

Initial Lead Commissioner work plan

This list is not exhaustive and is subject to change but should give applicants an idea of what this role will lead on over 26/27.

Deliverables	Commissioning support/leadership required
Individual placement support (IPS) procurement	Lead on options appraisal and potential tendering in conjunction with connect to work/other IPS programmes & employability programmes across the Council and NHS.
Chemsex support service procurement	Review final needs assessment (NA) documents. In partnership with Southwark, Lewisham and London stakeholders, and with findings from NA, undertake options appraisal for 27/28 and potentially tender for a new service.
Integrated treatment consortium (ITC)	Review options for Section 75 agreement and contract variation to include additional grant funding. Look at potential co-commissioning opportunities with mental health commissioners and stakeholders.
Young people's service	Undertake with internal colleagues an options appraisal and potential tendering for a new service.
Rough sleeping procurement	Undertake an options appraisal for 27/28 and potential tendering for a new service
Inpatient detox and residential rehab development strategy	Lead a review of IPD and RR service delivery, examining commissioning arrangements, funding mechanisms, referral pathways, and aftercare provision. Other colleagues will support on this.

Development of commissioning strategy for substance services from prevention to treatment	Review findings of Lambeth Substance Misuse Needs assessment and Chemsex needs Assessment to inform a revised Commissioning Strategy. This should also include information from the local plan and three year submission to OHID.
