Introduction

1. This is a list of Tree Preservation Orders (TPOs) in Lambeth Council's area, listed alphabetically by road. "Address" is road name, followed by house number / or description of the site, "TPO No." is the Lambeth Tree Preservation Order reference number, "Tree No." is taken from the TPO documentation and comprises a number prefixed by a letter T, G, A or W. "T" denotes an individual Tree, "G" denotes a Group of trees, "A" denotes an Area of trees; and "W" denotes Woodland. "Species" is species of the tree / trees protected.
2. If a TPO was not confirmed, was revoked, no longer exists, was added to this schedule in error, or was varied (resulting in the removal of some trees), the entry relating to any de-designated tree is ~~struck through~~ in the schedule. See separate [list](#) on next page explaining these on a case-by-case basis. Please note: these trees, although no longer subject to a TPO, may be protected by conservation area designation.
3. Where addresses change or sites are redeveloped, the TPO may be entered twice – under its original address and under the current site address.
4. For completeness, as well as using this schedule, it is recommended that an address search is also undertaken using the Council's [planning database](#). TPO's should come up in the 'constraint' tab in the property search results.
5. If you require clarification, or to request a copy of any Tree Preservation Order please e-mail planningconservation@lambeth.gov.uk

Trees in Conservation Areas

6. This schedule does not identify trees in conservation areas which are protected under separate legislation. To check if a tree is in a conservation area, please do a property search on the Council's [planning database](#). If relevant, the conservation area name will come up in the 'constraint' tab in the property search results. It is advisable to then double check the tree location on the relevant [boundary map for the conservation area](#)
