funding Basis

The resources available to the council in any financial year and the expenses that are charged against those resources are specified by statute (the Local Government Act 2003 and the 2003 Regulations). Where the statutory provisions differ from the accruals basis used in the Comprehensive Income and Expenditure Statement, adjustments to the accounting treatment are made in the Movement in Reserves Statement so that usable reserves reflect the funding available at the year-end. This is also shown in the Expenditure and Funding Analysis. Unusable reserves are created to manage the timing differences between the accounting and funding bases. The material adjustments are:

Expense	Accounting Basis in CIES	Funding Basis in MiRS	Adjustment Account
Property, Plant and Equipment	Depreciation and revaluation/impairment losses	Annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the authority in accordance with statutory guidance.	Capital Adjustment Account
Intangible Assets	Amortisation and impairment	Annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the authority in accordance with statutory guidance.	Capital Adjustment Account
Investment Properties	Movements in fair value	Annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the authority in accordance with statutory guidance.	Capital Adjustment Account
Revenue Expenditure Funded from Capital under Statute	Expenditure incurred in 2022/23	Annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the authority in accordance with statutory guidance.	Capital Adjustment Account
Capital Grants and Contributions	Grants that became unconditional in 2022/23 or were received in 2022/23 without conditions.	No credit for capital grant income as this is accounted for via the capital adjustment account when applied.	Capital Grants Unapplied Reserve (amounts unapplied at 31 March 2023) Capital Adjustment Account (other amounts)
Non-Current Asset Disposals	Gain or loss based on sale proceeds less carrying amount of asset (net of costs of disposal).	No charge or credit in respect of carrying amount. The sales proceeds are taken to the Capital Receipts Reserve.	Capital Adjustment Account (carrying amount) Capital Receipts Reserve (sale proceeds and costs of disposal) Deferred Capital Receipts Reserve (where sale proceeds have yet to be received)

Note 1: Statement of Accounting Policies (continued)**b. Adjustments Between Accounting Basis and Funding Basis (continued)**

Expense	Accounting Basis in CIES	Funding Basis in MiRS	Adjustment Account
Financial Instruments	Premiums payable and discounts receivable on the early repayment of borrowing in 2022/23.	Deferred debits and credits of premiums and discounts from earlier years in accordance with the 2003 Regs Historical cost gains/losses for money market fund investments disposed of in 2022/23.	Financial Instruments Adjustment Account
Pensions Costs	Movements in pensions assets and liabilities being the aggregate of service costs, net interest costs and actuarial gains and losses.	Employer's pensions contributions payable and direct payments made by the council to pensioners for 2022/23..	Pensions Reserve
Council Tax	Accrued income from 2022/23 bills	Demand on the Collection Fund for 2022/23 plus share of estimated surplus at 31 March 2023.	Collection Fund Adjustment Account
Business Rates	Accrued income from 2022/23 bills	Precept from the Collection Fund for 2022/23	Collection Fund Adjustment Account
Holiday Pay	Projected cost of untaken leave entitlements at 31 March 2023.	No charge	Accumulated Absences Adjustment Account
Dedicated Schools Grant Deficit	The cost of the deficit in the dedicated schools grant.	Set aside of the deficit for recovery in future financial years.	Dedicated Schools Grant Adjustment Account

Notes to the Accounts (General) (continued)

Note 1: Statement of Accounting Policies (continued)

c. Financial Instruments

Financial instruments are recognised on the Balance Sheet when the council becomes a party to their contractual provisions. They are initially measured at fair value.

Financial liabilities are subsequently measured at amortised cost. For the council's borrowing this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest). Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument.

Financial assets are subsequently measured in one of two ways:

- amortised cost – assets whose contractual terms are basic lending arrangements (i.e., they give rise on specified dates to cash flows that are solely payments of principal or interest on the principal amount outstanding, which the council holds under a business model whose objective is to collect those cash flows)
- fair value – Financial assets that are measured at Fair Value through Profit and Loss are initially measured and carried at fair value. Fair value gains and losses are recognised as they arise in the surplus or deficit on the provision of services. The Council does not hold any financial assets which are classified as fair value through other comprehensive income.

Allowances for impairment losses have been calculated for amortised cost assets, applying the expected credit losses model. Changes in loss allowances (including balances outstanding at the date of derecognition of an asset) are debited/credited to the Financing and Investment Income and Expenditure line in the CIES.

Changes in the value of assets carried at fair value (described as Fair Value through Profit or Loss) are debited/credited to the Financing and Investment Income and Expenditure line in the CIES as they arise.

d. Revenue from Contracts with Service Recipients

The council recognises revenue from contracts with service recipients when it satisfies a performance obligation by transferring promised goods or services to a recipient, measured as the amount of the overall transaction price allocated to that obligation.

Notes to the Accounts (General) (continued)

Note 1: Statement of Accounting Policies (continued)

e. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the council when there is reasonable assurance that:

- the council will comply with any conditions attached to the payments, and
- the grants or contributions will be received

Amounts recognised as due to the council are not credited to the Comprehensive Income and Expenditure Statement until the council has satisfied any conditions attached to the grant or contribution that would require repayment if not met. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-specific Grant Income and Expenditure (non-ringfenced revenue grants and all capital grants) in the CIES.

Community Infrastructure Levy

The authority has elected to charge a Community Infrastructure Levy (CIL). The levy will be charged on new builds (chargeable developments for the authority) with appropriate planning consent. The council charges for and collects the levy, which is a planning charge. The income from the levy will be used to fund a number of infrastructure projects (these include transport and schools) to support the development of the area.

CIL is received without outstanding conditions; it is therefore recognised at the commencement date of the chargeable development in the Comprehensive Income and Expenditure Statement in accordance with the accounting policy for government grants and contributions set out above. CIL charges will be largely used to fund capital expenditure. However, a proportion of the charges may be used to fund revenue expenditure.

f. Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the council as a result of past events (e.g., software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the council.

Intangible assets are measured at cost. These are amortised over 4 years.

The amount of an intangible asset to be amortised is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that it might be impaired – any losses recognised are posted to the relevant service line(s) in the CIES. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the CIES.

Note 1: Statement of Accounting Policies (continued)**g. Leases**

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

Property, plant and equipment held by the council under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Premiums paid on entry into a lease are applied to writing down the lease liability. Subsequent payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment – applied to write down the lease liability
- financing charges and contingent rents (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, plant and equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the authority at the end of the lease period).

The authority is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Rentals paid by the council under operating leases are charged to the CIES as an expense of the services benefitting from use of the leased property, plant or equipment.

Where the council grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal, with the gain/loss attributable to the difference between the carrying amount of the asset and the council's net investment in the lease being credited/debited to the Other Operating Expenditure line in the CIES. The net investment in the lease is recognised as a lease asset in the Balance Sheet, net of any premium paid. Lease rentals receivable are apportioned between:

- a credit for the disposal of the interest in the property – applied to write down the lease asset
- finance income (credited to the Financing and Investment Income and Expenditure line in the CIES).

Where the council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the CIES. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g., there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

Note 1: Statement of Accounting Policies (continued)**h. Overheads and Support Services**

The costs of overheads and support services are charged to the Housing Revenue Account (HRA), to Public Health and against the Dedicated School Grant for their share of the supply or service in proportion to the benefits received. However, the full absorption costing principle is no longer applied with the remainder of the General Fund's share of overheads and support services remaining in the Finance and Investment directorate in accordance with the authority's arrangements for accountability and financial performance.

i. Post-Employment Benefits

Employees of the council are members of four separate pension schemes:

- The NHS Pension Scheme, administered by NHS Business Services Agency (NHSBSA).
- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education (DfE).
- The Local Government Pensions Scheme, administered by the London Borough of Lambeth.
- The Local Government Pensions Scheme, administered by the London Pension Fund Authority.

The NHS and Teacher's Schemes provide defined benefits to members. However, Scheme arrangements mean that liabilities for these benefits cannot be attributed to the council. The Schemes are therefore accounted for as if they were defined contribution schemes and no liability for future payments of benefits is recognised in the Balance Sheet. The Children's and Education Services and Public Health lines in the Comprehensive Income and Expenditure Statement are charged respectively with the employer's contributions payable to Teachers' and NHS Pensions in the year.

The Local Government Pension Scheme is accounted for as a defined benefits scheme:

- the liabilities of the Lambeth and London Pension Funds attributable to the council are included in the Balance Sheet on an actuarial basis using the projected unit method
- liabilities are discounted to their value at current prices using a discount rate of which is based on the indicative rate of return available on a basket of AA-rated bonds with long terms to maturity (the iBoxx AA rated over 15 year corporate bond index)
- the assets of the Lambeth and London Pension Funds attributable to the council are included in the Balance Sheet at their fair value as set out in Policy A.

The change in the net pension liability is analysed into the following components:

- Service cost comprising:
 - i) current service cost – allocated in the Comprehensive Income and Expenditure Statement (CIES) to the services for which the employees worked
 - ii) past service cost – debited to the Surplus or Deficit on the Provision of Services in the CIES.
- Net interest on the net defined benefit liability:
 - i) charged to the Financing and Investment Income and Expenditure line of the CIES
- Re-measurements comprising:
 - i) the return on plan assets – excluding amounts included in net interest on the net defined benefit liability (asset) – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure
 - ii) actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure
 - iii) contributions paid to the Lambeth pension fund – cash paid as employer's contributions to the pension fund in settlement of liabilities, not accounted for as an expense.
 - iv) the effect of the asset ceiling – the limitation on the Council's ability to realise pensions assets through reductions in future employer's contributions as a result of minimum funding requirements.

Notes to the Accounts (General) (continued)

Note 1: Statement of Accounting Policies (continued)

i. Post-Employment Benefits (continued)

Discretionary Benefits

The authority also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

j. Property, Plant and Equipment and Heritage Assets

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e., repairs and maintenance) is charged as an expense when it is incurred.

The authority does not capitalise borrowing costs incurred whilst assets are under construction.

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management

Assets such as infrastructure, community assets and assets under construction are carried at depreciated historical cost. Surplus Assets are held at Fair Value, Heritage assets are held at historic cost. For assets currently providing a service, if they have no active market then they are held at Depreciated Replacement Cost, for Council Dwellings these are held at Existing Use Value – Social Housing, and for other assets with an active market these are held at Existing Use Value.

Assets included in the Balance Sheet are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their valuation basis at the year-end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains.

Where decreases in value are identified, they are accounted for in the following ways:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

j. Property, Plant and Equipment and Heritage Assets (continued)

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Assets are assessed at each year-end as to whether there is any indication that items may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall. Where impairment losses are identified, they are accounted for in the same way as revaluation losses.

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts (based on their brought forward value) over their useful lives. An exception is made for assets without a determinable finite useful life (i.e., freehold land and certain Community Assets) and assets that are not yet available for use (i.e., assets under construction).

Useful Economic Lives

Asset Category	Useful Economic Life
Council Dwellings	60 Years
Other Buildings	40 Years
Vehicles & IT equipment	4 Years
<i>Plant, furniture & equipment</i>	<i>10 Years</i>
Commercial properties & surplus assets	40 to 60 Years
Infrastructure	10 – 40 years depending on type of infrastructure asset
Community assets	10 – 100 years depending on type of community asset
Heritage assets	Held in perpetuity

The periods over which assets are depreciated are determined by the valuer on an asset by asset basis. In the absence of such a determination the useful lives in the table above apply.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the CIES against any receipts arising from the disposal as a gain or loss on disposal.

Council Dwellings that are earmarked for regeneration will be valued using the Existing Use Value for Social Housing (EUV-SH) method provided that they are still operational/occupied at the balance sheet date.

Once a formal decision has been made and a clear timetable agreed, including a change in use of the homes; i.e., they are vacant/non-operational, it is this change in use that will drive any change in the valuation method used for the purposes of the annual accounts.

For those properties valued within the financial year, the valuer will determine the assets value as at 31 December with an impairment review at the end of the financial year to confirm the assets are not materially over-valued at the year end.

Notes to the Accounts (General) (continued)

Note 1: Statement of Accounting Policies (continued)

k. Private Finance Initiative and Similar Contracts

As the council is deemed to control the services that are provided under its PFI contracts, and as ownership of the Property, Plant and Equipment will pass to the council at the end of the contracts for no additional charge, the assets used are recognised on the Balance Sheet as part of Property, Plant and Equipment.

The original recognition of these assets at fair value was balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment.

The amounts payable to the PFI operators each year are analysed into five elements:

- fair value of the services received during the year – debited to the relevant service in the Comprehensive Income and Expenditure Statement (CIES)
- finance cost – debited to the Financing and Investment Income and Expenditure line in the CIES
- contingent rent – debited to the Financing and Investment Income and Expenditure line in the CIES
- payment towards liability – applied to write down the Balance Sheet liability towards the PFI operator
- lifecycle replacement costs – a proportion of the amounts payable is posted to the Balance Sheet as a prepayment and then recognised as additions to Property, Plant and Equipment when the relevant works are eventually carried out

l. Provisions

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement where an event has taken place that gives the council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. Provisions are charged as the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g., from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the authority settles the obligation.

The government has provided the ability to capitalise specific future costs relating to the redress scheme set up by the council in 2017/18 for payments pertaining to historic child abuse. The provision set up for these costs is matched with a reserve on the balance sheet. As payments are made these are debited against the provision and are matched by drawing down the reserve by an equal sum to the capital adjustment account.

m. Termination Benefits

Termination benefits are amounts payable as a result of a decision by the authority to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits and are charged to the appropriate service segment or, where applicable, to a corporate service segment at the earlier of when the authority can no longer withdraw the offer of those benefits or when the authority recognises costs for a restructuring. Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund Balance to be charged with the amount payable by the authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Note 1: Statement of Accounting Policies (continued)**n. Changes in Accounting Policies**

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e., in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Authority's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise or the CIPFA code specifies no retrospective implementation) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

o. Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in a specified period, no more than three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes. In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Authority's cash management strategy.

p. Reserves

The Authority sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure. Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, and retirement and employee benefits and do not represent usable resources for the Authority – these reserves are explained in the relevant policies.

q. Rounding

It is not the council's policy to adjust for immaterial cross-casting differences between the main statements and disclosure notes.

r. Council Tax and Non-domestic Rates

Billing authorities act as agents, collecting council tax and non-domestic rates (NDR) on behalf of the major preceptors (including government for NDR) and, as principals, collecting council tax and NDR for themselves. Billing authorities are required by statute to maintain a separate fund (i.e., the Collection Fund) for the collection and distribution of amounts due in respect of council tax and NDR. Under the legislative framework for the Collection Fund, billing authorities, major preceptors and central government share proportionately the risks and rewards that the amount of council tax and NDR collected could be less or more than predicted.

Accounting for Council Tax and NDR

The council tax and NDR income included in the Comprehensive Income and Expenditure Statement is the authority's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the authority's General Fund. Therefore, the difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet includes the authority's share of the end of year balances in respect of council tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

Note 1: Statement of Accounting Policies (continued)**s. Employee Benefits Payable During Employment**

Short-term employee benefits are those due to be settled wholly within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the authority. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday entitlements are charged to revenue in the financial year in which the holiday absence occurs.

t. Schools

The Code of Practice on Local Authority Accounting in the United Kingdom confirms that the balance of control for local authority maintained schools (i.e. those categories of school identified in the School Standards and Framework Act 1998, as amended) lies with the local authority. The Code also stipulates that those schools' assets, liabilities, reserves and cash flows are recognised in the local authority financial statements. Therefore schools' transactions, cash flows and balances are recognised in each of the financial statements of the authority as if they were the transactions, cash flows and balances of the authority.

u. VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

v. Single Entity Financial Statements and Group Accounts

We have presented single entity financial statements, in which Lambeth's interest in wholly owned subsidiaries are accounted for on the basis of the direct equity interest (i.e. at cost) rather than on the basis of the reported results and net assets of the investees.

The council prepared a review of group interests in the companies that have the nature of subsidiaries during the 2022/23 financial year. It has concluded that there are material interests in subsidiaries, and therefore Group Accounts have been prepared. See Group Accounts for more details.

CRITICAL JUDGEMENTS AND ASSUMPTIONS

Note 2a: Critical Judgments and Assumptions

The Statement of Accounts contains estimated figures that are based on assumptions made by the council or relevant professionals engaged by the council, such as actuaries, about the future. Estimates are made taking into account historical experience, current trends, professional advice and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates

Items in the council’s Balance Sheet at 31 March 2023 for which there is a risk of material adjustment in the forthcoming financial year include pensions liabilities, property, plant and equipment valuations, insurance provisions and impairments on receivables.

Assumptions Made About the Future and Other Major Sources of Uncertainty

Future of Local Government Finance

There is a high degree of uncertainty about future levels of funding for local government. However, the council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the council might be impaired as a result of a need to close facilities and reduce levels of service provision.

Cost of Living Crisis

The economic impact of the war in Ukraine, and the resulting increase in inflation together with the challenges post pandemic has had a significant impact on the council, local businesses and individuals. It has also resulted in a cost of living crisis and there is a great deal of uncertainty at this stage regarding what the precise impact will be over time.

Pensions Liabilities

Estimation of the net liability to pay pensions depends on a number of complex judgements agreed with the council’s actuaries, Hymans Robertson LLP and Barnett Waddingham (the actuaries of the London Pension Fund Authority (LPFA)).

The sensitivities regarding the principal assumptions used to measure the pension liability in respect of the Lambeth scheme are set out in the table below:

	Approx. increase to pension liability		Approx. increase to monetary amount	
	LPFA	Lambeth	LPFA	Lambeth
	%	%	£'000	£'000
1 year increase in member life expectancy	6	4	2,740	70,311
0.1% increase in salary increase rate	-	-	40	1,789
0.1% increase in pension increase rate	5	1	2,445	26,356
0.1% decrease in real discount rate	5	2	2,445	27,725

Lambeth Pension Fund has not employed an asset-liability matching strategy.

The sensitivity analysis above have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method.

Notes to the Accounts (General) (continued)

Note 2a: Critical Judgments and Assumptions (continued)

Critical judgements made in the Statement of Accounts are:

London Pension Fund Authority (LPFA) Pension Scheme Asset Ceiling

In calculating the net pensions asset for the London Pension Fund Authority (LPFA), the Council has made a judgement that the statutory framework for setting employer's contributions under the scheme constitutes a minimum funding requirement. As a result, the Council's ability to realise the full economic benefits of the net pensions asset of £37.721m calculated under the Accounting Code's provisions for post-employment benefits through reductions in future employer's contributions is limited. An asset ceiling therefore applies.

The fact that the Council has a commitment under the current funding strategy for the Scheme to fund the deficit means that the asset ceiling has reduced what would otherwise be the net pensions asset of £37.721m to a net pensions liability of £2.149m.

The practical effect of this is to move the basis of measurement for the net pensions asset/liability closer to the assumptions made in the triennial valuation of the Scheme under which the employer's contributions were set by the Scheme's actuaries. It does not indicate that the Council has paid excess amounts into the Scheme that it will never be able to recover.

Property Valuations

Properties are subject to full valuation by a qualified valuer under a rolling programme at least once every five years. Where there has been significant works carried out to the asset during the year, the asset is subject to a full valuation on completion of those works. The valuation in 2022/23 was conducted by Wilks Head and Eve LLP.

The valuers have arrived at their opinion of Existing Use Value - Social Housing, Existing Use Value and Fair Value from referring to recent comparable market transactions. For specialised properties the Value has been measured using Depreciated Replacement Cost methodology.

The Housing Revenue Account (HRA) residential portfolio was valued utilising a beacon methodology. In order to value the whole portfolio, it was necessary to research a number of information sources. These include sales of directly comparable property, changes of income flow for non-residential HRA property, information available at a local level showing house price movement plus regional and National Indices.

Impairment on financial assets

IFRS 9 requires that credit losses on financial assets are measured and recognised using the 'expected credit loss (ECL) approach. The ECL approach is used on applicable assets held at amortised cost or FV through other comprehensive income. The ECL approach results in the early recognition of credit losses because it includes, not only losses that have already been incurred, but also expected future credit losses – it is a forward looking model. Where the council identifies an expected credit loss the impairments on appropriate assets are amended where material.

Provisions and Contingent Liabilities

IAS 37: Provisions, Contingent Liabilities and Contingent Assets, determines whether a provision or contingent liability should be recognised in the accounts. The interpretation of the rules is particularly challenging with respect to legal cases as a judgement needs to be made as to the outcome of litigation. The experience of the council's internal legal function is utilised to determine how current legal cases are likely to conclude and the possible financial impact of the outcome of the case.

Notes to the Accounts (General) (continued)

Note 2a: Critical Judgments and Assumptions (continued)

Redress Scheme

In December 2017 the council launched a redress scheme to compensate survivors of sexual, physical and psychological abuse in Lambeth Children's Homes dating back to the 1930s up to the 1990s. The scheme enables compensation to be paid out without using the court system enabling compensation to be paid more quickly and without sums being spent in legal fees. The scheme closed for new applications on 1 January 2022.

The council received a capitalisation direction from Central Government enabling it to treat payments up to £125m as capital expenditure and fund the costs from external borrowing. The council has set aside a provision for the full amount of the capitalisation direction and each year has reversed the general fund impact of costs incurred on settling claims to the capitalisation direction reserve up to 31 March 2023.

There remains uncertainty in the total value of payments that may be required to be made as a result of the establishment of the redress scheme. The uncertainties in valuing the liability arise from the following factors:

- It is not known, of the final claims received in January 2022, what proportion of the claims will be successful.
- There is also uncertainty in the value of redress payments that will be awarded to the accepted claims.
- The scheme comprises two elements: Harms Way Payments which are set amounts dependent on the length of time an individual was resident in a Children's Home, and Individual Redress Payments which are compensation for actual harm incurred following medical and legal review.

Costs associated with the scheme have been monitored throughout 2022/23. The most recent actuarial assessments of the outstanding cases have estimated the total cost of the scheme to be £155.3m – a further £30.3m spend above the original estimate. The provision has therefore been increased by this amount and this has, while the council awaits a further capitalisation direction, been funded from general fund reserves.

Insurance Fund

The council holds a fund to act as a means of self-insurance. This is split between a consideration held in provisions to cater for incurred and reported claims where there is a probability that a payment may be required, and a reserve to cater incurred but not reported claims.

Service Concessions

The council is deemed to control the services provided under PFI agreements as detailed in note 21. The accounting policies for PFI schemes and similar contracts have been applied to the arrangements and the assets recognised as Property Plant and Equipment on the council's Balance sheet. See note 21.

Note 2b: Post Balance Sheet

There is one post balance sheet event that took place which merits disclosure. In June 2023, a Judgement was handed down in the high court in the case of Virgin Media vs NTL pension Trustees II Ltd that could have implications for defined benefit pension schemes going forward. The council cannot quantify the financial impact of the ruling.

Note 2c: Accounting Standards Issued but Not Yet Adopted

There are no changes in accounting requirements for 2022/23 that are anticipated to have a material impact on the council's financial performance or financial position. For information, the introduction of accounting standard IFRS 16 for the treatment of leases has been deferred from April 2022 until April 2024.

NOTES TO COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT (CIES)

Note 3a: The Expenditure and Funding Analysis

The Expenditure and Funding Analysis is a note to the accounts that shows for each of the council's directorates:

- the amount spent under the council's rules for monitoring expenditure against the funding in the annual budget for the General Fund
- the resources actually consumed in the year as measured by proper accounting practices in the Comprehensive Income and Expenditure Statement

The reasons for differences between the two amounts for each service are explained further in Note 3b.

			(200,456)	Closing General Fund and HRA Balance at 31 March*				(175,316)

(1) For a split of this balance between the General Fund and the HRA – see the Movement in Reserves Statement.

Note 3b: Note to the Expenditure and Funding Analysis

Decisions about resource allocation are taken by the council's Cabinet on the basis of budget reports analysed across departments. For the purpose of the initial budget and reports during the year, these reports are prepared on a different basis from the accounting policies used in the financial statements. In particular:

- no charges are made in relation to capital expenditure (whereas depreciation, revaluation and impairment losses in excess of the balance on the Revaluation Reserve and amortisation are charged to services in the CIES)
- the cost of retirement benefits is based on cash flows (payment of employer's pension contributions) rather than current service cost of benefits accrued in the year

However, in the outturn report, the department analysis for the General Fund is reported using the same accounting policies used to prepare the financial statements, except that expenditure includes a charge for appropriation of schools' net surpluses to an earmarked reserve. General Fund cash limits are adjusted in that report to reflect in full the effect of converting to the accounting policies used in the financial statements so that the conversion has no impact on the departments' performance against their cash limits. HRA amounts are not converted.

The following note breaks down the adjustments between funding and accounting basis by adjustments for capital purposes, pensions and other adjustments.

Notes to the Accounts (General) (continued)

Note 5: Material Items of Income and Expense

Revaluation Gains / Losses

In 2022/23 there was a total net revaluation gain of 3.9m to the surplus / deficit on provision of services. This consisted of a net £15.3m gain recorded in the HRA due to revaluation gain and a £11.4m net revaluation loss recorded in the General Fund.

In 2021/22 there was a total net revaluation loss of 14.6m to the surplus / deficit on provision of services. This consisted of a net £25.8m gain recorded in the HRA due to revaluation gain and a £40.4m net revaluation loss recorded in the General Fund.

Redress Scheme

The total Scheme expenditure to 31 March 2023 is £132.3 million.

- £92.4 million paid in redress compensation directly to applicants (£15.9m HWP & £76.5m IRP),
- £14.0 million in respect of applicants' legal costs (paid to solicitors),
- £6.6 million for the council's own legal costs in processing applications,
- £8.9 million on applicant expenses, instruction of medical experts and social records chronology,
- £10.4 million on administrative & staffing costs.

The council in total received 2,239 applications of which some are still open.

Children's Services

Children's Services are facing significant cost pressures and the final outturn position in 2022/23 was an overspend of £20.0m. £14.0m was due to the increasing costs of social care placements from a combination of inflationary pressures, increased placement numbers and complexity of cases. £3.0m was attributable to on-going Social care staffing pressures due to challenges with recruiting permanently and the continual reliance on agency staff. Additional staff were also required to backfill front line posts due to high levels of sickness absence and to cover the additional demand from caseloads and service imperatives.

Note 10: Related Parties

This disclosure note has been prepared using the council's Register of Members' Declarations of Interest respect of related party transactions from Members and using specific declarations obtained in respect of related party transactions from Chief Officers. The council is required to disclose material transactions with related parties - bodies and individuals that have the potential to control or influence the council or to be controlled or influenced by the council. There were no outstanding balances at the 31 March 2023 unless otherwise stated.

Central Government

Central government has effective control over the general operations of the council – it is responsible for providing the statutory framework within which the council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the council has with other parties (e.g. council tax bills and housing benefits). Details of transactions with government departments are set out in note 9.

Revenue and capital grants which have not yet been credited to the Comprehensive Income and Expenditure Statement are shown in notes 16 and 18 to the balance sheet respectively. Other amounts due to or from central government at the relevant balance sheet dates are included in the figures in notes 14 and 15.

Members

Members of the council have direct control over the council's financial and operating policies. During 2022/23 £4.3m (£2.5m in 2021/22) was paid to organisations in which 18 members (11 members in 2021/22) were on the governing body.

2021/22	Organisation	2022/23
£'000		£'000
169	Black Cultural Archives	83
-	We Are Waterloo Ltd	501
20	Clapham Park Project	-
708	HFL Build Limited	-
94	The Black Prince Trust	-
89	Local Government Association	-
-	Brixton BID Ltd	497
-	Clapham Business Improvement District	335
8	London Youth Games Ltd	8
-	Groundwork London	120
-	South Bank Bid Ltd	981
1,385	Vauxhall One	1,203
-	Station to Station Business Improvement District	202
-	inStreatham Ltd	322
2	WATMOS Community Homes	-
9	SW9 Community Housing	-
2,484	Total	4,252

During 2022/23 £0.2m (£0.3m in 2021/22) was received from organisations in which 14 members (8 members in 2021/22) were on the governing body. These figures are excluding the Western Riverside Waste Authority transactions which are shown in the next section of this note. It also excludes transactions with NHS bodies.

Details of all these relationships are recorded in the Register of Members' Interests or the List of Council's Representatives on Other Bodies and outside organisations which are open to public inspection at Lambeth Town Hall during office hours. Further information is available in note 6 on allowances paid to members.

Notes to the Accounts (General) (continued)

Note 10: Related Parties (continued)

Senior Officers

In 2022/23, £2.0m (1.9m in 2021/22) was paid to BBh-IsI (Fundco 4) Ltd in which the Strategic Director of Adults & Health is a related party. In addition in 2022/23, £51k (£69k in 2021/22) was paid to organisations in which 1 other senior officer (1 in 2021/22) had related parties excluding the HFL Group and NHS bodies.

Other Public Bodies

In addition, the council paid £15.0m (£15.2m in 2021/22) to Western Riverside Waste Authority in respect of waste disposal charges and £1.2m (£1.2m in 2021/22) in respect of levies.

Amounts due to or from other local authorities at the relevant balance sheet dates are included in the figures in notes 14 and 15.

The Council has borrowings (including accrued interest) of £810.2m (£728.9m in 2021/22) with the Public Works Loan Board (PWLb) and other Local Authorities. Interest payable on these loans was £29.0m (£27.4m in 2021/22). The Waste Authority and PWLB are under common control of central government.

Material transactions with the Pension Fund are disclosed in the Pension Fund accounts. The Fund owed the Council £1.44m as at 31 March 2023 (£1.72m as at 31 March 2022). During the year, no trustees or Council Chief Officers with direct responsibility for the Pension Fund have undertaken transactions with the Pension Fund. The Council charged the fund £1.42m (£1.70m in 2021/22) for expenses incurred in administering the fund. Details are in the Pension Fund Accounts.

Wholly owned Subsidiaries

MARY SEACOLE LIBRARY COMPANY LIMITED

Established in March 2012, Mary Seacole Library Company Limited was created as part of a development agreement for the provision of library and cultural services on Clapham High Street. Under the agreement, the company is the leaseholder but the Council retains full operational control.

Homes for Lambeth (HfL) Companies

In July 2017 Lambeth Council setup four Limited Companies to deliver housing within the council area. These are called:

- HFL GROUP LIMITED
- HFL BUILD LIMITED
- HFL HOMES LIMITED
- HFL LIVING LIMITED

The council is the sole 100% shareholder of the companies.

The subsidiary accounts have been consolidated into the Council's Group Accounts as at 31 March 2023 and the accounts of HfL have been subject to external audit by CLA Evelyn Partners. Related transactions are summarised further below.

In December 2022 following the outcome of the independent Kerslake review, the decision was taken by Cabinet to consolidate the HfL companies within the council. A Transition Board was created, chaired by the Chief Executive and with senior representation from across the Council and including the Chief Executive of HfL. The Transition Board established a number of workstreams to deliver over time a programme of consolidation as soon as practicable and ideally within two to three years.

Note 10: Related Parties (continued)

Progress to March 2023 has seen action plans being produced by each workstream in order to achieve the objectives of the consolidation and to deliver against the action plan. These have included plans for the transfer of staff to the Council, the reduction of staffing levels within HfL to reflect the phased and controlled wind down of the HfL group of companies, and preparatory work for the assessment of options for the future management of properties managed within the HfL group, including those currently under construction and in contract with HfL.

The preparatory work of the HfL Transition Board has helped set out the complexity of the issues involved with the consolidation of the business within the Council. These issues include without limitation the approach to the completion of ongoing construction projects, the disposal and transfer of assets, and the transfer of ongoing management of existing housing stock. This has identified a range of approaches to that consolidation for the companies within the HfL group and how best value can be achieved by the Council from HfL investment and over what period.

Through to the final closure of the company, the Council will seek to achieve the recovery of debt in line with loan agreements already in place. HfL continues to trade as an independent company. As part of the transition and consolidation back into the Council, there have been a series of adjustments made in the 2022/23 accounts to minimise the impact on the balance sheet and manage these impacts over time.

In April 2019, HfL Group Limited issued 80,000,000 shares of 10p, in consideration of a head lease for 70 council level rent properties at Lollard Street, the market value of which was £8,000,000 and previously recorded as a long-term investment in the Council's financial statements. In the 2022/23 single entity financial statements the value of this investment has been reversed down to zero through the capital adjustment account with no impact on general fund balances. Loans to the value of £22.7m have also been reversed out from the balance sheet via the capital adjustment account reflecting the capital nature of the loans, which will be financed through an annual Minimum Revenue Provision over a 40-year period.

HfL In-Year Transactions:

The single entity financial statements include income receivable from HfL Group Limited and its subsidiaries of £2.9m (£1.6m in 2021/22) and expenditure payable of £0.6m (£0.7m in 2021/22).

The council has also advanced GLA grants of £3.2m to HfL Homes Limited, which were received by the council from the GLA on behalf of HfL Homes Limited (£1.0m in 2021/22).

As at 31 March 2023 the council's balance sheet includes short term debtors relating to HfL Group Limited and its subsidiaries of £2.9m (£1.0m in 2021/22) and short term creditors of £0.2m (£0.1m in 2021/22).

In 2022/23 Lambeth issued £31.4m of loans to HfL Group Limited and its subsidiaries (£32.0m in 2021/22). Total interest charges for the year on all loans were £2.8m (£1.4m 2021/22). The outstanding balance of loans at 31st March 2023 was £46.6m after impairing £22.7m of loans (£45.9m in 2021/22); the balance of other long-term debtors was £1.1m (2021/22 £1.6m). All loans are subject to formal loan agreements between parties, including terms for interest and principal repayments.

The Directors in office for HfL Group Limited, as at 31 March 2023 are as follows:

Directors of HfL Group Limited	Date of Appointment
Sandra Roebuck	14 Jan 2022
Kathryn Eames	20 Feb 2023
Paul Wickens	20 Feb 2023

Note 11: Better Care Fund (Pooled Budget)

The council entered into a pooled budget arrangement with Lambeth Integrated Care Board (ICB) in 2014/15. This ongoing agreement is for the provision of services to improve the health and wellbeing of the people living in Lambeth and is extended annually. Services provided through this pooled fund cover mental and physical health, care and support for carers, and are focused on enabling people to recover quickly following a hospital stay, improving mental health care and staying independent.

The arrangement is made in accordance with Section 75 (S75) of the National Health Service Act 2006 and any surplus or deficit generated will be the responsibility of the respective partner to whom it is attributed. The pooled budget includes all income and expenditure relating to the Better Care Fund (BCF), whether funded by the local authority or the NHS. It is hosted by Lambeth Council, however not all transactions pass through the council's accounting system.

Since 2017-18, the Better Care Fund has been widened to encompass funding known as the Improved Better Care Fund (iBCF). This funding is received direct from the Department for Levelling Up, Housing and Communities (DLUHC). One of its key purposes is to manage the level of delayed transfers of care from acute settings to those in the community.

4,001,202		4,124,633

Highways Infrastructure Assets - Movement on balances:

In accordance with the temporary relief offered to the Code on infrastructure assets (Local Government Circular 09/2022 Statutory Override Accounting for Infrastructure Assets for England and Wales Local Authorities) this note does not include disclosure of gross costs and accumulated depreciation for infrastructure assets because historical reporting practices and resultant information deficits means that this would not faithfully represent the asset position to the users of the financial statements.

The authority has chosen not to disclose this information as the previously reported practices and resultant information deficits mean that gross cost and accumulated depreciation are not measured accurately and would not provide the basis for the users of the financial statements to take economic or other decisions relating to infrastructure assets.

The Council has determined in accordance with Regulation [30M England] of the Local Authorities (Capital Finance and Accounting) (England) (Amendment) Regulations 2022 that the carrying amounts to be derecognised for infrastructure assets when there is replacement expenditure is nil.

Note 12b: Property, Plant & Equipment valuation dates

Total cost or valuation	2,528,868	1,302,225	32,374	153,454	10,154	37,956	59,602	4,124,633

Note 12c: Intangible Assets

The council accounts for its software as intangible assets to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. The intangible assets include only purchased licenses. The value of the licences held by the council is immaterial and is written off on a straight-line basis over the estimated useful life of four years. The charge is in Cost of Services within the CIES.

The movement on Intangible Asset balances during the year is as follows:

Software Licences		Software Licences	
31-March-2022		31-March-2023	
£'000		£'000	
2,399	Balance at start of year:	4,844	
16,405	Gross carrying amounts	19,864	
(14,006)	Accumulated amortisation	(15,020)	
2,399	Net carrying amount at start of year	4,844	
	Additions:		
3,459	Purchases	2,701	
(1,014)	Amortisation for the period	(1,529)	
4,844	Net carrying amount at end of year	6,016	
	Comprising:		
19,864	Gross carrying amounts	22,565	
(15,020)	Accumulated amortisation	(16,549)	
4,844	Balance at end of year	6,016	

Note 12d: Capital Expenditure and Capital Financing

31-March-2022		31-March-2023

1,155,794	Closing Capital Financing Requirement	1,178,027
	Explanation of movements in year:	
85,289	Increase / (decrease) in underlying need to borrow	22,233
85,289	Increase / (decrease) in Capital Financing Requirement	22,233

Note 12e: Capital Commitments

31-March-2022		31-March-2023
£'000		£'000
-	Finance & Investment	
16,590	Resident Services (GF)	15,735
36,923	Resident Services (HRA)	30,324
-	Housing (GF)	1,480
6,807	Sustainable Growth & Opportunity	6,059
-	Children's Services	988
60,320	Total	54,585

The figures in the note above are based on outstanding purchase order amounts.

The largest capital commitments within Resident Services (GF) are for Lambeth Archives, the new build of an Adult Day Centre, Sudbourne School and a Waste and Cleansing Fleet Replacement programme. Somerleyton Road works are the largest capital commitment within Sustainable Growth & Opportunity. The HRA includes LHS works and expenditure relating to Fire Risk Assessment works.

Note 12f: Heritage Assets

Heritage assets held by the council, principally for their contribution to knowledge or culture, comprise the following:

- **Historic Buildings** - The Brixton Windmill, built in the 19th century, has been restored to its original condition.
- **Art Collection** - Includes a granite sculpture and permanent oak sculptures, part of an ongoing programme of regeneration.
- **Water Features** – Include a number of drinking fountains in need of refurbishment
- **Memorials** – Include sculptures and statues in several Lambeth Parks

They are recognised and measured in accordance with the council's accounting policies on property, plant and equipment.

There are some heritage assets held at zero value because the cost of obtaining a valuation would outweigh the benefit to users of the accounts.

Note 13a: Financial Instruments

2021/22				2022/23		
Non-Current	Current	Total		Non-Current	Current	Total
£'000	£'000	£'000		£'000	£'000	£'000
	(5,702)	(5,702)	Right to buy service charges and s20 creditors		(5,185)	(5,185)
	(135,778)	(135,778)	Other payables		(122,510)	(122,510)
	(17,090)	(17,090)	Short-term Borrowing – PWLB		(7,407)	(7,407)
	-	-	Short-term Borrowing – Other		(50,167)	(50,167)
	(4,820)	(4,820)	Short-term Creditors – IFRIC 12		(5,090)	(5,090)
(721,658)	-	(721,658)	Long-term Borrowing – PWLB	(752,666)		(752,666)
(9,810)	-	(9,810)	Long-term Borrowing – Housing Zone Loan	-		-
(81,189)	-	(81,189)	Long-term Creditors – IFRIC12	(76,099)		(76,099)
(812,657)	(163,390)	(976,047)	Total Financial Liabilities at Amortised Cost	(828,765)	(190,359)	(1,019,124)
-	20,444	20,444	Right to buy service charges and S20 works		18,777	18,777
-	79,333	79,333	Other receivables		96,250	96,250
48,203	-	48,203	Long-term Debtors	46,141		46,141
35,645	-	35,645	Long-term Investments -FVPL	28,641		28,641
-	20,061	20,061	Short-term Investments		30,468	30,468
83,848	119,838	203,686	Total Financial Assets at Amortised Cost unless otherwise stated above	74,782	145,495	220,277

The balances on both the non-current and current categories of financial liabilities does not include all elements of creditors.

The reason for exclusions is that some sections of creditors relate to statutory functions, not contractual arrangements and therefore do not meet the definition of a financial instrument or is deferred income.

Similarly, and for the same reason, the balance on financial liabilities and financial assets consists of short-term loans and excludes some elements of debtors.

All liabilities arising from financing activities, as shown above are from cash flows.

Note 13b: Impairment (credit) losses on receivables

Reconciliation of Allowance for Credit Account (Provision for doubtful debts)	Long term debtors (1)	Rent Debtors	Sundry Debtors	RTB and S20 Leaseholders	Parking Debtors	Total

18,706	Total	(2,836)

Notes to the Accounts (General) (continued)

Note 13d: Fair Values of Assets and Liabilities

The fair value of PWLB debt has been assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments discounted by interest rates at the balance sheet date based on PWLB redemption interest rates advised on PWLB. Where an instrument will mature in the next 12 months, the carrying amount is assumed to approximate to fair value.

The fair value of trade and other receivables and payables is taken to be the invoiced or billed amount. Liabilities arising from service concession arrangements and finance leases are calculated on the life of the arrangement or lease using the implicit rate of interest in the lease. The liability is therefore assumed to be approximate to fair value. Trade and other receivables and payables and liabilities arising from service concession arrangements and finance leases have therefore not been included in the table below.

31-March-2022			31-March-2023	
Carrying amount	Fair value		Carrying amount	Fair value
£'000	£'000		£'000	£'000
27,645	27,645	Financial assets – Resonance Fund investment	28,641	28,641
(721,658)	(1,112,272)	Financial liabilities – PWLB debt	(752,666)	(776,766)
(9,810)	(9,810)	Financial liabilities – Housing zone loan	-	-

Fair Value Hierarchy

Asset and liability valuations have been classified into three levels, according to the quality and reliability of information used to determine fair values. Transfers between levels are recognised in the year in which they occur

Level 1 - those where the fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 - those where quoted market prices are not available.

Level 3 - those where at least one input that could have a significant effect on the instrument's valuation is not based on observable market data.

The following table provides an analysis of the financial assets assessed as level 3, based on the level at which the fair value is observable.

Reconciliation of Fair Value Measurements within Level 3	Market Value 31-March-2022	Unrealised gain	Market Value 31-March-2023
	£'000	£'000	£'000
Long Term Investment	27,645	996	28,641

The carrying amount of the Resonance Fund investment is the same as the fair value because it is held in the balance sheet at 'fair value through profit + loss'. The £996k gain resulting from this valuation (valuation dated 31 March 2023) is recognised in Financing & Investment income / expenditure for 2022/23 in the CIES (£1,349k gain in 2021/22). It does not impact the general fund balance as it is reversed through the MIRS as an adjustment between accounting and funding basis under regulations.

All other financial assets are held at amortised cost unless otherwise annotated in the tables above.

Note 13d: Fair Values of Assets and Liabilities (continued)

The fair value of the liabilities for PWLB debt is higher than the carrying amount because the council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the prevailing rates for similar loans at the Balance Sheet date.

This commitment to pay interest above the market increases the amount the council would have to pay if the PWLB agreed to early repayment of the loans.

Note 13e: Nature and Extent of Risks Arising from Financial Instruments

The Council has put in place formal and comprehensive objectives, policies and practices, strategies and reporting arrangements for the effective management and control of its treasury activities. The procedures for risk management are set out through a legal framework based on the Local Government Act 2003, and associated regulations, which require the Council to comply with the CIPFA Prudential Code, the CIPFA Code of Practice on Treasury Management in the Public Services and investment guidance issued through the Act. The Council, in complying with this framework, acknowledges that effective management and control of risk are the prime objectives of its treasury management activities and responsibility for these lie clearly within the organisation. The key policy documents including the Council's Treasury Management Strategy approved by full Council are available on the Council's website.

Credit risk

Credit risk principally arises on deposits with bank and other financial institutions in relation to deposits. The risk is mitigated through the Council's treasury management strategy. This requires that:

- Deposits are made with banks and other financial institutions that have been rated by independent credit rating agencies with a minimum score of BBB-.
- Deposits can be made with other institutions that have not found it necessary to maintain a credit rating e.g. certain building societies and local authorities, subject to an assessment of risk that is carried out internally. Deposits to these bodies are limited to a percentage of the asset value of the institution.
- No more than £20 million is held with any one institution, regardless of standing or duration, except for the council's main bank (NatWest) and the government DMADF facility. A range of counterparties are used to diversify and spread risk.

The Council's maximum exposure to credit risk in relation to its investments in banks and building societies cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Council's deposits but there was no evidence at 31 March 2023 that this was likely to crystallise. Deposit protection arrangements as outlined in the Council's Treasury Management Strategy will limit any losses that may arise.

The Council's external Treasury advisors, have valued the Council's fixed term deposits (maturity investments) by comparison of the fixed term investment with a comparable investment with the same/similar lender for the remaining period of the deposit. For loans from the PWLB, they have provided fair value estimates using redemption discount rates.

The council has a low credit risk arising from other financial assets. The council has an investment in the Resonance Fund, and it is renewable every 7 years. It is for the provision of accommodation for residents. This is deemed low risk as the investments are tied to specific properties and the council is carrying the investments at fair value on its balance sheet. Debtors are not subject to internal credit rating and expected credit losses are calculated using provision matrices based on historical data for defaults. Impairments on receivables are outlined in note 13b.

Note 13e: Nature and Extent of Risks Arising from Financial Instruments (continued)Liquidity risk

The council maintains a comprehensive daily cashflow management system that seeks to ensure cash is available as needed. It maintains ready access to liquid cash in the event of unexpected movements, either through its savings and investments or through long or short-term borrowing from a range of sources approved as part of the council's Treasury Management Strategy; these include the money markets, the local authority lending markets, or the Public Works Loan Board as operated by the UK Debt Management Office (DMO).

There is no significant risk that the council will be unable to raise finance to meet its commitments under financial instruments. Instead, the risk is that the authority will need to replenish a significant proportion of its borrowings at a time of unfavourable interest rates. To reduce and spread this risk, the council sets limits on the proportion of its fixed rate borrowings maturing over specified periods. This strategy ensures that at any given time no more than 25% of the council's long-term loans should be due to mature within five years, requiring careful planning of new loans taken out and, where it is prudent to do so, making early repayments. The maturity analysis of financial liabilities is shown in the table.

Market Risk

The Council is not exposed to any significant risks in terms of interest rate movements on its borrowing and investments. The spread of investments takes account of prevailing and as far as possible future market forecasts from different sources of the trend and future interest rates risks. Most of the borrowing is with the Public Works Loan Board on a fixed term and fixed interest basis. Interest receivable on call accounts, which move in parallel with the money markets, is credited to the Comprehensive Income and Expenditure Statement. Based on the amount of cash held in such accounts at 31 March 2023 a 1% change in interest rates would change the interest receivable by £0.01m.

Note 13f: Analysis by Maturity

31-March-2022		31-March-2023
£'000		£'000
8,992	Less than one year	56,411
6,411	Between one and two years	24,338
37,159	Between two and five years	35,808
33,795	Between five and ten years	10,808

64,106	Maturing in 20 to 30 years	78,411
203,939	Maturing in 30 to 40 years	189,634
320,000	Maturing in more than 40 years	360,000
721,658	Total	802,666

Note 13g: Term deposits with banks and financial institutions

31-March-2022	Term deposits with banks and financial institutions	31-March-2023
£'000		£'000
15,179	Investments with Banks	10,190
10,000	Investments with Building Societies	20,000

The authority has UK Banks on its lending list and the limits are set out in the Annual Treasury Strategy Report approved by the authority. The figure above shows the maximum exposure for all banks at that date. Building Societies on the counterparty list are ranked based on level of assets held. The list and risk is reviewed based on the market indicators available.

Note 14: Short-Term Debtors by category of counterparty

Note 18: Capital Grant Receipts in Advance

The Authority has received a number of grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned to the giver if the condition is not met.

The balances at the year-end are as follows:

31-March-2022		31-March-2023
£'000		£'000
(21,722)	Developers' contribution	(31,245)
(2,686)	Standard Fund	(7,490)
(6,391)	Greater London Authority	(3,785)

(645)	Greater London Authority	(448)
(81)	Ministry of Housing, Communities & Local Government	(80)
(915)	Other Grant	(915)
(30,195)	NON-CURRENT LIABILITIES	(27,851)
(76,656)	Total Capital Grants Receipts in Advance	(82,742)

Note 19: Dedicated Schools Grant (DSG)

The council's expenditure on schools is funded by grant monies provided by the Department for Children, Schools and Families – the Dedicated Schools Grant (DSG). DSG is ring-fenced and can only be applied to meet expenditure properly included in the Schools Budget. The Schools Budget has two components – one for a restricted range of services provided on an authority-wide basis and the other for the Individual Schools Budget, which is divided into a budget share for each school. The council is required to account separately for overspends and underspends on the two components. Details of the deployment of DSG receivable for 2022/23 and 2021/22 are as follows:

	Central Expenditure	Individual Schools Budget	Total
	£'000	£'000	£'000
Final DSG for 2022/23 before academy and high needs recoupment			308,170
Academy and high needs figure recouped for 2022/23			77,421
Total DSG after academy and high needs recoupment for 2022/23			230,748
Plus: Brought forward from 2021/22			-
Less: Carry-forward to 2023/24 agreed in advance			-
Agreed initial budgeted distribution in 2022/23	51,388	179,360	230,748

Addition to DSG unusable reserve at end of 2021/22			2,269
Total of DSG unusable reserve at end of 2021/22			2,743
Net DSG position at end of 2021/22			2,743

Notes to the Accounts (General) (continued)

Note 20a: Leases – Authority as Lessee

The future minimum lease payments due under non-cancellable leases in future years are:

31-March-2022		31-March-2023
£'000		£'000
921	Not later than one year	128
1,511	Later than one year and not later than five years	335
2,461	Later than five years	828
4,893	Total	1,291

The leases relate to land, buildings, and vehicles, and are charged to the relevant service line in the Comprehensive Income and Expenditure Statement. The total expenditure in 2022/23 was £1.0m, comprising £1.0m Minimum Lease Payments (£1.0m in 2021/22).

Note 20b: Leases – Authority as Lessor

(i) The Council has leased out three properties in the borough on a finance lease (Brixton Enterprise Centre, Gothic Lodge and The Young Vic Theatre). The Council's gross investment in the leases of £2.04m (£2.07m in 2021/22), represents future minimum lease payments, with no anticipated residual values at the end of the lease term (unchanged from 2021/22).

The gross investment in the lease and the minimum lease payments will be received over the following periods:

31-March-2022			31-March-2023	
Gross Investment in the Lease	Minimum Lease Payments		Gross Investment in the Lease	Minimum Lease Payments
£'000	£'000		£'000	£'000
30	7	Not later than one year	30	6
119	23	Later than one year and not later than five years	119	22
1,925	72	Later than five years	1,895	67
2,074	102	Total	2,044	95

Of the total of £2,044k, the element of unearned finance income was £1,629k, with £414k going towards repayment of the lease debtor (£2,073k and £415k in 2021/22). There was no contingent rent corresponding to these lease arrangements.

Notes to the Accounts (General) (continued)

Note 20b: Leases – Authority as Lessor (continued)

(ii) The future minimum lease payments due under non-cancellable operating leases in future years are:

31-March-2022		31-March-2023
£'000		£'000
5,147	Not later than one year	5,388
16,556	Later than one year and not later than five years	17,145
25,000	Later than five years	29,225
46,703	Total	51,758

The increase in future minimum lease payments is due to some long term leases that reached the end of their life being renewed.

Note 21: IFRIC 12 – Service Concession Arrangements (including PFI / PPP contracts)

The council has recognised four contracts on its Balance Sheet:

Norwood Hall is a PFI that started in June 2014 and £8.8m of new asset were recognized accordingly. £1.06m of payments were made in 2022/23. The contract will last for 24 years and the asset will revert to Lambeth at that time. It is a multi-purpose health and leisure facility for the benefits of the community.

The **Lilian Baylis** contract provided the rebuild of the secondary school in Kennington (which became operational in January 2005), and continues to provide further investment in infrastructure and maintenance at the site. The contract runs until July 2030, with payments in 2022/23 totalling £3.36m. Currently payments vary only with changes in RPIX and no other factor.

Lambeth Lighting Services Ltd provides replacements, upgrades and new installations of street lighting throughout the borough. Payments in 2022/23 amounted to £2.15m and the contract will run until 2031. The authority will take full ownership of all created and refurbished lighting at the end of the contract.

Myatt's Field North Estate is being transformed by the construction of 305 new homes, refurbishment of 172 existing homes, and the creation of new streets, play areas and green spaces. The 25 year PFI contract started in 2012, with the construction phase of the project lasting until March 2017, with a total value of £80.7m recognised since the start of the contract. Payments on this contract in 2022/23 were £11.12m. 357 homes will be sold; the council will retain ownership.

Note 21a: The value and movement of assets held under PFI and similar contracts.

Total Council Provisions	(50,223)	(3,081)	19,340	1,000	(32,964)

All provisions are reviewed annually to ensure they are at an appropriate level. Below are further details on material provisions.

- The Insurance Fund**

The Insurance Fund provisions hold the balances set aside for potential liabilities in respect of insurable items for which the council has elected to self-insure and for payments that fall within the insurance excesses, split between the General Fund and the Housing Revenue Account. The review of insurance provisions is carried out annually using an actuarial forecasting approach which is designed to review the appropriateness of the provisions and reserves for the council's self-insured claims as at the date of the valuation. This valuation takes into account all known and outstanding (unpaid) claims received from 1992 to date, and also makes a calculation for any incurred but not reported claims (IBNR). There remains uncertainty in the total value of payments that may be required to be made as a result of the establishment of this provision, but an estimate of the total provision at the balance sheet date is £8.4m (£8.1m at 31 March 2022).

- Provision for Appeals**

Provision for Appeals was introduced alongside the business rates retention scheme in April 2013. The provision is calculated through applying the change in past rateable values based on successful appeals and applying this to current outstanding appeals, as supplied by the Valuations Office Agency (VOA), and the council's share is within the tables disclosed. The VOA aim to resolve checks and challenges within a prescribed period of time and this has been used to determine the split between the short and long term element of the provision. There remains uncertainty in the total value of payments that may be required to be made as a result of the establishment of this provision.

- Redress Scheme**

The council has setup a provision to fund payments made under the Redress scheme pertaining to historic child sexual abuse. The scheme ran until 1 January 2022. There remains uncertainty in the total value of payments that may be required to be made as a result of the establishment of the redress scheme.

- Other General Fund Provisions**

These comprise a small number of legal cases. Payments for these cases remain uncertain but are estimated to be settled within one year

Notes to the Accounts (General) (continued)

Note 22: Provisions (continued)

- HRA Litigation Provision**

The council, along with a number of other authorities, entered into agency agreements to collect water rates on behalf of Thames Water, with discounts to cover the council's cost of collection. Following the case of Ross -v- R B of Kingston Upon Thames where it was determined that discounts should have been passed to the consumer, the council has setup a provision to repay sums to current and former tenants. The council's agreement with Thames Water was terminated on 31 March 2020. There remains uncertainty in the total value of payments that may be required to be made as a result of the establishment of this provision. An estimate of the total provision at the balance sheet date is £0.5m (£1.5m at 31 March 2022).

The following table analyses provisions on the basis of the profile of their use, based on best estimates where the information is not known.

2022/23	Less than one year	Between one year and five years	Greater than five years	Balance at 31-March-2023
	£'000	£'000	£'000	£'000
Insurance fund GF	(1,568)	(4,213)	-	(5,781)
NNDR Provision for Appeals	(2,289)	-	-	(2,289)
Redress Scheme	(20,574)	-	-	(20,574)
Tax & VAT Assessments	(285)	-	-	(285)
Term Time Ruling	-	-	-	-
Small Provisions	(593)	-	-	(593)
Disputes	(323)	-	-	(323)
Sub-Total GF Provisions	(25,632)	(4,213)	-	(29,845)
Insurance Fund HRA	(518)	(2,101)	-	(2,619)
HRA Litigation Provision	-	(200)	(300)	(500)
Sub-Total HRA Provisions	(518)	(2,301)	(300)	(3,119)
Total Council Provisions	(26,150)	(6,514)	(300)	(32,964)

Note 23: Contingent Liabilities

Contingent liabilities are possible obligations arising from a past event whose existence will be confirmed by the occurrence of one or more uncertain future events not wholly within the control of the Council or a present obligation arising from past events where it is not probable that there will be an associated cost or the amount of the obligation cannot be accurately measured.

The council has no contingent liabilities.

Note 24: Pensions Schemes Accounted for as Defined Contribution Schemes

The council participates in the Teachers' Pension Scheme and the NHS Pension Scheme, which are themselves defined benefit schemes. These schemes are unfunded and the relevant department uses a notional fund as the basis for calculating the employers' contribution paid by the employer. Valuations of the notional fund are undertaken every four years. However, these are multi-employer schemes and due to the number of participating employers it is not possible to identify the council's share of the underlying liabilities in the scheme attributable to its own employees with sufficient reliability for accounting purposes, they are accounted for on the same basis as a defined contribution scheme. The council is not liable to the schemes for any other entity's obligations under the plan.

Teachers employed by the authority are members of the Teachers' Pension Scheme, administered by the Department for Education. The council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries. In 2021/22 the council paid £16.9m to the TPA (£16.8m in 2021/22), representing 23.68% of pensionable pay (23.68% in 2021/22). The contributions due to be paid in the next financial year are estimated to be £23.3m in 2023/24 or 23.68% of pensionable pay. For 2022/23 the council made contributions to the NHS Pension Scheme of £0.05m (£0.06m in 2021/22). The contributions due to be paid to the NHS Pension Scheme in the next financial year are estimated to be £0.05m in 2023/24.

Note 25: Defined Benefit Pension Schemes

Participation in pension schemes

As part of the terms and conditions of employment of its officers, the council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the council has a commitment to make the payments for those benefits and to disclose them at the time that employees earn their future entitlement.

The council participates in two funded defined benefit final salary schemes under the Local Government Pension Scheme (LGPS). The first is administered locally by Lambeth Pension Fund, to which most non-teaching Council employees belong.

The governance of the scheme is the responsibility of the London Borough of Lambeth. The second is administered by the London Pensions Fund Authority (LPFA) to which most non-teaching staff employed in schools belong and the governance of the scheme is the responsibility of the Authority. The LGPS rewards years of service with rights to retirement lump sums and pensions based on final salaries. The Scheme also provides additional benefits for ill-health retirement, early retirement attributable to redundancy or in the interests of business efficiency and death in service. Both of these funds are part of the national Local Government Pension Scheme (LGPS), which as of 1st April 2014, changed from being a final salary scheme to a career average scheme.

Discretionary post-retirement benefits on early retirement are an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. There are no plan assets built up to meet these pension liabilities.

Note 25a: Net Defined Benefit Pension Scheme liabilities

The liabilities of the LBL Pension Fund and the LPFA Pension Fund attributable to the council are assessed on an actuarial basis using the projected unit credit method, an estimate of the current value of benefits payable in future years, dependent on assumptions about future mortality rates, salary levels etc. The London Borough of Lambeth liabilities were assessed by Hymans Robertson LLP and the LPFA liabilities were assessed by Barnett Waddingham Public Sector Consulting, both of whom are independent firms of actuaries. Both are included in the following table. Council liabilities are based on the latest full valuation of the scheme as at 31 March 2023.

2021/22*				2022/23		
Scheme Assets	Pensions Obligations	Net Pensions Liability		Scheme Assets	Pensions Obligations	Net Pensions Liability

1,888,949	(2,463,880)	(574,931)	Closing Balance at 31 March	1,730,655	(1,846,978)	(116,323)

*Restated as per Prior Period Adjustment, Note 34a

(1) The effect of the asset ceiling has been determined by the LPFA Scheme's actuaries on the basis of the limitation on the Council's ability to recover the full economic benefit of its assets through reductions in future employer's contributions because of the minimum funding requirement imposed on it by the funding strategy for the Scheme in place at 31 March 2024. Under this strategy, the Council has an obligation to fund the deficit.

The Scheme actuaries have assessed the Council's estimated future service costs less the estimated minimum funding requirement contributions to establish the economic benefit that is available to the Council. The net pensions asset has therefore been adjusted by this effect of the asset ceiling.

Note 25b: Defined Benefit Pension Scheme assumptions

A change in any of the key assumptions can have a significant impact upon the size of the council's pension liabilities, which would require the council during its triennial review to adjust the amount it must pay the Lambeth Pension Fund. The biggest risks include an increase in member life expectancy, salary and pension accumulation rate or a decrease in the real discount rate, which would have an impact on the council's liability to the Pension Fund.

The discount rate is the amount in today's money that is required to pay future obligations – a higher discount rate means a lower requirement to meet future payments. This is why the actuaries prudently use a discount rate based on highly rated corporate bond yields, as a small change in these would have a very large impact upon the size of the liability, which taxpayers are statutorily bound to pay.

The principal assumptions used by the actuaries have been:

Mortality assumptions:	LPFA		Lambeth	
	2021/22	2022/23	2021/22	2022/23
Longevity at 65 for current pensioners:				
Men	20.9 years	20.1 years	21.3 years	21.3 years
Women	23.7 years	23.4 years	23.7 years	24.0 years
Longevity at 65 for future pensioners:				
Men	22.3 years	21.4 years	22.9 years	22.7 years
Women	25.3 years	24.7 years	25.5 years	25.6 years
Rate of increase in salaries	4.40%	3.90%	3.70%	3.50%
Rate of increase in pensions (CPI)	3.40%	2.90%	3.20%	3.00%
Rate for discounting scheme liabilities	2.60%	4.80%	2.70%	4.75%

A sensitivity analysis of the key methodological assumptions of the actuarial valuation can be found in note 2

The Council is entitled to 97% of the assets and liabilities of the Pension Fund, details of which can be found within the Pension Fund notes 1-24.

Notes to the Accounts (General) (continued)**Note 25c: Defined Benefit Pension Scheme assets (continued)**

There has been an overall increase in the net pension liability for 2022/23. The council's obligations are an estimate, based on the best evidence that the actuaries have at 31st March 2023.

The council's agreed strategy with the actuary is to achieve a funding level of 100% over 20 years (March 31st 2033). Funding levels are monitored annually, and the triennial valuation was completed on 31 March 2019. The estimated employers' contributions for the year ending 31 March 2023 will be approximately £40.2m.

The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31 March 2014 (or service after 31 March 2015 for other main existing public service pension schemes in England and Wales).

The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits to certain public servants.

Name	Purpose
Earmarked Grants and Budget Carry-Forwards reserves	Created to provide funds for specific grant-funded projects, and to finance expenditure that has been committed to but not yet incurred at balance sheet date.
Information and Communication Technology Investment	Serve to fund the expenditure necessary on ICT projects as part of the council's continuing transformation
Insurance and Risk Management	Sets aside funding to meet potential future costs that may fall to the council. The largest single element, the Insurance Fund, is intended to provide the means to self-insurance (thus reducing the expenditure on insurance premiums).
Property and Assets	Intended to support investment in the council's assets.
Transformation	To provide the funding to facilitate large organisational changes. Funds have been transferred out of this reserve to the Medium Term Financial Risk Reserve in year to support the future financial risks associated with the continuing impact of Covid-19.
Medium Term Financial Risk Reserve	To support the council through future shortfalls in funding and challenges in balancing its budget over the medium term.
Economic Cycle Resilience Reserve	To protect the council when facing potential future deteriorations in its business rate income, given that local authorities are now more reliant on this as a source of funding.
CIL Reserve	Made up of Community Infrastructure Levy contributions to be used to fund future infrastructure related works.

Notes to the Accounts (General) (continued)

Note 28d: Capital Receipts Reserve

Holds proceeds from the disposal of land or other assets. Statute restricts the use of the proceeds to the funding of new or historical capital expenditure.

Notes to the Accounts (General) (continued)

Note 29: Unusable Reserves (continued)

Revaluation Reserve - Contains the gains made by the Authority arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

Pensions Reserve - Absorbs the timing differences arising from the different accounting arrangements between statutory provisions and accounting practice for post-employment benefits and funding benefits. The council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as benefits are earned by employees.

The balance sheet is updated to recognise the movement in liabilities due to changes in assumptions (including inflation and longevity) and investment returns on resources set aside to meet the cost of the employee benefits. However, statutory arrangements require benefits earned to be financed as the council makes employer's contributions to pension funds. The Pensions Reserve balance reflects the substantial shortfall between the benefits Pension Fund members have earned and the resources the council set aside to meet them.

The movement in balances on the Pensions Reserve are for both the Lambeth Pension Fund and Lambeth's share of the LPFA during the year.

Capital Adjustment Account - Absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 27 to the MIRs provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

Deferred Capital Receipts Reserve - Absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions. The council uses the Account to manage premiums paid on the early redemption of loans. Premiums are debited to the Comprehensive Income and Expenditure Statement when they are incurred, but reversed out of the General Fund Balance and Housing Revenue Account (HRA) to the Financial Instruments Adjustment Account in the Movement in Reserves Statement. Over time, the expense is posted back to the General Fund Balance and HRA in accordance with statutory arrangements for spreading the burden on council tax. In the council's case, this period is the unexpired term that was outstanding on the loans when they were redeemed (maximum of 10 years on the HRA). As a result, the balance on the Account at 31 March 2019 will be charged to the General Fund over the next 10 years and to the HRA for the next three years.

Collection Fund Adjustment Account - Manages the differences arising from the recognition of council tax and business rates income in the Comprehensive Income and Expenditure Statement as it falls due from taxpayers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund. The deficit in 2022/23 has arisen due to the government announcing business rates relief in response to the pandemic. These have been compensated by a section 31 grant funding and are held in Earmarked Reserves.

Accumulated Absences Account - Absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year e.g. annual leave entitlement carried forward at 31 March.

Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

Redress Capitalisation Directive Reserve - The government has provided the ability to capitalise specific future costs relating to the redress scheme setup by the council in 2017/18 for payments pertaining to historic child abuse. The provision setup for these costs is matched by this reserve. As payments are made these will be debited against the provision and will be matched by drawing down the reserve by an equal sum to the capital adjustment account.

NOTES TO THE CASH FLOW STATEMENT

Note 30: Investing Activities

2021/22 (Adjusted)		2022/23
£'000		£'000
98,828	Purchase of property, plant and equipment, investment property and intangible assets	117,956
20,000	Purchase of short-term and long-term investments	50,000
35,020	Other payments for investing activities	34,209
(24,396)	Proceeds from the sale of property, plant and equipment and intangible assets	(20,006)
(10,000)	Proceeds from short-term and long-term investments	-
(38,978)	Other receipts from investing activities	(55,422)
80,474	Net cash flows from investing activities	126,737

Note 31: Financing Activities

2021/22 (Adjusted)		2022/23
£'000		£'000
(80,000)	Cash receipts of short and long-term borrowing	(90,000)
-	Council Tax and NNDR adjustments	-
4,729	Cash payments for the reduction of the outstanding liabilities relating to finance leases and on-balance sheet PFI contracts	4,820
-	Other financing Activities	18,990
(75,271)	Net cash flows from financing activities	(66,190)

Note 32: Operating Activities (Interest)

The cash flows for operating activities include the following items

2021/22		2022/23
£'000		£'000
(2,129)	Interest received	(1,137)
35,154	Interest paid	28,667
33,025	Total	27,530

Note 33: Cash and Cash Equivalents

The balance of Cash and Cash Equivalents is made up of the following elements:

2021/22		2022/23
£'000		£'000
(19)	Cash held by the Authority	(147)
87,177	Bank current accounts in current assets	20,075
5,179	Short-term deposits with banks	190
92,337	Total Cash and Cash Equivalents	20,118

Note 34: Reconciliation of Liabilities Arising from Financing Activities

	Balance at 31-March-2022	Financing Cash Flows	Acquisition	Other non-cash changes	Balance at 31-March-2023

On balance sheet PFI liabilities	(90,738)	4,729	-	-	(86,009)
Total liabilities from financing activities	(739,478)	(84,896)	-	(383)	(824,757)

Note 34a: Prior Year Adjustments

On review of the net pension liability relating to the London Pension Fund Authority (LPFA) Scheme for 2021/22 and prior years, the Council has concluded that the statutory framework for setting employer's contributions under the scheme constituted a minimum funding requirement. As a result, the Council's ability to realise the full economic benefits of the net pensions asset of £21.295m originally reported and calculated under the Accounting Code's provisions for post-employment benefits through reductions in future employer's contributions was limited. An asset ceiling therefore applied.

The Council's commitment under the funding strategy for the Scheme to fund the deficit meant that the asset ceiling changed what was reported as at 31 March 2022 as a net pensions asset of £29.125m to a net pensions liability of £2.374m. As this was a material error, a prior year adjustment has been made.

The detail below shows the adjustments to the opening balances of the previous reporting period:

Effect on Balance Sheet 1 April 2021	1 April 2021 balance as previously stated	IAS 19 - Asset Ceiling	1 April 2022 Balance Restated
	£'000	£'000	£'000

HOUSING REVENUE ACCOUNT (HRA) - INCOME AND EXPENDITURE STATEMENT

The Housing Revenue Account (HRA) is a statutory statement, which summarises the transactions relating to the provision, maintenance and management of the council's housing stock. The Local Government and Housing Act 1989 required the ring-fencing of the Account with effect from 1 April 1990, thereby prohibiting cross subsidy between the HRA and the General Fund.

Notes to the Housing Revenue Account (continued)

Note 40: Rent Arrears

2021/22		2022/23
	Rent arrears comprise:	
19,894	Arrears as at 31st March	21,204
(7,538)	Impairment on receivables	(8,814)
12,356	Collectable amount	12,390

Note 41: Vacant Possession Value

The vacant possession value of dwellings within the HRA at 31 March 2022 was £10.100 bn (£9.579 bn at 31 March 2022) which has been reduced to £2.525 bn (£2.418 bn at 31 March 2022) to reflect social housing use subsidised housing. This shows the economic cost to the government of providing council housing at less than market rents.

Note 42: HRA Share of Contributions to the Pension Reserve

The HRA Income and Expenditure account has suffered a charge from the Pension Reserve of £8.91m in 2022/23 (charge of £9.19m in 2021/22), as per proper practice. The impact of this on the HRA balance is nullified by means of a reversing entry in the Movement in Reserves Statement

COLLECTION FUND STATEMENT

The Collection Fund is a statutory statement relating to the collection of income received from Council Tax and business rates, known as National Non-Domestic Rates (NNDR). The account shows how the income received is distributed between the Council's General Fund, Central Government and the Greater London Authority.

2021/22				2022/23			Note

SHARE OF BALANCES BETWEEN LONDON BOROUGH OF LAMBETH AND ITS PRECEPTORS

The Collection Fund Income and Expenditure Account is prepared on an accruals basis. Lambeth, as the billing agent, includes appropriate shares of the year end balances in its balance sheet and those of its preceptors. The apportionment is detailed in the table below.

COLLECTION FUND	Total Collection Fund		Central Government		London Borough of Lambeth		Greater London Assembly	
	CTAX	£'000 NNDR	CTAX	£'000 NNDR	CTAX	£'000 NNDR	CTAX	£'000 NNDR
Apportionment Basis	100%	100%	N/A	33%	75%	30%	25%	37%
Arrears	55,834	17,497	N/A	5,774	42,099	5,249	13,735	6,474

(Surplus)/Deficit	(985)	17,417	N/A	5,748	(743)	5,225	(242)	6,444

Notes to the Collection Fund

Note 43: Council tax income

Council tax is charged on residential properties and is based on the value of the property. Each property falls into one of eight bands A-H based on estimated market values at 1 April 1991. During the annual budget setting process the Council determines the charge for its band D properties by dividing its budget requirement by the tax base. The council tax base is the total number of chargeable dwellings (adjusted for dwellings where discounts and exemptions apply). The tax for the other bands is calculated as a proportion of the band D tax.

For the year ended 31 March 2023, the band D council tax was set at £1,660.24 based upon a tax base of 111,161 (for 2021/22, £1,591.59 based upon a tax base of 110,872) and includes £395.59 requirement for the Greater London Authority (£363.66 in 2021/22). The table below shows the calculation of the Council Tax Base for 2022/23.

The table below shows the calculation of the Council Tax Base for 2022/23.

Valuation Band	Total no. of dwellings on valuation list	Total equivalent dwellings after adjustments	Ratio	Band D equivalent dwellings
A	4,893	3,298	6 / 9	2,199
B	31,624	21,430	7 / 9	16,668
C	41,212	32,416	8 / 9	28,815
D	32,242	26,653	9 / 9	26,653
E	15,655	13,561	11 / 9	16,574
F	9,955	9,091	13 / 9	13,131
G	5,686	5,441	15 / 9	9,069
H	1,071	1,042	18 / 9	2,084
Total	142,338	112,932		115,193
Less Adjustment for collection rate				(4,032)
Council Tax Base				111,161

Notes to the Collection Fund (continued)

Note 44: National Non-Domestic Rates

National Non-Domestic Rates also known as business rates are based on the local rateable values of commercial properties multiplied by a uniform collection rate known as the multiplier after taking into account transitional arrangements. The rateable values are set by the Valuation Office Agency (VOA) and multiplier rates are set annually by Central Government. In 2022/23 the standard multiplier was set at 51.2p (51.2p in 2021/22) and the small business rate multiplier was set at 49.9p (49.9p in 2021/22). The total rateable value at the end of March 2023 was £426.1m (£421m on 31 March 2022).

The total business rates income is based on the 2022/23 estimated collection and the 2021/22 deficit. However, as this is determined before the end of 2021/22 an adjustment is required in 2022/23 to account for the difference between the estimated position and the actual position. This difference (surplus/deficit) is distributed/clawed back in the following financial year. In 2022-23 the NDR reported an in-year deficit of £14.49m. This was the direct result of lower-than-expected gross rates payable reflecting wider pressures faced by businesses from adverse economic conditions.

Note 45: Business Rate Supplements (BRS)

BRS were introduced by the Business Rate Supplements Act 2009. A Business Rate Supplement is a non-exchange transaction, and as such is accounted for under IPSAS 23 (International Public Sector Accounting Standard) Revenue from Non-Exchange Transactions (Taxes and Transfers). Lambeth (LBL) bills its ratepayers for the Crossrail BRS. Supplements are charged on commercial properties whose rateable value is more than £70,000 multiplied by the BRS multiplier which is 2p (unchanged from previous years). This income is not the income of the authority and is not included in the Comprehensive Income and Expenditure Statement. Amounts deducted from BRS income to meet administrative expenses are the authority's income.

The accounting statement shows the amounts required by statute to be credited to the Collection Fund after cost of collection and other adjustments and payments made to GLA.

Group Accounts and Notes

The Group Accounts are a consolidation of the financial statements of London Borough of Lambeth and its wholly owned subsidiary HFL Group Limited.

HFL GROUP LIMITED is a parent company to:

- HFL BUILD LIMITED
- HFL HOMES LIMITED
- HFL LIVING LIMITED

The accounts of HFL GROUP LIMITED that have been consolidated into the following Group Accounts, are themselves a consolidation of the financial statements of the four companies.

The following statements and notes are presented in addition to the council's 'single entity' financial statements. We have included here only the statements and notes considered necessary to show the full picture of the council's economic activities and financial position when viewed in conjunction with the single entity accounts.

The Group Accounts include the following:

- Group Comprehensive Income & Expenditure Statement
- Group Movement in Reserves Statement
- Group Balance Sheet
- Group Cash Flow Statement
- Notes to the Group Accounts

GROUP COMPREHENSIVE INCOME & EXPENDITURE STATEMENT

124

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

This Group version of the Comprehensive Income & Expenditure Statement (CIES) includes a separate line for HFL Group showing Gross Expenditure and Gross Income as part of the Cost of Services. There are also costs incurred by HFL Group Limited within the lines for Interest Payable and Similar Charges and for Impairments on Receivables. Where other lines differ from the London Borough of Lambeth (LBL) CIES, this is due to consolidation adjustments to remove the impact of transactions between LBL and HFL.

The Group Movement in Reserves Statement includes an extra column for the Subsidiary Reserves for HFL Group Limited.

The HfL Group Limited reserves have been adjusted to remove the £8m worth of equity that was issued to Lambeth council in exchange for assets transferred across in 2019/20.

*Restated as per Prior Period Adjustment, Note 34a

GROUP BALANCE SHEET

The Balance Sheet shows the value of the assets and liabilities held by the council. The council's net assets (assets less liabilities) are matched by the reserves it holds. These reserves are shown in two categories – usable and unusable. Usable reserves may be used to provide services subject to statutory limitations and the need to maintain prudent levels of reserves for financial stability. Unusable reserves cannot be used to fund council services.

GROUP CASH FLOW STATEMENT

The **Cash Flow Statement** shows the changes in cash and cash equivalents of the Council during the reporting period.

The Statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities.

The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the authority.

Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the authority's future service delivery.

Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e., borrowing) to the authority.

2021/22 (Adjusted)		2022/23

G1. Group Accounting Policies

The Group Accounts have been prepared on the basis of the same accounting policies set out in Lambeth's single entity financial statements (see Note 1). The method of preparation of Group Accounts involves combining figures from Lambeth's single entity accounts with figures from HFL Group Limited's Group Accounts and then adjusting to remove the accounting impact of any intragroup transactions between Lambeth and HFL.

G2. Group Property Plant & Equipment

This note differs from the single entity note for Property, Plant & Equipment because HFL Group Limited hold assets on their balance sheet that are categorised in the following columns:

- Other Land and Buildings
- Vehicles, Plant, Furniture & Equipment; and
- Assets Under Construction

G2. Group Property, Plant and Equipment (continued)

G3. Reconciliation of Infrastructure assets to PPE

2021/22		2022/23
£'000	Reconciliation of infrastructure assets to PPE	£'000
	Infrastructure assets	
138,150	<i>Owned</i>	141,756
12,132	<i>PFI</i>	11,698
	Other PPE Assets	
3,789,243	<i>Owned</i>	3,919,335
98,143	<i>PFI</i>	102,126
4,037,668		4,174,915

Infrastructure assets are measured on a depreciated historical cost basis. However, the accounting rules that applied before 1 April 1994 mean that the carrying amount only reliably includes expenditure of acquisition and enhancement incurred after this date. Expenditure incurred before this date is only included to the extent that it had not been financed before the end of the 1993/94 financial year.

In accordance with the Temporary Relief offered by the Update to the Code on infrastructure assets this note does not include disclosure of gross cost and accumulated depreciation for infrastructure assets because historical reporting practices and resultant information deficits mean that this would not faithfully represent the asset position to the users of the financial statements. All replaced infrastructure components are determined to have fully depreciated and have a net amount of nil.

Notes to the Pension Fund

The accompanying notes form an integral part of the financial statements.

PEN - 1: Description of the Fund

The London Borough of Lambeth Pension Fund ('the Fund') is part of the Local Government Pension Scheme and is administered by Lambeth Council. The council is the reporting entity for this pension fund.

The following description of the Fund is a summary only. For further information, reference should be made to the Lambeth Pension Fund Annual Report 2022/23 and the underlying statutory powers underpinning the scheme, namely the Public Service Pensions Act 2013 and The Local Government Pension Scheme (LGPS) Regulations 2013 (as amended).

General

The scheme is governed by the Public Service Pensions Act 2013. The Fund is administered in accordance with the following secondary legislation (referred to henceforth as "the Regulations"):

- The Local Government Pension Scheme (LGPS) Regulations 2013 (as amended);
- The Local Government Pension Scheme (Transitional Provisions, Savings and Amendment) Regulations 2014 (as amended); and
- The Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016.

It is a contributory defined benefit pension scheme administered by Lambeth Council to provide pensions and other benefits for pensionable employees of the council and a range of other scheduled and admitted bodies within the borough.

The Fund is overseen by the Pensions Committee, a statutory committee of Lambeth Council with authority to discharge the council's functions in relation to the pension fund.

Membership

Membership of the LGPS is on auto enrolment however, employees can choose to opt out.

Organisations participating in the Lambeth Pension Fund include:

- Scheduled bodies, which are local authorities and similar bodies whose staff are automatically entitled to be members of the Fund.
- Admitted bodies, which are other organisations that participate in the Fund via an admission agreement. Admitted bodies include voluntary and charitable bodies or private contractors undertaking an outsourced local authority function.

Notes to the Pension Fund (continued)

PEN - 1: Description of the Fund (continued)

There are 31 employer organisations within the Fund including Lambeth Council itself as set out in the following table.

Lambeth Pension Fund	31-March-2023	31-March-2022
Number of employers with active members	31	27
Number of employees in scheme:		
Lambeth council	4,337	4,587
Other employers	538	366
Total	4,875	4,953
Number of Deferred pensioners:		
Lambeth council	8,069	8,385
Other employers	354	232
Total	8,423	8,617
Number of pensioners:		
Lambeth council	8,142	7,741
Other employers	77	65
Total	8,219	7,806
Total number of members in pension scheme	21,517	21,376

Funding

Benefits are funded by contributions and investment earnings. Contributions are made by active members of the Fund in accordance with the Regulations and range from 5.5% to 12.5% of pensionable pay for the financial year ending 31 March 2023. Employee contributions are matched by employers' contributions that are set based on triennial actuarial funding valuations. The last such valuation was as at 31 March 2022. Currently, employer contribution rates range from 0% to 51.4% of pensionable pay.

Benefits

For each year of LGPS membership built up prior to 1 April 2014, Fund members receive a pension based on the appropriate accrual rate of their final pay summarised as follows.

	Service pre 1 April 2008	Service post 1 April 2008
Pension	Each year worked is worth 1/80 x final pensionable salary.	Each year worked is worth 1/60 x final pensionable salary.
Lump sum	Automatic lump sum of 3x salary. In addition, part of the annual pension can be exchanged for a one-off tax-free cash payment. A lump sum of £12 is paid for each £1 of pension given up.	No automatic lump sums. Part of the annual pension can be exchanged for a one-off tax-free cash payment. A lump sum of £12 is paid for each £1 of pension given up.

Prior to 1 April 2014, pension benefits under the LGPS were based on final pensionable pay and length of pensionable service. From 1 April 2014, the scheme became a career average scheme, whereby members accrue benefits based on their pensionable pay each year at an accrual rate of 1/49th. Accrued pension benefits are updated annually in line with the Consumer Price Index.

Notes to the Pension Fund (continued)

PEN - 1: Description of the Fund (continued)

There are a range of other benefits provided under the Scheme including early retirement, ill health pensions and death benefits. For more details, please refer to the Lambeth Pension Fund Scheme handbook which is available on the Lambeth Pension Fund website at the following link:

<https://www.lgpslambeth.org/resources/a-brief-guide-to-the-lgps-for-employees/>

PEN - 2: Basis of Preparation

The statement of accounts summarises the Fund's transactions for the 2022/23 financial year and its position as at 31 March 2023. The accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 ("the Code"), which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector.

The accounts summarise the transactions of the Fund and report on the net assets available to pay pension benefits. The accounts do not take account of obligations to pay pensions and benefits that fall due after the end of the financial year.

The following accounting standards are not yet reflected in the 2022-23 Code of Practice. They are not therefore reflected in the Pension Fund Statement of Accounts:

- IFRS 16 Leases (replaces IAS 17) will be implemented on 1 April 2024;
- IFRS 1 (First-time adoption) – amendment relates to foreign operations of acquired subsidiaries transitioning to IFRS
- IAS 37 (Onerous contracts) – clarifies the intention of the standard The Pension Fund Accounts have been prepared on a going concern basis.
- IFRS 16 (Leases) – amendment removes a misleading example that is not referenced in the Code material
- IAS 41 (Agriculture) – one of a small number of IFRSs that are only expected to apply to local authorities in limited circumstances.
- Property, Plant and Equipment – Proceeds before intended use (Amendments to IAS16)

These changes in accounting standards are in our view unlikely to have a material impact on the Pension Fund accounts and might be subject to change

The functions of the Pension Fund will continue in operational existence for the foreseeable future.

PEN - 3: Summary of Significant Accounting Policies

Fund Account – revenue recognition

a. *Contribution income*

Normal contributions, both from members and employers, are accounted for on an accruals basis in the payroll period to which they relate.

Employer contributions are based on the percentage rate recommended by the scheme actuary. Employee contributions are based on the Regulations and range from 5.5% to 12.5% of pensionable pay.

Employer deficit funding contributions are accounted for on the due dates on which they are payable under the schedule of contributions set by the scheme actuary, or on receipt if earlier than the due date.

Employers' augmentation contributions and pensions strain contributions are accounted for in the period in which the liability arises. Any amount due in year but unpaid will be classed as a current asset.

b. *Transfers to and from other schemes*

Individual transfers in/out are accounted for on a cash basis when received/paid, which is normally when the member liability is accepted or discharged (see notes 8 and 10).

Transfers in from members wishing to use the proceeds of their additional voluntary contributions to purchase scheme benefits are accounted for on a receipts basis and are included in Transfers in (see note 8).

Bulk (group) transfers are accounted for on an accruals basis in accordance with the terms of the transfer agreement.

Notes to the Pension Fund (continued)

PEN - 3: Summary of Significant Accounting Policies (continued)

c. *Investment income*

i) *Interest income*

Interest income is recognised in the Fund Account as it accrues, using normal accruals accounting. Income includes the amortisation of any discount or premium, transaction costs (where material) or other differences between the initial carrying amount of the instrument and its amount at maturity calculated on an effective interest rate basis.

ii) *Dividend income*

Dividend income is recognised on the date the shares are quoted ex-dividend. Any amount not received by the end of the reporting period is disclosed in the net assets statement as a current asset.

iii) *Distributions from pooled funds*

Distributions from pooled funds are recognised at the date of issue. Any amount not received by the end of the reporting period is disclosed in the net assets statement as a current asset.

iv) *Movement in the net market value of investments*

Changes in the net market value of investments (including property funds) are recognised as income and comprise of realised and unrealised profits/losses during the year.

Fund Account – expense items

d. *Benefits payable*

Pensions and lump sum benefits payable include all amounts known to be due as at the end of the financial year. Any amounts due but unpaid are disclosed in the net assets statement as current liabilities.

e. *Taxation*

The fund is a registered public service scheme under section 1(1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin unless exemption is permitted. Irrecoverable tax is accounted for as a Fund expense as it arises.

f. *Management expenses*

The Code does not require any breakdown of costs relating to administration, oversight and governance, and managing investments. However, in the interests of greater transparency, the Fund discloses its total pension fund management expenses in note 11 in accordance with the CIPFA guidance on Accounting for Local Government Pension Scheme Management Expenses (2016).

Administrative expenses

Administration expenses include those related to activities performed to administer benefits to members, interactions with scheme employers, and staffing and IT costs. All administration expenses are accounted for on an accruals basis. All staff costs of the pension administration team are charged directly to the Fund as well as a proportion of staff costs relating to the investment management team. associated management, accommodation and other overheads are apportioned to this activity and charged as expenses to the Fund.

Oversight and governance costs

Oversight and governance expenses include costs relating to the selection, appointment and monitoring of external fund managers, investment advisory services, any costs of compliance to salutatory reporting, legal costs, and audit fees. All oversight and governance expenses are accounted for on an accruals basis and charged directly to the Fund.

Investment management expenses

All investment management expenses are accounted for on an accruals basis. Fees of the external fund managers and custodian are agreed in the respective mandates governing their appointments. Broadly, these are based on the market value of the investments under their management and therefore increase or reduce as the value of those investments change.

PEN - 3: Summary of Significant Accounting Policies (continued)*Investment management expenses (continued)*

Investment management expenses deducted at source (which would have been netted off investment income or asset sales) are accounted for by grossing up investment sales; this has the effect of increasing the change in value of investments reported in the Fund Account and the investment reconciliation table in Note 14a, though the closing value of investments as reported in the Net Assets Statement is unaffected. This treatment is in line with the CIPFA Guidance on Accounting for Local Government Pension Scheme Management Expenses 2016.

Where an investment manager's fee note has not been received by the year-end date, an estimate based upon the market value of the mandate as at the end of the year is used for inclusion in the Fund Account. In 2022/23 £0.0m fees were included in the accounts based on such estimates (2021/22: £0.0m).

Net Assets Statementg) *Financial assets*

Investments are shown at fair value, as at the reporting date. Debtors and cash are accounted for at amortised cost. A financial asset is recognised in the net assets statement on the date the Fund becomes party to the contractual acquisition of the asset. From this date, any gains or losses arising from changes in the fair value of the asset are recognised in the Fund Account.

The value of investments as shown in the net assets statement have been determined as follows:

i) *Market-quoted investments*

The value of an investment for which there is a readily available market price is determined by the bid market price on the final day of the accounting period.

ii) *Fixed interest securities*

Fixed interest securities are recorded at net market value based on their current yields

iii) *Unquoted investments*

The fair value of investments for which market quotations are not readily available is determined as follows:

Valuations of delisted securities are based on the last sale price prior to delisting or, where subject to liquidation, the amount the Fund expects to receive on wind-up, less estimated realisation costs.

Securities subject to takeover offer – the value of the consideration offered under the offer, less estimated realisation costs.

Unquoted securities typically include private equity. The valuation of these pools or directly held securities is undertaken by the investment manager or responsible entity and advised as a unit or security price. The valuation standards followed in these valuations adhere to industry guidelines or to standards set by the constituent documents of the pool or the management agreement.

Investments in private equity funds and unquoted listed partnerships are valued based on comparable valuations of similar companies in accordance with International Private Equity and Venture Capital Valuation Guidelines.

iv) *Pooled investment vehicles*

Pooled investment vehicles are valued at closing bid price if both bid and offer prices are published or, if single priced, at the closing single price. In the case of pooled investment vehicles that are accumulation funds, change in market value also includes income that is reinvested in the fund, net of applicable withholding tax.

PEN - 3: Summary of Significant Accounting Policies (continued)**h. Foreign currency transactions**

Dividends, interest, and purchases and sales of investments in foreign currencies have been accounted for at the spot market rates at the date of transaction. End-of-year spot market exchange rates are used to value cash balances held in foreign currencies, the market value of overseas investments, and purchases and sales outstanding at the end of the reporting period.

j. Cash and cash equivalents

Cash comprises cash in hand and demand deposits and includes amounts held by the Fund's external managers. Cash equivalents are short-term, liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of changes in value.

k. Financial liabilities

A financial liability is recognised in the net assets statement on the date the Fund becomes party to the liability. The fund recognises financial liabilities relating to investment trading at fair value and any gains or losses arising from changes in the fair value of the liability between contract date, the year-end date and the eventual settlement date are recognised in the fund account as part of the change in value of investments.

Other financial liabilities classed as amortised cost are carried in the net asset statement at the value of the outstanding principal at 31 March each year. Any interest due not yet paid is accounted for on an accruals basis and included in administration costs.

l. Actuarial present value of promised retirement benefits

The actuarial present value of promised retirement benefits is assessed on an annual basis by the scheme actuary in accordance with the requirements of IAS 19 and relevant actuarial standards.

As permitted under the Code, the Fund has opted to disclose the actuarial present value of promised retirement benefits by way of a note to the net assets statement (note 19).

m. Additional voluntary contributions

Lambeth Pension Fund provides an additional voluntary contribution (AVC) scheme for its members, the assets of which are invested separately from those of the Fund. The Fund has appointed Prudential, Utmost Life and Pensions and Clerical Medical as its AVC providers.

AVCs are paid to the AVC provider by employers and are specifically for providing additional benefits for individual contributors. AVC contributors receive an annual statement detailing the value of their contributions and any movements in the year.

AVCs are not included in the statement of accounts in accordance with the Regulations but are disclosed separately in the notes to the accounts (note 22).

n. Contingent assets and contingent liabilities

A contingent asset arises where an event has taken place giving rise to a possible asset whose existence will only be confirmed or otherwise by the occurrence of future events.

A contingent liability arises where an event has taken place prior to the year-end giving rise to a possible financial obligation whose existence will only be confirmed or otherwise by the occurrence of future events. Contingent liabilities can also arise in circumstances where a provision would be made, except that it is not possible at the balance sheet date to measure the value of the financial obligation reliably.

Contingent assets and liabilities are not recognised in the Net Assets Statement but are disclosed by way of narrative in notes 24 and 25.

PEN - 4: Critical Judgements in Applying Accounting Policies

There were no critical judgements in 2022-23 other than estimation uncertainty that would have impacted on the financial statements.

PEN - 5: Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The preparation of financial statements requires management to make judgements, estimates, and assumptions that affect the value of assets and liabilities reported at the balance sheet date as well as the amounts reported for revenue and expenses incurred during the year. Estimates and assumptions consider historical experience, current trends, and other relevant factors; however, the nature of estimation means that the actual outcomes could differ from the assumptions and estimates. The items in the financial statements as at 31 March 2023 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if actual results differ from assumptions
Private equity (Note 14)	Private equity investments are valued at fair value in accordance with British Private Equity and Venture Capital Association guidelines. These investments are not publicly listed and as such, there is a degree of estimation involved in the valuation. The valuation shown as at 31 March 2023 is £60.2m.	The total (called) private equity investment in the financial statements is £60.2m. There is a risk that this investment may be under- or overstated in the accounts by up to £14m as a result of market volatility i.e., interest rate, inflation rate. Private Equity is illiquid for holding until its maturity of 12 years.
Pooled property funds (Note 15)	The pension fund contains investments in unitised pooled property funds that are classified within the financial statements as level 3 investments (as detailed in note 15).	Changes in the valuation assumptions used, together with significant changes in rental growth, vacancy levels or the discount rate could affect the fair value of property-based investments by up to 15.3% i.e. an increase or decrease of £26.0m, on carrying values of £167m.

PEN - 6: Events after the Reporting Date

There have been no events since 31 March 2023, up to the date when these accounts were authorised that require any adjustments to these accounts.

Notes to the Pension Fund (continued)

PEN - 15a: Fair Value Hierarchy

Asset and liability valuations have been classified into three levels, according to the quality and reliability of information used to determine fair values. Transfers between levels are recognised in the year in which they occur.

Level 1

Assets and liabilities at level 1 are those where the fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities. Products classified as level 1 comprise quoted equities, quoted fixed securities, quoted index linked securities and quoted unit trusts.

Level 2

Assets and liabilities at level 2 are those where quoted market prices are not available; for example, where an instrument is traded in a market that is not considered to be active, or where valuation techniques are used to determine fair value based on observable data.

Level 3

Assets and liabilities at level 3 are those where at least one input that could have a significant effect on the instrument's valuation is not based on observable market data.

The following table provides an analysis of the financial assets and liabilities of the Fund grouped into levels 1 to 3, based on the level at which the fair value is observable.

Property pooled funds continue to be included at level 3 as a result of the market valuation uncertainty that has been added to the fund valuations

PEN - 17: Nature and Extent of Risks Arising from Financial Instruments**Risk and Risk Management**

The Fund's primary long-term risk is that the Fund's assets will fall short of its liabilities (i.e. promised benefits payable to members). Therefore, the aim of investment risk management is to minimise the risk of an overall reduction in the value of the Fund and to maximise the opportunity for gains across the whole portfolio. The Fund achieves this through asset diversification to reduce exposure to market risk (price risk, currency risk, and interest risk) to ensure there is sufficient liquidity to meet the Fund's forecast cash flows. The Fund manages these investment risks as part of its overall Fund risk management programme.

Responsibility for the Fund's risk management strategy rests with the Pensions Committee. Risk management policies are established to identify and analyse the risks faced by the Fund's pensions operations. Policies are reviewed regularly to reflect changes in activity and in market conditions.

a) Market risk

Market risk is the risk of loss from fluctuations in equity and commodity prices, interest and foreign exchange rates and credit spreads. The Fund is exposed to market risk from its investment activities, particularly through its equity holdings. The level of risk exposure depends on market conditions, expectations of future price and yield movements and the asset mix.

The objective of the Fund's risk management strategy is to identify, manage, and control market risk exposure within acceptable parameters, whilst optimising the return on risk. In general, excessive volatility in market risk is managed through the diversification of the portfolio in terms of geographical and industry sectors and individual securities. To mitigate market risk, the Fund and its investment advisors undertake appropriate monitoring of market conditions and benchmark analysis. The Fund manages these risks in two ways:

1. The exposure of the Fund to market risk is monitored through a factor risk analysis, to ensure that risk remains within tolerable levels.
2. Specific risk exposure is limited by applying risk-weighted maximum exposures to individual investments.

Equity futures contracts and exchange traded option contracts on individual securities may also be used to manage market risk on equity investments. It is possible for over-the-counter equity derivative contracts to be used in exceptional circumstances to manage specific aspects of market risk.

PEN - 17: Nature and Extent of Risks Arising from Financial Instruments (continued)*Other price risk – sensitivity analysis*

Following analysis of historical data and expected investment return movement during the financial year, and in consultation with the Fund's investment advisors, the Fund has determined that the following movements in market price risk are reasonably possible for the 2022/23 reporting period. The potential price changes disclosed below are broadly consistent with a one-standard deviation movement in the value of the assets. The sensitivities are consistent with the assumptions contained in the investment advisors' most recent review; this analysis assumes that all other variables, in particular foreign currency exchange rates and interest rates, remain the same.

Asset Type	Potential market movement 22/23	Potential market movement 21-22
Bonds - LDI	11.5%	14.3%
Emerging Market Equities	24.1%	26.2%
Sustainable Equities	17.5%	17.0%
Private Debt	11.1%	10.6%
Global Equities	17.5%	17.0%
Pooled Property Investments	15.3%	14.1%
Private Equity	24.4%	25.0%
Multi Asset Credit	9.7%	10.7%
Hedge Funds	0.0%	6.8%
Money Market Fund	0.0%	0.0%
Cash - GBP	0.0%	0.0%

Had the market price of the Fund's investments increased/decreased in line with the above percentage movements, the change in the net assets available to pay benefits would have been as follows (the prior year comparator is also shown below).

Notes to the Pension Fund (continued)

PEN - 17: Nature and Extent of Risks Arising from Financial Instruments (continued)

Change in the net assets

Asset Type	Values at 31- March-2023	Potential market movement (+/-)	Value on increase	Value on decrease

PEN - 17: Nature and Extent of Risks Arising from Financial Instruments (continued)

Interest rate risk

The Fund invests in financial assets for the primary purpose of obtaining a return on investments. These investments are subject to interest rate risks, which represent the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Fund’s interest rate risk is routinely monitored by the Fund and its investment advisors in accordance with the Fund’s risk management strategy, including monitoring the exposure to interest rates and assessment of actual interest rates against the relevant benchmarks.

The Fund’s direct exposure to interest rate movements as at 31 March 2023 and 31 March 2022 is set out in the table opposite. These disclosures present interest rate risk based on the underlying financial assets at fair value.

Notes to the Pension Fund (continued)

PEN - 17: Nature and Extent of Risks Arising from Financial Instruments (continued)

Interest rate risk – sensitivity analysis

The Fund recognises that interest rates can vary and can affect both income to the Fund and the carrying value of Fund assets, both of which affect the value of the net assets available to pay benefits. A 100 basis points movement in interest rates is consistent with the level of sensitivity applied as part of the Fund's risk management strategy. The Fund's investment advisor has advised that long-term average rates are expected to move less than 100 basis points from one year to the next.

Assets exposed to interest rate risk	Values at 31- March-2023	Potential market movement (+/-)	Value on increase	Value on decrease
	£'000	£'000	£'000	£'000
Cash and cash equivalents	47,947	-	47,947	47,947
Fixed interest securities	193,332	1,933	195,266	191,399
Total	241,279	1,933	243,213	239,346

Assets exposed to interest rate risk	Values at 31- March-2022	Potential market movement (+/-)	Value on increase	Value on decrease
	£'000	£'000	£'000	£'000
Cash and cash equivalents	104,394	-	104,394	104,394
Fixed interest securities	281,162	2,812	283,974	278,351
Total	385,556	2,812	388,368	382,745

Income exposed to interest rate risk	Amount Receivable 2022/23	Potential market movement (+/-)	Value on increase	Value on decrease
	£'000	£'000	£'000	£'000
Cash and cash equivalents	1,350	14	1,363	1,336
Fixed interest securities	5	-	5	5
Total	1,355	14	1,368	1,341

This analysis demonstrates that a 1% increase in interest rates will not affect the interest received on fixed interest assets but will reduce their fair value, and vice versa. Changes in interest rates do not influence the value of cash/cash equivalent balances but they will affect the interest income received on those balances. Changes to both the fair value of assets and the income received from investments impact on the net assets available to pay benefits.

Notes to the Pension Fund (continued)

PEN - 17: Nature and Extent of Risks Arising from Financial Instruments (continued)

Currency risk

Currency risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund is exposed to currency risk on financial instruments that are denominated in any currency other than the functional currency of the fund (GBP). The Fund holds both monetary and non-monetary assets denominated in currencies other than GBP.

The Fund's currency rate risk is routinely monitored by the Fund and its investment advisors in accordance with the Fund's risk management strategy, including monitoring the range of exposure to currency fluctuations.

Currency risk – sensitivity analysis

Following analysis of historical data in consultation with the Fund investment advisors, the Fund considers the likely volatility associated with foreign exchange rate movements to be 10% (as measured by one standard deviation).

A 10% fluctuation in the currency is considered reasonable based on the Fund advisor's analysis of long-term historical movements in the month-end exchange rates over a rolling 36-month period.

This analysis assumes that all other variables, in particular interest rates, remain constant. A 10% strengthening / weakening of the pound against the various currencies in which the Fund holds investments would increase / decrease the net assets available to pay benefits as follows:

Assets exposed to currency risk	Values at 31- March-2023	Potential market movement (+/-)	Value on increase	Value on decrease
	£'000	£'000	£'000	£'000
Overseas unquoted securities	60,233	6,023	66,256	54,210
Overseas unit trusts	121,088	12,109	133,197	108,979
Total	181,321	18,132	199,453	163,189

Assets exposed to interest rate risk	Values at 31- March-2022	Potential market movement (+/-)	Value on increase	Value on decrease
	£'000	£'000	£'000	£'000
Overseas unquoted securities	75,238	7,524	82,762	67,714
Overseas unit trusts	124,311	12,431	136,742	111,880
Total	199,549	19,955	219,504	179,594

PEN - 17: Nature and Extent of Risks Arising from Financial Instruments (continued)**b) Credit risk**

Credit risk represents the risk that the counterparty to a transaction or a financial instrument will fail to discharge an obligation and cause the Fund to incur a financial loss. The market value of investments generally reflects an assessment of credit in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of the Fund's financial assets and liabilities.

The Fund believes it has managed its exposure to credit risk and has had no experience of default or uncollectable deposits over the past five financial years. The Fund's cash holding under its treasury management arrangements at 31 March 2022 was £47.9m (31 March 2022: £104.4m). This was held with the following institutions.

Assets exposed to interest rate risk	Rating	31-March-2022	31-March-2023
		£'000	£'000
Money Market Funds:			
Northern Trust - Liquidity Fund	AAA	19	18
Bank Deposits and Current Account:			
Royal Bank of Scotland	A+	104,394	47,947
Total		104,413	47,965

Liquidity risk

Liquidity risk represents the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund therefore takes steps to ensure it maintains adequate cash resources to meet its commitments. This will particularly be the case for cash from the cash flow matching mandates from the main investment strategy to meet pensioner payroll costs, and cash to meet investment commitments; the Fund has immediate access to its cash holdings.

The Fund defines liquid assets as assets that can be converted to cash within three months. Illiquid assets are those assets that will take longer than three months to convert into cash. As at 31 March 2023 the value of liquid assets was £1,383.0m, which represented 81.57% of total Fund assets (31 March 2022: £1,686.5m, which represented 91.57% of total Fund assets).

The Fund's Investment Management team prepares periodic cash flow forecasts to understand and manage the timing of the Fund's cash flows. The appropriate strategic level of cash balances to be held forms part of the Fund investment strategy.

All financial liabilities at 31 March 2023 are due within one year.

Refinancing risk

The key risk is that the Fund will be obligated to replenish a significant proportion of its financial instruments at a time of unfavourable interest rates. The Fund does not have any financial instruments that have a refinancing risk as part of its investment strategy.

PEN - 18: Funding Arrangements

In line with the Regulations the Fund's actuary undertakes a funding valuation every three years for setting employer contribution rates for the forthcoming triennial period. The last such valuation took place as at 31 March 2022.

The key elements of the funding policy are:

- To ensure the long-term solvency of the Fund, i.e. that sufficient funds are available to meet all pension liabilities as they fall due for payment.
- To ensure that employer contribution rates are as stable as possible.
- To minimise the long-term cost of the scheme by recognising the link between assets and liabilities and adopting an investment strategy that balances risk and return.
- To reflect the different characteristics of employing bodies in determining contribution rates where the administering authority considers it reasonable to do.
- To use reasonable measures to reduce the risk to other employers and ultimately to the council taxpayer from an employer defaulting on its pension obligations.

The aim is to achieve 100% solvency over a period of 17 years and to provide stability in employer contribution rates by spreading any increases in rates over a reasonable period. Solvency is achieved when the funds held, future expected investment returns, and future contributions are sufficient to meet expected future pension benefits payable. When an employer's funding level is less than 10% of the 100% funding target, then a deficit recovery plan will be put in place requiring additional contributions from the employer to meet the shortfall.

At the 2022 actuarial valuation the Fund's assets, which at 31 March 2022 were valued at £1,842m, were sufficient to meet 96% of the liabilities (i.e. the present value of promised retirement benefits) accrued up to that date (82% as at 31 March 2019). The resulting deficit at the 2022 valuation was £79m (£307m as at 31 March 2019).

Changes to contribution rates have been phased in over the three-year period from April 2023 to 31 March 2026 for all scheme employers. Individual employers' rates will vary depending on the demographic and actuarial factors particular to each employer. Full details of the contribution rates payable, as well as the methods and assumptions used, can be found in the 2022 actuarial valuation report and the Funding Strategy Statement on the Fund's website.

The Fund's liabilities were assessed using an accrued benefits method which takes into account pensionable membership up to the valuation date, and makes an allowance for expected future salary growth to retirement or an expected earlier date of leaving pensionable membership

A market-related approach was taken to valuing the liabilities, for consistency with the valuation of the Fund assets at their market value.

Notes to the Pension Fund (continued)

PEN - 18: Funding Arrangements (continued)

Longevity assumptions

The life expectancy assumptions are based on the Fund's VitaCurves with improvements in line with the CMI 2021 model, with a 10% weighting of 2021 (and 2020) data, standard smoothing (Sk7), initial adjustment of 0.25% and a long term rate of 1.50% p.a. Based on these assumptions, the average future life expectancies at age 65 are as follows:

	31-Mar-2019	31-Mar-2022
Retiring today		
Males	21.3	21.2
Females	23.7	24.0
Retiring in 20 years		
Males	22.9	22.7
Females	25.5	25.6

Experience over the period since 31 March 2022

Markets were disrupted by the ongoing war in Ukraine, a short-term change in UK fiscal policy and global inflationary pressures. As a result, asset returns lagged expectation while members received a higher than anticipated benefit increase of 10.1% in April 2023. However, these impacts were more than offset by a material increase in expected future returns due to rising interest rates which had the effect of decreasing the value placed on the Fund's liabilities. Therefore, the funding level increased significantly in the year to 31 March 2023. The next actuarial valuation will be carried out as at 31 March 2025. The Funding Strategy Statement will also be reviewed at that time.

PEN - 19: Actuarial Present Value of Promised Retirement Benefits

In addition to the triennial funding valuation, the Fund's actuary also undertakes a valuation of the pension fund liabilities, on an IAS 19 basis, every year using the same base data as the funding valuation rolled forward to the current financial year, taking account of changes in membership numbers, and updating assumptions to the current year. This valuation is not carried out on the same basis as that used for setting Fund contribution rates and the Fund accounts do not take account of liabilities to pay pensions and other benefits in the future.

To assess the value of the benefits on this basis, the actuary has updated the actuarial assumptions (set out below) from those used for funding purposes (see note 18). The actuary has also valued ill health and death benefits in line with the IAS 19.

Calculated on an IAS 19 basis, the actuarial present value of promised retirement benefits at 31 March 2023 was £ 1,727m (31 March 2022: £2,336m). The fair value of the scheme assets was estimated to be £1,698m (31 March 2022: £1,800m), and the net liability was therefore implied to be £29m (31 March 2022: £536m).

PEN - 19: Actuarial Present Value of Promised Retirement Benefits (continued)

Assumptions used	31-March-2023 %	31-March 2022 %
Pension increase rate	3.00	3.20
Salary increase rate	3.50	3.70
Discount rate	4.75	2.70

Notes to the Pension Fund (continued)

PEN - 23: Related Party Transactions

Lambeth council administers the Lambeth Pension Fund. Consequently, there is a strong relationship between the council and the pension fund.

During the reporting period, the council incurred costs of £1.44m (2021/22 £1.72m) in relation to the administration of the fund and these costs were reimbursed by the Fund. The Council is also the single largest employer of members of the pension fund and contributed £41.9m to the fund in 2022/23 (2021/22: £41.2m). All monies owing to and due from the fund were paid in year.

Governance

There are no elected Members of the Pensions Committee in receipt of pension benefits from the Lambeth Pension Fund; the pensioner representative was in receipt of pension benefits from the Lambeth Pension Fund during the year. In addition, the Pensions Committee employee representative is an active member of the pension fund.

Members of the Pensions Committee are required to declare interests at each meeting.

PEN - 24: Contingent Liabilities and Contractual Commitments

The total investment commitments as at 31 March 2023 are £413.72m and the outstanding undrawn commitments are £139.04m (31 March 2022: total commitment £354.29m and outstanding was £139.41m).

These commitments relate to outstanding call payments due on the Private Equity & Private Debt mandates of the portfolio. The amounts 'called' by these fund managers are irregular in both size and timing over a period of between four and six years from the date of each original commitment.

This page has been intentionally left blank

Executive summary

Like other local authorities both regionally and nationally, the London Borough of Lambeth has been impacted significantly in 2022/23 by the instability in the economy and the consequent ongoing cost of living crisis. Governance arrangements have again been tested but remain resilient.

The council is satisfied that appropriate governance arrangements are in place. We propose over the coming year to take steps to address the matters identified that require improvement and to further enhance our governance arrangements in these challenging times while delivering on our mandatory functions and reaching out to deliver on a refreshed borough plan.

The Chief Executive is clear regarding the need to identify further areas for improvements and ensure that these are implemented at the earliest opportunity. A new target operating model, management structure, and corporate delivery plan as part of the visions for Lambeth 2030 have been developed and is being implemented during 2023/24 supported by a new set of values and behaviours framed within the One Lambeth Programme which is expected to further improve the overall assurance and governance environment

Introduction and Acknowledgement of Responsibility

The London Borough of Lambeth is responsible for ensuring that its business is conducted in accordance with the law and proper standards. It needs to ensure that public money is safeguarded, properly accounted for, and used economically, efficiently, and effectively. To achieve this the Council must ensure that it has a governance framework that supports a culture of transparent decision making. The Accounts and Audit Regulations (2015), as amended by the Accounts and Audit (Amendment) Regulations 2021, require the council to conduct a review, at least once a year, on the effectiveness of its system of internal control and include an Annual Governance Statement reporting on the review with the Statement of Accounts.

The Principles of Good Governance

The CIPFA/SoLACE Delivering Good Governance publication (2016) defines the various principles of good governance in the public sector. The document sets out seven core principles that underpin the governance framework. There is further detail below on how the council is meeting these requirements in practice.

Core Principles of the CIPFA/SoLACE Framework

- a. Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law
- b. Ensuring openness and comprehensive stakeholder engagement
- c. Defining outcomes in terms of sustainable economic, social and environmental benefits
- d. Determining the interventions necessary to optimise the achievement of the intended outcomes
- e. Developing the entity's capacity, including the capability of its leadership and the individuals within
- f. Managing risk and performance through robust internal control and strong public financial management
- g. Implementing good practices in transparency, reporting and audit to deliver effective accountability

Key Elements of the council's Governance Framework

The governance framework at the London Borough of Lambeth comprises the systems and processes, culture, and values which the council has adopted to deliver on the above principles. The council has a separate code of governance, which is consistent with the principles of the CIPFA / SoLACE framework (2016). This is updated each year and evidence actively collated and assessed for compliance. The Code will be updated as necessary in 2023/24 following changes to the senior management structure. Compliance with the revised code will be reported to the Corporate Committee during the year.

The CIPFA Advisory Note 'Understanding the Challenge to Local Authority Governance' (March 2022) restates the importance of increasing awareness and strengthening of governance arrangements following the significant and high-profile failures in some local authorities. These concerns were reaffirmed by the Department for Levelling Up, Housing and Communities (DLUHC) in their 2020 report, 'Addressing cultural and governance failings in local authorities: lessons from recent interventions'.

For good governance to function well, the CIPFA Advisory Note, highlighted the need for organisations to encourage and facilitate a high level of robust internal challenge through strengthening audit committees and internal challenge. In the London Borough of Lambeth, the Corporate Committee exercises these duties.

Further, the CIPFA Financial Management Code 2019 (FM Code) was introduced during 2020-21, with the intention of improving the financial resilience of organisations by embedding enhanced standards of financial management. Although the implementation of the FM Code was mandatory only from 2021-22, the council continues to assess compliance with the Code. The council will be establishing a yearly review of compliance against the FM Code to be included in reporting to the Corporate Committee. Where appropriate, these reviews and audits will be conducted independently.

The governance framework incorporated into this Annual Governance Statement has been in place for the year ended 31 March 2023 and up to the date of the approval for the statement of accounts.

Overview of the council's Governance Framework

Overview and Scrutiny

- Scrutiny is used to hold public-service providers in Lambeth to account and help improve the public services in the area
- Scrutiny committee review council policy and can challenge decisions
- They scrutinise the decisions of cabinet and performance of the council and have a key role in advising on the development of council policy

Council, Cabinet and Leader

- Provide leadership, approve the budget, develop and set policy
- Provide oversight of the council's strategic financial management and performance (role of the Cabinet Member for finance)
- Approve the constitution which sets out how the council operates
- Agree council plan priorities, developed in consultation with residents and stakeholders
- Manage the delivery of agreed council priorities, strategies and policies

Corporate Committee

The council's Audit and Corporate Governance Committee has responsibility for non-executive functions other than planning, licensing, pensions, and standards. It meets approximately five times a year and receives reports on the regulatory framework as follows:

- Annual Governance Statement
- Statement of accounts and external auditor's opinion
- External audit plan
- Internal audit plan
- Internal audit update
- Principal risks
- Counter-fraud; and
- Treasury management (quarterly)

The Committee may also consider additional reports on any of those functions should it consider it necessary to provide the assurance sought. Its terms of reference, structure, composition and work programme have been developed with reference to the CIPFA Position Statement and published guidance Audit Committees – Practical Guidance for Local Authorities and Police (2013).

Decision Making

- All decisions are made in compliance with law and council constitution
- All meetings are held in public
- Reports and papers are published on council website
- Decisions are recorded on the council website

Risk Management

- Risk management strategy and policy set out how risks are identified, assessed and mitigated
- Risk Registers include corporate, strategic and operational risks
- The council has an agreed risk appetite which defines the amount and type of risk the council is willing to accept

Chief Officers Team

The Corporate Director for Finance and Governance is the council's appointed Chief Financial Officer in accordance with section 151 of the Local Government Act 1972. The Director of Legal and Governance is the council's Monitoring Officer. These are statutory posts, responsible for delivering and overseeing the financial management and governance of the council. The Chief Financial Officer and the Monitoring Officer are both members of the Corporate Management Board.

a. **Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law**

The London Borough of Lambeth expects the highest conduct and behaviour from all its Members – to include its co-opted Members and officers. The council's policy and decision-making are managed and controlled within a strong, well-established framework and a major feature of this is the council's written Constitution.

The council's Constitution sets out how the council operates and how decisions are made. This includes detail about committees and their composition, their powers and procedures, financial processes, rules of procedure and legal matters. The council regularly reviews and matches its governance structures and processes to council-wide priorities to ensure the principles of good governance are applied throughout the council. The Constitution outlines the officer and member code of conduct. The council's monitoring officer oversees all member code of conduct issues with the Independent Person where necessary.

All changes to the constitution are prepared by Democratic Services, reviewed by Legal and then submitted to the Constitution Working Group (CWG). The CWG is an informal body made of senior politicians from the Administration and Majority Opposition, and officers from across the council chaired by the Chief Whip. The CWG meet regularly throughout the year to review the constitution and give the council confidence that its constitution remains robust, up to date and compliant with all relevant legal requirements.

[Read the Constitution.](#)

It is a requirement under the Localism Act 2011 that the Council appoints at least one Independent Person to work with the Monitoring Officer on standards matters. The council completed its most recent recruitment exercise and appointed two Independent Persons in 2020/21. Since then, Lambeth's Independent Persons worked closely with the Standards Committee on all aspects of the Committee's work in relation to wider ethical and governance issues affecting the council, providing an independent perspective.

The council has in place a 'Whistleblowing Policy' (Duty to Act) which reflects the legal framework and obligation on the council to enable staff to raise concerns which may involve unlawful conduct, illegality, financial malpractice or dangers to the public, employees or the environment. This procedure sets out the action that individuals should take to report a concern and also the action to take if, in extreme circumstances, a matter is not addressed or if they feel that raising the matter internally could result in evidence of malpractice being concealed.

[Read the Whistleblowing procedure.](#)

(Last updated in January 2023)

a. Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law (continued)

The council has a two-stage process for handling complaints, supported by the Corporate Complaints Policy - The policy sets out guidance on logging, handling and monitoring complaints and for responding to enquiries from the Local Government & social Care Ombudsman (LGSCO), and the Independent Housing Ombudsman (IHO). The aim of the process is to resolve customer complaints, and drive service improvement across the council by highlighting good practice and identifying lessons learnt from complaints. If the customer feels their complaint has not been resolved after the second stage, they are able to escalate their complaint to the Ombudsman for an independent review. Our complaint policy can be found [here](#).

[Read the complaints policy.](#)

In recognition of the importance of improving the customer experience, learning lessons and evaluating performance the CCU improvement plan continued to focus on four key themes; customer transformation, customer standards, training, and improving performance. Customer experience training continued across the council covering key skills to improve customer communication and focus, to ensure we are a listening organisation, able to improve internal process to improve the customer journey. In addition, lunchtime learning sessions have been delivered across the council to improve customer service, complaint handling and investigation, while the monthly Complaint Network provides a focus on performance, current themes and developments and service improvements.

The number of complaints has continued to increase overall which has significantly impacted performance, and while there has been a 10% reduction in the volume of local resolution complaints and 7% reduction in the volume of MEs received during 2022/23, final review complaints have increased by 50%, indicating that there is less customer satisfaction at the initial stage of our complaint process. We are promoting our own arbitration scheme for Housing cases and are also offering compensation that mirrors the levels that could be awarded if escalated to the Independent Housing Ombudsman (IHO).

The council has a clear process for managing Freedom of Information (FOI) and Subject Access Requests (SAR). The aim of the process is to promote transparency across the organisation and deliver an efficient approach to handling requests. As part of our aim to improve transparency, we have developed a new webpage to publish frequently requested FOIs and provide easier access to this information for our customers and continue to develop this page to further improve transparency.

To improve the quality of FOI responses, directors are required to sign-off all responses and challenge is provided by the Corporate Complaints Unit where needed to ensure a high-quality response. Management Board have strategic oversight, and as part of this role receive quarterly performance reports on compliance as part of the corporate performance report, as well as receiving ad hoc updates in response to issues or queries. Our FOI guidance can be found [here](#).

[Read the FOI guidance.](#)

In 2022/23 we received 2,217 FOI requests, which is a decrease from 2021/22 when we received 2,231 and may indicate that the transparency project is effective in reducing volumes. FOI performance 2022/23 was 82% which is beneath our KPI of 90%.

b. Ensuring openness and comprehensive stakeholder engagement

The council supports the principle that people should have the opportunity to voice their opinions on issues that affect them. The views of residents and service users are at the heart of the council's service delivery arrangements and are actively sought by the council as evidenced by the Residents Survey, conducted annually.

Effective partnership governance and stakeholder engagement is critical to achieving the outcomes the council and partners are working towards as described in the Borough Plan. As well as meeting their statutory duties, partnership boards will need to provide effective governance and leadership to the delivery of the Borough Plan.

b. Ensuring openness and comprehensive stakeholder engagement (continued)

In April 2022, Lambeth Council undertook the process of developing the new Borough Plan to establish a new strategic framework for the Council and its partners.

The plan sets out Lambeth's vision for the future and articulates the roadmap for getting there. It is a tool which will support the Council, its partners and residents to collaborate effectively, align our collective energy and resources, and focus on the shared priorities of our residents.

Informed by unprecedented and major global and local events that occurred over the last four-years, during the lifecycle of the previous Borough Plan, a purposeful approach was made to longer term planning – looking ahead to the borough we want to live, work, and visit in 2030.

Shaping Lambeth 2030 with communities and partners was at the centre of the plan. Everyone who lives, visits and works in the borough was invited to share what makes Lambeth unique and why it is important to them, what they would like the future Lambeth to look and feel like and the challenges they are facing now and anticipate on the road to 2030.

[Lambeth 2030](#)

Across August 2022 we engaged with Lambeth Council Staff (200 attendees) through an intensive Borough Plan Design Week and across October – December 2022, the Council facilitated a variety of activities across the borough, in accessible ways and local spaces, at different times of day and with different protected characteristic groups to get a representative voice of Lambeth.

In total we ran:

- Borough-wide workshops x 9 – 150 people
- Focussed discussions x 7 – 80 people
- Partner roundtables x 4 – 50 organisations
- Lambeth 2030 survey x for 6 weeks – over 600 responses
- Market researchers x for 2 weeks

To support this activity we utilised social media, networks, leaflets, posters and worked with local voluntary and community organisations and following workshops, shared summaries with attendees.

Informed by the extensive feedback we collated and building on the results of the Child Friendly Lambeth consultation, and data and learnings from the Citizens' Assembly on the Climate Crisis and the Health and Wellbeing Strategy, in January 2023 we produced 'Lambeth 2030: Our Future, Our Lambeth'.

Lambeth 2030 sets out a borough commitment to work in partnership and to have a continued dialogue with residents, business, partners and local organisations. Openness and engagement are part of our approach to delivering Lambeth 2030. This is also reflected in the establishment of two new strategic partnerships: the Lambeth 2030 Partnership, which will oversee the delivery of our ambitious borough plan; and the Lambeth United Equity and Inclusion Partnership, leading our work to become a borough of equity and justice.

c. Defining outcomes in terms of sustainable economic, social and environmental benefits

This is a significant moment in time for us all. As we continue to adapt to the post-covid landscape, we face the harsh realities of the cost-of-living crisis within the context of sustained uncertainty of the future of public sector finance. We know that the impacts of climate change, London's housing crisis, and the challenges of poor health and wellbeing are deeply impacting our communities and are changing the way we live.

As Lambeth 2030 is an overarching strategic borough-wide plan, it is our opportunity to equip communities and collectively overcome these obstacles with a focus on the distinct impacts being felt by those who live, work and visit the borough.

[Lambeth 2030](#)

Therefore, Lambeth 2030 is a vision for the best borough we can be by 2030. That is a borough with social and climate justice at its heart.

As we look towards the future – one that allows each of us to thrive – we are taking a focussed approach and positive action to build a stronger borough that delivers for everyone and to tackle these challenges head on.

We have identified three ambitions for Lambeth which are intentionally tied together through the Lambeth Golden Thread – Equity and Justice, with a relentless commitment to tackle inequality at the root cause, focusing on what matters most to our residents.

- 1 Making Lambeth Neighbourhoods Fit for the Future
- 2 Making Lambeth One of the Safest Boroughs in London
- 3 Making Lambeth A Place We Can All Call Home

Informed by consultation to define our ambitions, we have shaped our 2030 outcomes through the lens of creating a better borough for everyone and what will offer sustainable economic, social and environmental benefits.

Our Lambeth Outcomes:

A Borough of Equity and Justice

By 2030:

- Lambeth will have lower levels of deprivation, with fewer children growing up in poverty.
- Lambeth will tackle the structural inequalities adversely impacting Black, Asian and Multi-Ethnic residents by being a borough of anti-racism.
- Lambeth will be a borough of progress, working with LGBTQ+ communities and disabled residents to tackle the biggest challenges they face.

Our 2030 Ambition: Making Lambeth Neighbourhoods Fit For The Future

By 2030:

- Lambeth will be a Net Zero Borough.
- Lambeth residents will experience good health and wellbeing, with an improved healthy life expectancy for those with the poorest outcomes.
- Lambeth will be a sustainable and healthy borough, with more accessible and active travel options for everyone

c. Defining outcomes in terms of sustainable economic, social and environmental benefits (continued)

Our 2030 Ambition: Making Lambeth One Of The Safest Boroughs In LondonBy 2030:

- Lambeth will be a safer borough for everyone, with a significant reduction in serious violence against young people.
- Lambeth will be safer for women and girls, and all residents experiencing gender-based violence will be able to access support.
- Lambeth will be a borough of prevention, tackling the root causes of violence to protect our communities

Our 2030 Ambition: Making Lambeth A Place We Can All Call HomeBy 2030:

- Lambeth will be a borough of opportunity, with local people benefitting from jobs in our future growth industries.
- Lambeth will increase the supply of genuinely affordable housing and the quality of existing homes for residents who need them.
- Lambeth will be a borough of sanctuary and an Age and Child Friendly borough, the best place to grow up and age well.

To show how we will deliver against these outcomes, the Council will complete a Corporate Delivery Plan – the Council’s key document that outlines its priorities and objectives for the coming financial year. By doing so, the Corporate Delivery Plan ensures that sustainable progress towards the Borough Plan’s goals is made every year and that the council remains focused on its long-term vision.

Financial management

The Council’s Medium Term Financial Strategy (‘MTFS’) is a four-year plan which forms a core part of the council’s strategic framework and plays a pivotal role in translating the council’s strategic plans and ambitions into action.

The main objectives of our MTFS are:

- Prioritise our resources in-line with the council’s Borough Plan to ensure we achieve our core priorities
- Maintain a balanced budget position, and to always set a MTFS which maintains and strengthens that position
- Provide a robust framework to assist the decision-making process within the council
- Manage the council’s finances with a forward looking four year rolling strategy
- Deliver value for money to our taxpayers
- Exercise probity, prudence and strong financial control
- Manage risk, which includes holding reserves and balances at an appropriate and sustainable level as agreed by our S151 Officer
- Continually review budgets to ensure resources are targeted on our key priorities

The above objectives are at the core of our MTFS and we will ensure the objectives are upheld throughout the duration of the MTFS and beyond. The MTFS will continue to be updated as we gain greater certainty and clarity on the level of funding for future years. Both the Financial Planning processes, budget monitoring and savings delivery are subject to regular reviews by the Internal Audit Team.

Due to the importance of delivering savings and remaining within agreed budgets, savings are monitored on a monthly basis through the savings tracker, budget monitor and regular reports to Management Board, Cabinet Member for Finance, Informal Cabinet and Cabinet.

[Read The Medium Term Financial Strategy](#)

c. Defining outcomes in terms of sustainable economic, social and environmental benefits (continued)

In 2019 CIPFA published the Financial Management Code (FM Code) which provides guidance for good and sustainable financial management in local authorities and will provide assurance that authorities are managing resources effectively. The FM Code requires authorities to demonstrate that the processes they have in place satisfy the principles of good financial management and agreed by Corporate Committee.

The Key Principles of the Financial Management (FM) Code

The underlying principles that inform the FM Code have been designed to assist in determining whether, in applying standards of financial management, a local authority is financially stable. The principles of good financial management as set out by the code are:

- Organisational **leadership** – demonstrating a clear strategic direction based on a vision in which financial management is embedded into organisational culture.
- **Accountability** – based on medium-term financial planning that drives the annual budget process supported by effective risk management, quality supporting data and whole life costs.
- Financial management is undertaken with **transparency** at its core using consistent, meaningful and understandable data, reported frequently with evidence of periodic officer action and elected member decisions.
- Adherence to professional **standards** is promoted by the leadership team and is evidenced.
- Sources of **assurance** are recognised as an effective tool mainstreamed into financial management, including political scrutiny and the results of external audit, internal audit and inspection.
- The long-term sustainability of local services is at the heart of all financial management processes and is evidenced by prudent use of public resources.

Good governance ensures better informed and longer-term decision making and therefore is essential for good financial management. The main headings within this governance statement are aligned with the principles of good financial management, demonstrating how the council complies with the overarching requirements of the Code

[Further information on the CIPFA Financial Management Code](#)

d. Determining the interventions necessary to optimise the achievement of the intended outcomes

The council has in place a robust decision-making process with all reports are subject to corporate clearance (Legal, Finance and Democratic Services) prior to publication in accordance with the published procedures (which form part of the Council Constitution). All reports follow a standard template which identifies the decision or action required, why the report is recommended, alternative options considered and rejected together with a detailed (including consultation carried out) section. The details section includes any pros and cons relevant to the proposal and deals with any supporting information that the decision maker may require in order to make a valid, legal decision.

[Read the Decision Making Guide](#)

The Overview and Scrutiny Committees discharge the Council's statutory scrutiny functions. This includes scrutinising items on the Council's Forward Plan and exercising the power to call-in executive key decisions, agreeing the scrutiny programme, and monitoring performance and budgets. coordination, delivery and ongoing improvement of Lambeth's Scrutiny Function. It will be specifically responsible for overseeing and scrutinising the whole range of the Authority's functions and responsibilities, as well as other public service providers' work and its impact on the local community. The Committee's remit will also extend to all matters which impact on the economic, social and environmental wellbeing of those who live, work, study or use services in the borough.

The Children's Services Scrutiny Sub-Committee is responsible for reviewing the provision, planning and management of children and young people's services, and the Housing Scrutiny Sub-Committee scrutinise private sector housing enforcement and regulation and the work of the Housing Department in supporting the borough's goal to improve housing quality in its social homes and neighbourhoods, and managing the Lambeth Housing Partnership with other Registered Providers. Scrutiny provides the role of the "critical friend" to the decision-makers and assists in policy development, drives improvement in public services and enables the voice of the public to be heard.

Read further information on: [Overview and Scrutiny](#).

d. Determining the interventions necessary to optimise the achievement of the intended outcomes (continued)

The Corporate Committee performs the 'audit committee' role and is responsible for monitoring the effective development and operation of corporate governance across the council. It provides independent assurance of the adequacy of the council's governance arrangements, including the risk management framework and the associated control environment, the authority's financial and non-financial performance.

Each service area within the council is also required to produce an annual business plan that includes what and how services are to be delivered, the cost drivers, future challenges, opportunities and risks and how they will be addressed. The plans detail the budget envelope and projected costs for the service. Budget pressures arising in services are identified through regular monitoring of budgets with action plans to address any significant in year budget variances agreed with the corporate Management Board and subject to monthly progress / status reporting at departmental management teams. Budget and Performance monitoring is reported to Cabinet on a quarterly basis.

e. Developing the entity's capacity, including the capability of its leadership and the individuals within

The council has a performance management framework through the annual appraisal and personal development plan for all employees. This helps to identify learning and development needs and is linked to annual objectives. There are also personal development plans for staff. The Council also provides many learning resources to assist staff including both online and virtual training.

Members are also offered structured training and development opportunities, in line with their own personal development plans. In addition, members of key committees, such as the scrutiny committee and its panels, have received specialised training to equip them to carry out their duties. Support and information are also provided to opposition parties for example when they seek to put forward alternative budgets. The council is also actively engaged with colleagues through the London Member Development Network.

f. Managing risk and performance through robust internal control and strong public financial management

The main purposes of the council's risk management process are:

- Provide Members and Senior Officers an understanding of the key risks facing the Council and its community, and how these risks are being managed
- Ensure that risk management effectively supports the corporate governance of the Council
- Ensure the process for identifying, evaluating, controlling, reviewing, reporting, and communicating risks is in line with best practice, consistently applied and understood.
- Champion risk management, increasing our capacity for risk, whilst maintaining our statutory responsibilities
- Developing and replicating best practice in risk management, providing value for money, and enabling better outcomes

The council has in place a 'Risk Management Strategy and Policy'. The policy is intended to assist officers, at all levels, in applying sound risk management principles and practices across their areas of responsibility recognising that all employees, members and those who act on behalf of the council have a role to play in the effective management of risk. It is also relevant to Members in their capacity as 'decision makers'.

The Risk Management Strategy and Policy is subject to annual review to ensure it continues to reflect good practice and remains aligned with current business processes and practices. Any significant changes are reported to the council's Corporate Committee which has responsibility to provide independent assurance on the adequacy of the risk and internal control framework. The Corporate Committee undertakes the core functions of an audit committee and operates in accordance with CIPFA guidance

[Read the risk Management policy and strategy 2020-23.](#)

Key risks in 2022/23

The top risks are those that have been assessed as "high" and are categorised as either key corporate or strategic risks - corporate risks relate to corporate health, key processes, people and systems and strategic risks relate to strategic priorities and Borough Plan outcomes.

f. **Managing risk and performance through robust internal control and strong public financial management (continued)**Governance themes and challenges in 2022/23

Analysis of the key audit reports issued during 2022/23 has revealed key areas of strength which has led to good governance, risk management and/or control as well as reoccurring themes that have resulted in poorer governance, risk management or control. There were six reports issued this year that offered positive assurance (substantial or reasonable). Analysis of these reports revealed the following key features of good governance, risk management and/or control:

- Strong operational leadership and management.
- Ongoing performance management, monitoring, and reporting
- Effective, efficient controls that are consistently applied.
- Good quality, accurate data leading to sound decisions.
- Positive, regular stakeholder engagement.
- Good risk management.
- Flexible and adaptable approach.

There were several common issues identified within the small number of limited or no assurance opinions provided in important areas of control that impact the whole of the council. These included risk management, contract management, corporate health & safety, and recruitment.

There were some issues of poor compliance, and these have been raised with senior management as part of the assurance reporting framework.

Significant risks and challenges for 2023/24

The council also faces several areas of significant risk that will require management and mitigating actions as appropriate in 2023-24. and include:

- Impact of cost-of-living crisis on our residents and communities and council services 2023-24
- Housing
- National and global economic conditions
- Recruitment and retention of skilled staff

Impact of the Cost-of-Living Crisis on council services 2023-24 – In the Spring 2023 Budget Statement, the Institute for Fiscal Studies (IFS) commented that the overall outlook for public finances still looked difficult. It was expected that inflation would fall below 10% but there continues to be very high food price inflation of nearly 20%, which is of particular concern for low-income families who spend a greater share of their income on food than higher income households. Growth in average total pay was 5.9%, significantly below inflation. Taxes have continued to rise to their highest ever level, and tight spending is pencilled in from 2024. Households will continue to feel pain in the longer term, as even if inflation comes down, prices will remain high. Earnings lag inflation and the freezing of tax and national insurance thresholds will add further pain. This will create further hardship for those most vulnerable.

The government announced at the autumn 2022 statement that measures to support energy costs were to be scaled down with costs capped at £3,000 per annum (from £2,500) in 2023-24. But targeted support, through the Household Support Fund, for low-income households, pensioners and those on disability benefits would be extended for a further year to March 2024.

The council has pledged to continue to tackle the cost-of-living crisis for residents through several programmes in 2023-24, using both government grants and council resources.

Social Housing and temporary accommodation – The cost of living and inflationary pressures over the past 6 months have had significant detrimental impact on the Housing Revenue Account (HRA). The HRA reflects the statutory requirement to account separately for all costs and management of the council's housing stock, offset by tenants' rents and service charges, homeowner service charges and other income.

The government have imposed restrictions on the 2023/24 rent rise for social housing at 7%. This has meant that rent rises have not risen in line with inflation, which will result in a cut to the overall HRA spending plans, given other costs in particular construction related costs have increased significantly. However, the rent increase will still affect many residents where rent rises are not covered by benefits. In addition, there have been sharp increases in fuel costs which have affected both residents paying their bills directly to energy providers, but also to our tenants on communal heating systems. This is likely to lead to a significant increase in rent arrears and will need close monitoring, especially if fuel costs do not begin to fall back down quickly.

We are seeing increasing number of households requiring temporary accommodation in what is an ever-reducing housing supply economy and thus increasing the financial pressure on the council.

f. **Managing risk and performance through robust internal control and strong public financial management (continued)**

National and global economic conditions – In the spring 2023 budget, the Chancellor, Jeremy Hunt, set out his plan for stabilising the UK economy and reducing inflation. The Chancellor's plan was essentially two separate budget planning periods. The first for the next 2 years, 2023-2025 before the general election, which retains the targets set out in the 2021 Spending Review. And the second planning period, 3 years from 2025-2028, where average government spending is planned to rise by 1% p.a. For local government, this suggests a potential cash reduction over the 3-year period 2025-28 as other government departments have already secured rises above the announced 1% (NHS/Defence). In addition, by May 2023, the Bank of England had raised interest rates for the 12th time in a row to 4.5% after UK inflation failed to drop as predicted. So, it's likely that any government budget plans will be changed. A possible general election in autumn 2024 creates further uncertainty around long term economic planning so any prediction post 2025 is highly speculative.

The war in Ukraine and economic conditions in across the world is expecting to continue affecting the economic conditions in the UK.

Recruitment and retention of skilled staff – The Spring 2023 statement made no announcements on public sector pay and the IFS commented that if public sector pay continues to fall in real and relative terms to the private sector there will be a consequence in terms of recruitment, retention, and service delivery. Shortages of workers due to people retiring earlier, will create further competition with private sector companies who have already adapted to this challenge by higher wages and enhanced benefits. The council will have to ensure that retention and recruitment of professional and experienced staff are prioritised.

Key Performance Information:

In 2022/23, budget and performance information was provided to management teams monthly and Management Board and Cabinet every quarter. Performance indicators were broken down as follows:

- **Tier 1: Borough Plan KPIs** – these give an understanding as to the achievement of the five main objectives, or pillars, in the Borough Plan. Whilst some of these measures are not within the council's direct control, they do provide a better understanding of the wider wellbeing of the borough, and as such, the monitoring of their improvement provides a view as to the effectiveness of the work carried out by the council and its partners towards the success of the Borough Plan.
- **Tier 2: Priority Service KPIs** – these give an understanding as to the achievement of the five main objectives, or pillars, of the Borough Plan as well as the sixth 'enabling' pillar. These measures are within the council's direct control.
- **Tier 3: Service Performance Indicators** – these indicators are aligned with service priorities and reflect the performance of specific directorates. Directors are accountable for the management and improvement of these indicators. They are reported to Management Board by exception where there are particular issues or concerns around longer term performance or where immediate action needs

Business Plans – each directorate produces a business plan outlining the actions that they will take to support the Borough Plan. The objectives of the Business Plans are linked to the delivery of the pillars of the Borough Plan and progress is reported quarterly to Management Board.

UK Stewardship code – In February 2023 the council's Pension Fund was approved as a signatory to the Financial Reporting Council (FRC) UK Stewardship Code, continuing the success of being the first local government pension scheme to be approved in 2021. Stewardship can be defined as the responsible allocation, management and oversight of capital to create long-term value for beneficiaries leading to sustainable benefits for the economy, the environment and society. The Code sets high stewardship standards for those investing money on behalf of UK pensioners and those that support them; successful signatories must report annually on a comply or explain basis against twelve Stewardship Principles that cover Purpose and Governance, Investment Approach, Engagement, and Exercising Rights and Responsibilities.

[Read the Fund's latest Stewardship Report](#)

g. **Implementing good practices in transparency, reporting and audit to deliver effective accountability**

The council is committed to openness and transparency and publishing as much data as possible to increase accountability. The council has an Open Data section on the website that enables the public to access the data published under the requirements of the Local Government Transparency Code (2015). This Code sets out the specific data required to be published, and the timescales by which the data must be published. All data required to be published by the Local Government Transparency Code is published.

[Read the open data page.](#)

g. Implementing good practices in transparency, reporting and audit to deliver effective accountability (continued)

The council's Constitution sets out how decisions are made and makes specific reference to decision making by Full Council, by the Executive (Cabinet), by Overview and Scrutiny Committees, other committees and by council bodies acting as tribunals. The council produces a Forward Plan of all Key Decisions which are proposed to be taken within the next four months (updated monthly 28 clear days prior to scheduled Cabinet meetings on a rolling basis). Other decisions are also included where practicable to assist in providing public transparency and confidence in decision making. All agendas and minutes of meetings in respect of council, Cabinet Overview and Scrutiny, Non-Executive Committees and statutory boards are published on the council's website. The Constitution also includes an Officer Scheme of Delegation which sets out the powers and functions that are delegated to named council officers. The Scheme of Delegation is a statutory requirement and is maintained by the Service Director: Legal & Governance. In addition, 'Decision Making - Corporate Standards and Guidance for Officers' is published on the internet and sets out the decision-making process, highlighting those aspects of decision making that are compulsory and must be complied with in all respects.

The 2022-23 Internal Audit plan was drawn up to address the statutory requirements and key risks for the council. It was drafted from a number of sources including the council's latest principal risk report, an Internal Audit risk assessment, audit plans of other local authorities, intelligence from previous audits, and CIPFA guidelines. Audit recommendations made in previous years continued to be followed-up in 2022-23. A reduced rate of implementation has generally been noted. Audit recommendations made in 2022-23 will be scheduled for follow up in 2023-24 to ensure that management action has been implemented within agreed timescales. This will provide senior management and the Corporate Committee with a direction of travel in the internal control environment across the council and will identify areas where further improvement is required.

REVIEW OF EFFECTIVENESS

Lambeth Council has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The system of internal control is a significant part of the framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure and can therefore only provide reasonable and not absolute assurance of effectiveness.

The effectiveness of governance arrangements is monitored and evaluated throughout the year, activity undertaken includes:

- Consideration of governance issues by Directorate Management Teams and Management Board – including risk registers, counter-fraud updates and internal audit reports
- Preparation of a rolling plan of audit coverage provided by the Head of Audit and Counter Fraud which is primarily based on an assessment of the council's risk profile
- The Annual Audit Opinion which is provided by the Head of Internal Audit and Counter Fraud
- Ongoing assessment of internal management processes, including performance management and compliance monitoring
- The work of the council's governance boards and working groups, including Management Board, Directorate and Divisional Management teams and working groups (e.g. GDPR and Cyber security working groups)
- The independent views of regulatory inspection agencies such as Ofsted and the Care Quality Commission
- The views of external auditors, regularly reported to Corporate Committee, including regular progress reports and the Annual Audit Letter
- The work of the Corporate Committee which includes responsibility for monitoring the development and operation of corporate governance in the council

ANNUAL AUDIT OPINION

The Public Sector Internal Audit Standards (PSIAS) require that the Chief Audit Executive (for the Council this is the Assistant Director, Internal Audit and Counter Fraud) provides an annual audit opinion based upon the work performed on the overall adequacy and effectiveness of the Council's framework of governance, risk management and control. Regarding the annual opinion, the Chief Audit Executive is satisfied that sufficient internal audit work has been undertaken to allow an opinion to be given as to the adequacy and effectiveness of governance, risk management and control. The internal audit plan is designed to focus on key risks facing the Council and is approved by Corporate Committee; it has been updated throughout the year to ensure that Internal Audit is focussed on key risks facing the Council and to provide assurance in the areas where it is most needed. Progress and changes are reported to every Corporate Committee. For the year ended 31 March 2023, it is the Chief Audit Executive's opinion that Primarily based on the internal audit activity undertaken during the year, but also considering external assurances and other relevant matters, assurance that the Council has adequate systems of governance, risk management and internal control is considered limited.

2022/23 GOVERNANCE ISSUES

Reference	Governance issue	Source	Overview of issue and actions taken (and planned) to address the issue	Leads	Timescale
1	Homes for Lambeth (HFL) performance: In July 2022, the council commissioned Lord Bob Kerslake to conduct an independent review to seek to accelerate the delivery of affordable housing in the borough. The report concluded that “Our review finds that Lambeth Council has performed relatively well through the planning route, bringing forward over 2,400 affordable homes since 2017 and ranking 13th in the table of London boroughs...by contrast, the performance through Hfl’s [Homes for Lambeth] direct delivery route can only be described as very poor.	Independent review	<p>In December 2022 the council decided to consolidate Homes for Lambeth within the council to provide more council homes while honouring its net zero and sustainability ambitions.</p> <p>The Council set up a Transition Board to oversee the transition programme.</p> <p>A revised scope for the HFL Business Plan for 2023/24, was approved by Cabinet in March 2023, and is limited to:</p> <ul style="list-style-type: none"> i) HFL Build progressing four low value developments, two of which are scheduled for completion during 2023/24 ii) Hfl Living continuing to manage a portfolio of former leasehold homes. 	Regeneration and Housing	December 2024 (when all HFL projects are expected to be complete)
2	Contract Management: Audit activity identified three high risk findings relating to: Policies and guidance, Contract administration and Contract Management (relationship, risk and performance management)	Audit report	<p>All current policies and procedures are being reviewed to ensure they are up-to-date and reflect the current processes.</p> <p>Contract Management (CM) Training and guidance materials are being reviewed and updated and reissued to relevant colleagues.</p> <p>Contract managers will be required to update and record all relevant information on the CM system eCMS. A CM network will be implemented where support, guidance issues and lessons learnt will be shared. Mandatory training for CM’s to be introduced along with annual refresher training to ensure all CMs are adequately trained and aware of the latest procedures and expectations.</p>	Procurement and contract management team	September 2023

2022/23 GOVERNANCE ISSUES

Reference	Governance issue	Source	Overview of issue and actions taken (and planned) to address the issue	Leads	Timescale
3	Safer recruitment: Audit activity identified four high risk findings relating to: Roles and responsibilities, non-compliance with renewals policy, non-compliance with pre-employment check policy and GDPR and document retention compliance. It was recognised that there was a lack of ownership and responsibility for Safer Recruitment activities	Audit report	We are now addressing this by recruiting to a Safer Recruitment Officer role. In addition, a Responsibility Assignment matrix is being developed to confirm which individuals / departments are responsible, accountable, consulted and informed for each stage of the Safer Recruitment process. To address the GDPR and document retention recommendations the recruitment policy is being aligned to current practices regarding document retention and the current retention and deletion processes surrounding statutory documentation are being reviewed and updated to ensure that only the required data is being held on the Council system and records	Director of Human Resources and Organisational Development	September 2023
4	Corporate Health and Safety: Audit activity identified three high risk findings relating to: Health & Safety (H&S) governance, implementation of H&S resources, planning and objective monitoring	Audit report	Corporate H&S committee meetings will be held quarterly to improve accountability and standard terms of reference for directorate level H&S meetings will be updated and communicated to all relevant areas. The job descriptions for the Corporate H&S team are being reviewed to ensure clearer definition and separation of roles and a permanent Corporate H&S Manager / Lead is being developed to attract someone with appropriate qualifications and experience. In addition a council-wide H&S resourcing review will be undertaken to define what resources and competencies are required within Directorates and at the Corporate level to facilitate the effective management of H&S. We will compile quarterly data in relation to progress against H&S performance standards and indicators and review these at the Corporate H&S Committee meetings. Performance information will also be shared with management Board.	Health and Safety leads	June 23-March 24

2022/23 GOVERNANCE ISSUES

Reference	Governance issue	Source	Overview of issue and actions taken (and planned) to address the issue	Leads	Timescale
5	Subject Access Requests (SAR’s performance) The Council was reprimanded by the Information Commissioner’s Office (ICO) in September 2022 as SARs performance remained below the required standard (75% of SAR’s were responded to within statutory deadline).	ICO report	Although the reprimand relates to Subject Access Requests received between August 2020 and August 2021, the ICO also reported that only 75% of SARs were responded to within the statutory deadline (one calendar month) between March and August 2022. The ICO required the Council to provide updates on its progress to improve in December 2022 and March 2023. A plan and updates have been provided to the ICO; in March 2023 SAR performance was reported to be 78%. In May 2023 management reported to Corporate Committee that the ICO was satisfied with the progress made as well as the improvement plan.	SAR’s leads	March 2024

Progress against 2021/22 governance issues

1	Complaint handling failure orders: The council received five complaint handling failure orders from the independent housing ombudsman identifying service failures in respect to repairs, record keeping and complaint handling. There is also a backlog of approximately 1,700 housing complaints.	Independent housing ombudsman report	<p>1 Complaint handling failure orders: The council received five complaint handling failure orders from the independent housing ombudsman identifying service failures in respect to repairs, record keeping and complaint handling. There is also a backlog of approximately 1,700 housing complaints. Independent housing ombudsman report The housing teams have worked hard to reduce the backlog of complaints and ME's which resulted in the run up to elections and transition of new contractors. The housing complaints teams have been restructured and more resources are in place to help manage the continued high volume. The number of overdue complaints has significantly reduced and the Assistant Directors (AD's) have service improvement plans in place to ensure we started the year with a clean slate.</p> <p>The processes for managing complaints and Members Enquires (ME's) have all been reviewed and ADs in housing are now directly responsible and attend a weekly housing improvement group and monthly board to ensure things stay on track.</p> <p>We are seeing an increase in ombudsman cases which is to be expected as residents can go direct to ombudsman now but all cases are responded to on time and works are now being tracked to In line with the Audit report recommendation the BCM Policy Strategy and Governance has been reviewed and rewritten by BCM consultants and is currently awaiting approval/signoff from Management board. Phase 3 of the project which includes updating the BIA together with establishing links with procurement and ICT disaster recovery has been scoped and is in progress with a scheduled completion of December 2023</p>	Corporate Complaint Unit	March 2023
2	Business Continuity Management (BCM): audit activity identified three high risk findings relating to BCM Programme Governance, Business Impact Analysis and Integration of wider business processes.	Audit report		BCM Team / Directors network	December 2022

Progress against 2021/22 governance issues

Reference	Governance issue	Source	Overview of issue and actions taken (and planned) to address the issue	Leads	Timescale
3	ICT Risk Management – Cyber security training: audit activity identified a high risk finding in relation to Cyber security training – only 64% of employees had completed the training during 2021/22 which results in significant gaps with cyber security awareness and compliance.	Audit report	<p>Cyber Security training was made mandatory for 2022/23. There are a number of activities around all mandatory training and Organisational Development strategy currently in train to ensure better completion and smoother system process. Mandatory training is not the only awareness raising the Cyber Programme delivered during the year and central to the current delivery was the 2022/23 communications plan.</p> <p>A successful Council-wide cyber awareness week was delivered during 2022/23 where nine sessions were delivered by in-house teams and external partners. Over 300 staff attended live events and the Programme team received excellent feedback on all the sessions provided. Highlights included Hackney's Strategic Director walking through the impact of their attack on service delivery, and a session delivered by one of our security partners, NCC, on "is my Alexa listening to me?". We also launched a new internal website so staff can access important security resources and watch the sessions back at their own convenience. A new tagline and logo SEE, Stop Evaluate Escalate, was introduced during the year and is used for all cyber communications to make our content memorable and recognisable.</p>	Directors network / Heads of Service	December 2022

4	Use of Waivers The council needs to reduce its use of waivers of the standing orders and increase its use of competitive tendering.	Audit report	<p>Training has and will continue to be provided to individual officers / departments especially those who have previously relied on Waivers to Extend / Vary contracts to;</p> <p>a) improve the interpretation of the council's Contract Standing Orders relating to Waivers where compliant alternatives are available in current primary procurement legislation for extending and varying contracts where there is a true need to do so.</p> <p>b) provide support to mitigate the reliance on Waivers whereby better forward planning is required utilising the council's Procurement Plan will result in more procurement opportunities taking place.</p> <p>c) utilise the category management function that delivers a service to departments at an earlier stage in the procurement cycle so that Waivers are no longer a simple choice for individuals to make where clear advice and support is before time limitation becomes the excuse for a Waiver rather than a procurement opportunity.</p> <p>d) improving the understanding that Waivers can lock out local suppliers from procurement opportunities and that Waivers have no financial or commercial benchmark to test Value for Money.</p> <p>e) take the opportunity to revise the council's Contract Standing Orders that restrict the application of Waivers.</p> <p>Demonstrating value for money and stewardship over public funds is a key priority for the Council. Officers will ensure they competitively procure and reduce the use of waivers.</p>	Directors Network	September 2022

Signed on behalf of Lambeth Council:
Leader of Lambeth Council
Claire Holland

Date: 2nd April 2024

Chief Executive- Lambeth Council
Bayo Dosunmu

Date: 2nd April 2024

For the purposes of compiling the Statement of Accounts the following definitions have been adopted:

ACCRUALS

The accruals concept means that transactions within the Comprehensive Income & Expenditure Statement are recognised as they are earned or incurred and not as money is received or paid. For example, if an invoice relating to March 2023 is expected to arrive in April 2023, it will be accounted for in the 2022/23 accounts (the financial year it relates to), not the 2023/24 accounts (the financial year it arrives in.)

BALANCE SHEET

This statement is fundamental to the understanding of an authority's financial position at year end. It shows:

- the balances and reserves at an authority's disposal
- long-term indebtedness (which is over one year)
- the long-term and net current assets employed in its operations
- summarised information on the long-term assets (items that are held for more than one year) by category

CAPITAL EXPENDITURE

Expenditure on the purchase, construction improvement of significant assets including land, buildings, equipment, or even investments which will be of use or benefit in providing services for more than one financial year. Expenditure can only be treated as "Capital" if it meets the statutory definitions and is in accordance with "Proper Accounting Practices".

COLLECTION FUND

A statutory fund used to record the billing and collection of council tax and non-domestic rates. Though it is independent of the General Fund, payments are made from it to support the General Fund services of the billing and precepting authorities (in our case, the London Borough of Lambeth and the Greater London Authority respectively) and to the national business rate pool.

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

A statement that reports the net cost for the year of all the functions for which the authority is responsible and demonstrates how that cost has been financed from general government grants and income from taxpayers. The most obvious difference from the Income and Expenditure Statement (which, under IFRS, it replaces) is that it now includes the Statement of Total Recognised Gains and Losses (STRGL).

CONDITION

With reference to grants, a condition typically means that the grant awarding body may ask for it back if it is not used for a stated purpose. This is not the same as a specific grant, which is given for a specific purpose but which may legally be spent on something else if the recipient sees fit.

Grants may either be "with conditions" or "without conditions" – the nearest equivalent terms previously used were "ring fenced" and "non-ring fenced."

CONTINGENT ASSET AND LIABILITY

A contingency is a condition which exists at the balance sheet date, the outcome of which depends on one or more uncertain future events and which cannot, therefore, be reliably or accurately estimated. Contingencies in the council's favour are called contingent assets; contingencies which, if realised, would incur a cost to the council are called contingent liabilities.

DEPRECIATION

The measure of wearing out, consuming, or other reduction in the useful economic life of a fixed asset, whether arising from use, passing of time or obsolescence. It means that, rather than the whole cost of an asset being charged to revenue in the year in which it is acquired, the cost is spread out over the life of the asset.

FAIR VALUE

The price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

GENERAL FUND (GF)

The account that summarises the revenue cost of providing services that are met by the council's demand on the collection fund, specific government grants and other income.

GOING CONCERN

The concept that the authority will remain in operational existence for the foreseeable future, in particular that the revenue accounts and balance sheet assume no intention to curtail significantly the scale of operations.

HOUSING REVENUE ACCOUNT (HRA)

A statutory account that contains all expenditure and income to on the provision of council housing for rent. The HRA is ring-fenced account outside the General Fund. Local authorities are not allowed to make up deficit on the HRA from its own resources.

MATCHING

The matching concept says that expenditure and income transactions, including accruals, are matched with one another so far as their relationship can be established, or justifiably assumed, and dealt with in the period to which they relate.

MINIMUM REVENUE PROVISION (MRP)

The minimum revenue provision (MRP) is the minimum amount that must be charged to an authority's revenue account each year and set aside as a provision for debt repayment or other credit liabilities.

MOVEMENT IN RESERVES STATEMENT (MiRS)

This replaces the Statement of Movement on the General Fund Balance (SMGFB), reconciling the Comprehensive Income and Expenditure Statement for the year with the authority's budget requirement, which is governed by statute and differs in certain key respects from accounting conventions.

PROVISION

Amounts set aside for any liability or loss that is likely to be incurred, but where the exact amount and date is uncertain.

PRIVATE FINANCE INITIATIVE (PFI)

PFI offers a form of Public-Private Partnership in which local authorities do not buy assets but rather pay for the use of assets held by the private sector.

PRECEPT

This is the method by which a precepting authority (Greater London Authority in London) obtains income from the billing authority to cover its net expenditure. This is calculated after deducting its own Revenue Support Grant. The precept levied by the precepting authority is incorporated within the Council Tax charge. The Council pays the amount demanded over an agreed time scale.

REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE (REFCUS)

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation or enhancement of Council Owned assets.

RESERVES

Funds set aside to meet future expenditure which falls outside the definition of provisions. Reserves can be for general contingencies and to provide working balances or earmarked for specific future expenditure.

Note that certain reserves are statutory in nature – for example, the council is obliged to hold a revaluation reserve and its use is closely prescribed under the IFRS as interpreted for use in local government. The council has no discretion in the existence or use of these reserves.

STATEMENT OF MOVEMENT ON THE HRA BALANCE

Similar to the General Fund's Movement in Reserves statement, this reconciles the HRA Income and Expenditure account for the year with the surplus or deficit for the year on the HRA Balance, calculated in accordance with the requirements of the Local Government and Housing Act 1989.

STATUTORY PROVISION FOR THE FINANCING OF CAPITAL INVESTMENT

Formerly known as the Minimum Revenue Provision (MRP), this is the minimum amount that must be charged to a local authority's revenue account each year and set aside to provide for debt repayment or other credit liabilities.

SUBSTANCE OVER FORM

The concept of substance over form requires that transactions and other events are accounted for and represented in financial statements with regard to their economic substance and financial reality rather than just their legal form.

ABBREVIATIONS USED IN THE ACCOUNTS:

BRS – Business Rate Supplement

CIPFA – Chartered Institute of Public Finance and Accountancy

CIES – Comprehensive Income and Expenditure Statement

CPI – Consumer Price Index

DSG – Dedicated Schools Grant

EIP – Equal Interest and Principal

EIR – Effective Interest Rate

FRS – Financial Reporting Standard

HRA – Housing Revenue Account

IAS – International Accounting Standards

IFRS – International Financial Reporting Standards

MIRS – Movement in Reserves Statement

MRR – Major Repairs Reserve

NNDR – National Non-Domestic Rates

PFI – Private Finance Initiative

PPE – Property, Plant and Equipment

PWLB – Public Works Loan Board

REFCUS – Revenue Expenditure Funded From Capital Under Statute

RICS – Royal Institution of Chartered Surveyors

RPI – Retail Price Index

RSG – Revenue Support Grant

RTB – Right to Buy
