

LAMBETH EDUCATION STATISTICS

2025-26

INTRODUCTION

This is the 28th edition of the Lambeth "Education Statistics", providing statistical data on the Education Service within the borough.

Everyone now realises how important it is to measure performance by objective means. Statistical measurements can never tell us everything about the effectiveness of a service. However, they can help us to judge progress, to question our use of resources and to compare what we are doing with the achievement of others in our quest for constant improvement. Better statistics lead to better performance management. It is at the heart of what local authorities can do to support educational achievement.

In Lambeth, we are committed to making ourselves a questioning and a learning local authority. We hope this document will enable those in schools and other services to make better judgements about their own performance and to set targets for improvement. We intend that this data will also inform every aspect of our work and the decisions that the Council makes.

This data will help the service to manage performance better and to make best use of resources in addressing issues of pupil achievement.

1939	391	2021	318
1951	347	2031	335
1961	342	2041	346
1971	308		

Sources: 1901 to 2021 data is from the ONS Census Collections; 2031 and 2041 projections are taken from the 2021-based Greater London Authority housing-led population projections (projections produced on 25th January 2023)

The predicted population growth in Lambeth has slowed in recent years, however an increase is still expected of 28,000 people when comparing the 2021 ONS census statistics to the the projected 2041 GLA figure.

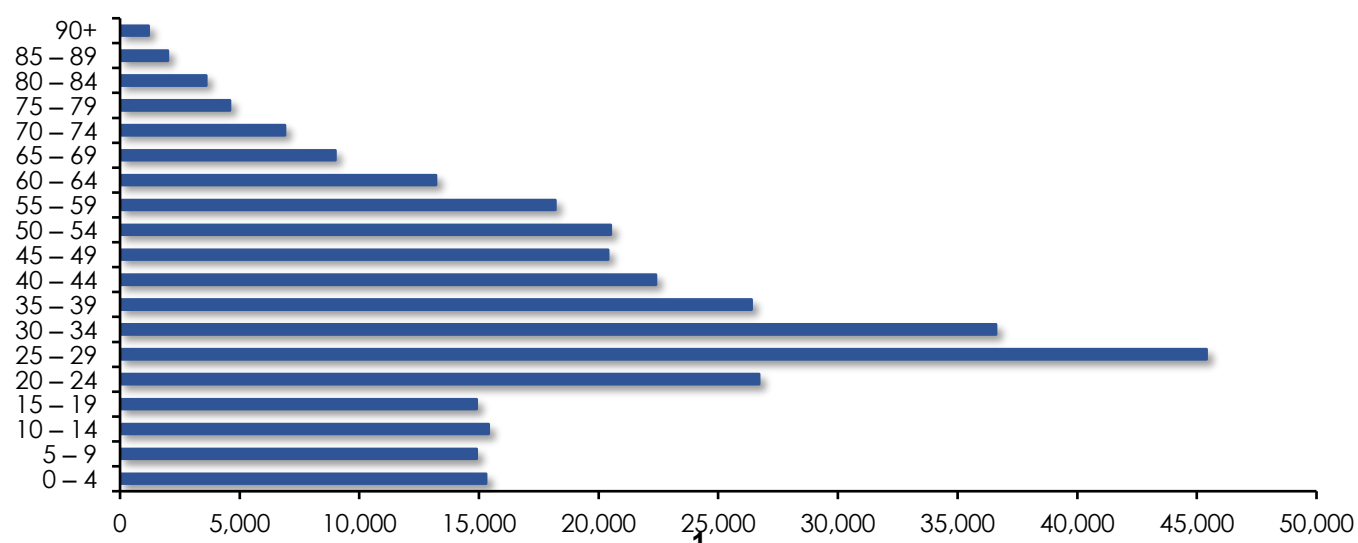

The GLA have various models they use to project population figures. For most purposes they recommend using housing-led projections, which reconcile future population growth with available housing supply.

Age Structure - 2021 ONS Census

As the graph illustrates, Lambeth has a much higher proportion of people in the 25-34 age categories than the London and England equivalents. A quarter of the Lambeth population are in those age groups. The proportion of children under the age of 15 is below the London and national figures, with those in the 65 and over category forming a much lower proportion in Lambeth when compared to England overall.

SCHOOL BUDGET SHARE

Primary Schools Budget Share, 2026-27

The following information must be taken into account when interpreting this data:

-Funding is dependent on a range of factors, such as the number of pupils on roll, the proportion of the school roll who are classified with SEN (special educational need) or in receipt of Free School Meals, and the prior attainment profile of a school's pupils.

School	2026/27		
	Funded Roll	Total Budget	Budget per Pupil
Allen Edwards	367	£2,895,758	£7,890
Archbishop Sumner CofE	240	£1,840,272	£7,668

Source: DfE pupil attendance in schools statistical release

Overall absence includes authorised and unauthorised due to reasons such as: sickness, religious observance, work experience, fixed exclusion, authorised annual holidays or other good reason e.g family bereavement.

Figures here relate to the attendance records for day pupils of compulsory school age.

Persistent absence is defined in terms of those pupils missing 10% or more of their own half- day school sessions.

Sources: DfE pupil attendance in schools statistical releases

Due to Covid there was no attendance data for 2019-20. Data has been collected from the academic year 2020-21 onwards. However, 2020-21 is not comparable to previous years as for much of the spring term 2021 in particular, the majority of pupils were not allowed to attend school. In addition to this, a separate code was available to record absences due to Covid and these were not included in the overall absence figures. For 2020-21 primary school Covid absences amounted to 19.5% in Lambeth and 18.7% nationally.

Source: DfE Schools Census & Research and Statistics Unit Pupil Survey

Figures will not equate to 100% due to the exclusion of pupils for whom EAL stage is not known. Year on year comparisons should also be treated with caution as some schools do not submit any EAL information for their pupils. This issue mostly impacts on the secondary figures.

In 2017 the Department for Education (DfE) adopted a national five stage EAL English proficiency scale as part of the School Census. These five stages are: stage A (new to English); stage B (early acquisition); stage C (developing competence); stage D (competent); stage E (fluent). Pupils at stages A-C are deemed 'Not Fluent' in English, with those at stages D-E being 'competent/fluent'.

NATIONAL CURRICULUM TERMS AND DEFINITIONS

1. The National Curriculum

Pupils aged 5 - 16 in state schools must be taught the National Curriculum. This is divided into four "key stages", which depend on children's ages.

Year Group	Foundation	1	2	3	4	5	6	10	11
Age of pupils at end of year	5	6	7	8	9	10	11	15	16
KEY STAGE	EYFS	KEY STAGE 1 & Y1 PHONICS		KEY STAGE 2				KEY STAGE 4 (GCSE)	

EYFS = Early Years Foundation Stage

Levels of Achievement

In the Early Years Foundation Stage (EYFS) the DfE classifies a good level of development as those pupils at or exceeding all Prime Learning Goals and Literacy and Maths (12 Goals in total), with the other key indicator being those pupils at or above all 17 Learning Goals. The EYFS was totally changed in 2021 so in this edition comparison to previous years' data is not possible.

In the Year 1 Phonics screening check, the pass threshold (referred to as 'Working At' the level of the ckeck) is 32, which means children had to read at least 32 words out of 40 correctly.

As of 2024 KS1 assessments ceased to be a statutory requirement and are not reported. If you require historical KS1 data please refer to old versions of this document.

KS2 results are reported using scaled scores. Scaled scores are based on the total number of marks a pupil receives in a test or teacher assessment i.e. their 'raw' score, and this score is then translated into a scaled score using a conversion table. A scaled score of 100 will always represent the 'expected standard'. Scaled scores enable comparison over time, as they represent the same level of attainment for a pupil each year. Therefore, a pupil who scores 103, for example, in 2016 will have demonstrated the same attainment as a pupil who scores 103 in 2017.

2. Social Factors Influencing Performance

Research conducted over many years has shown that a pupil's background and circumstances can have an effect on performance. The tables and graphs on the following pages show the performance of pupils in Lambeth schools for each of the key stages. Some of the factors that Lambeth considers when looking at performance include:

Gender

Girls tend to do better than boys in all the key stages. This is especially noticeable in English.

Free School Meals

Previous research has shown a link between social deprivation and performance. Lambeth, in common with many other LAs, uses eligibility for free school meals as a proxy indicator for deprivation.

Fluency in English

Lambeth uses a national scale to describe the fluency levels of pupils whose first language is not English. Stage A are classified as 'New to English' and Stages A-C are classified as 'Not Fluent'. Those classified as Stage D are 'Competent', with Stage E pupils deemed 'Fully Fluent'.

Ethnicity

Both National and Lambeth research has shown differences in educational achievement when ethnic background is examined. Lambeth collects ethnic background information using 21 categories, which best cover the diverse background of the borough.

Note of Caution

The tables on the following pages show the number of pupils in each category. Care should be taken when interpreting categories where the numbers are small, as the results can be distorted dramatically by the effects of very few pupils.

COVID-19 and the impact upon performance data

Following the COVID-19 pandemic, most exams, tests and assessments resumed in academic year 2021/22.

Pupils included in the 2021/22 KS2 and KS4 school performance data may have experienced varying levels of disruption to their schooling due to the pandemic.

We do not recommend making direct comparisons with data from previous years or between schools or colleges.

Primary data (EYFS, Phonics, and KS2)

No school-level primary test or assessment data was available for 2020 and 2021.

Secondary data (KS4 and KS5 Post-16)

At secondary level, only local authority and national data was published for 2020 and 2021. School-level GCSE and Post-16 performance data was either not available for 2020 and 2021, or has not been included here due to the fact no formal examinations were undertaken by students (see below).

2020 GCSE results were based on a teacher assessment grade or calculated grade, whichever is higher. 2021 data is based on teacher assessed grades only.

2020 post-16 (level 3) results were moderated teacher-assessed grades, with 2021 data being teacher-assessed only.

Sources: Research and Statistics Unit EYFS Analyses & DfE Statistical First Releases

The EYFSP is a teacher assessment of reception age children in 7 Learning Goals, split into three Prime Goals (Communication and Language, Physical Development, and Personal Social and Emotional Development) and four Specific Learning Goals (Literacy, Mathematics, Understanding of the World, and Expressive Arts and Design).

The 7 Learning Goals are further broken down into different aspects. It is these aspects that form the 17 early learning goals that are reported in the EYFSP.

A pupil is scored with 1 - Emerging, 2 - Expected, or 3 - Exceeding. A 2 or 3 is required to achieve the early learning goal.

The measures reported here are:

- Percentage of pupils with a Good Level of Development (GLD). These are pupils expected or exceeding all Prime Learning Goals and Literacy and Mathematics.
- The average number of ELGs for which children are at the expected level.
- Percentage expected or exceeding all the 17 Learning Goals.

PUPIL ACHIEVEMENT - MULTIPLICATION TABLES CHECK

Multiplication Tables Check (MTC) Results by Inner London Borough, 2022-2025

Average Attainment Score

	Average Score			
	2022	2023	2024	2025
Camden	21.2	21.4	21.9	22.3
Hackney	19.9	20.6	21.1	21.2
Hammersmith & Fulham	22.0	21.4	22.0	22.2
Haringey	20.5	20.7	21.0	21.1
Islington	20.3	20.0	21.2	21.2
Kensington & Chelsea	21.0	20.4	21.4	21.0
Lambeth	20.1	20.4	20.6	20.7
Lewisham	20.0	20.3	20.9	21.8
Newham	21.4	21.4	21.7	22.4
Southwark	21.3	20.7	21.6	21.5
Tower Hamlets	21.0	21.3	21.7	22.0
Wandsworth	20.7	21.4	22.1	21.9
Westminster	21.7	21.2	21.3	21.3
Inner London	20.8	20.9	21.4	21.7
National	19.8	20.2	20.6	21.0

The DfE calculate the average attainment score of all pupils who took the check. The multiplication tables check is scored out of 25 (full marks), therefore the potential range of the average score is 0 to 25.

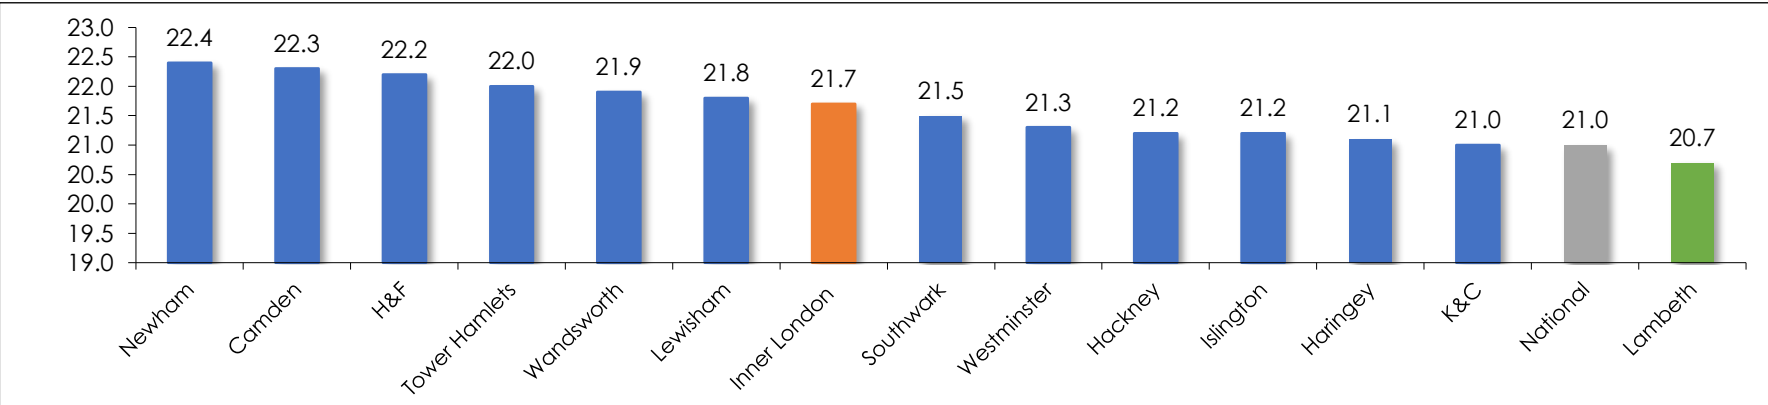

Percentage of Pupils Achieving Full Marks (25 of 25)

n/a = not available

SUPP = information has been suppressed to protect privacy, because the underlying numbers are too small (five or fewer).

Disadvantaged pupils refers to those who were eligible for Pupil Premium funding, defined as being FSM eligible at any time in the previous six years, or have been looked after continuously for more than six months, and children of service personnel.

*Expected standard (scaled score of 100 or more) in reading, writing and maths combined

**Higher standard (scaled score of 110 or more) in reading, writing and maths combined

Scaled scores. 100 represents the expected standard, and 110 represents the high standard. A pupil's scaled score is based on their raw score. The raw score is the total number of marks a pupil scores in a test, based on the number of questions they answered correctly. Scaled scores enable comparison over time, as they represent the same level of attainment for a pupil each year i.e. a pupil who scores 103 one year will have demonstrated the same attainment as a pupil who scores 103 in a different year. As tests and teacher assessment (TA) are different forms of assessment, they do not report using the same scale. As a result, there are no scaled score equivalents for teacher assessments

Pupils are 'meeting the expected standard' if they achieve a scaled score of 100 or more in their reading and maths tests, and their teacher assesses them as 'working at the expected standard' or better in writing.

Pupils are 'achieving at a higher standard' if they achieve a scaled score of 110 or more in their reading and maths tests, and their teacher assesses them as 'working at a greater depth within the expected standard' in writing and GPS.

R, W & M combined - pupils achieving the threshold in all three subjects.

GPS - grammar, punctuation and spelling

Pupils are 'meeting the expected standard' if they achieve a scaled score of 100 or more in their reading and maths tests, and their teacher assesses them as 'working at the expected standard' or better in writing.

Pupils are 'achieving at a higher standard' if they achieve a scaled score of 110 or more in their reading and maths tests, and their teacher assesses them as 'working at a greater depth within the expected standard' in writing and GPS.

R, W & M combined - pupils achieving the threshold in all three subjects.

GPS - grammar, punctuation and spelling

Disadvantaged pupils. Pupils are defined as disadvantaged if they are known to have been eligible for free school meals at any time during the last six years or are 'looked after' (in the care of a local authority for a day or more, or have been adopted from care). School 'disadvantaged' pupil results are compared to the national 'non-disadvantaged' (or 'Other') cohort. The reason being it provides aspiration/challenge when evaluating outcomes for that group.

SUPP = information has been suppressed to protect privacy, because the underlying numbers are too small.

n/a = not available or applicable

SUPP = information has been suppressed because the underlying numbers are too small.

LOWCOV = shown where schools have less than 50% of pupils included in the calculation of the measure.

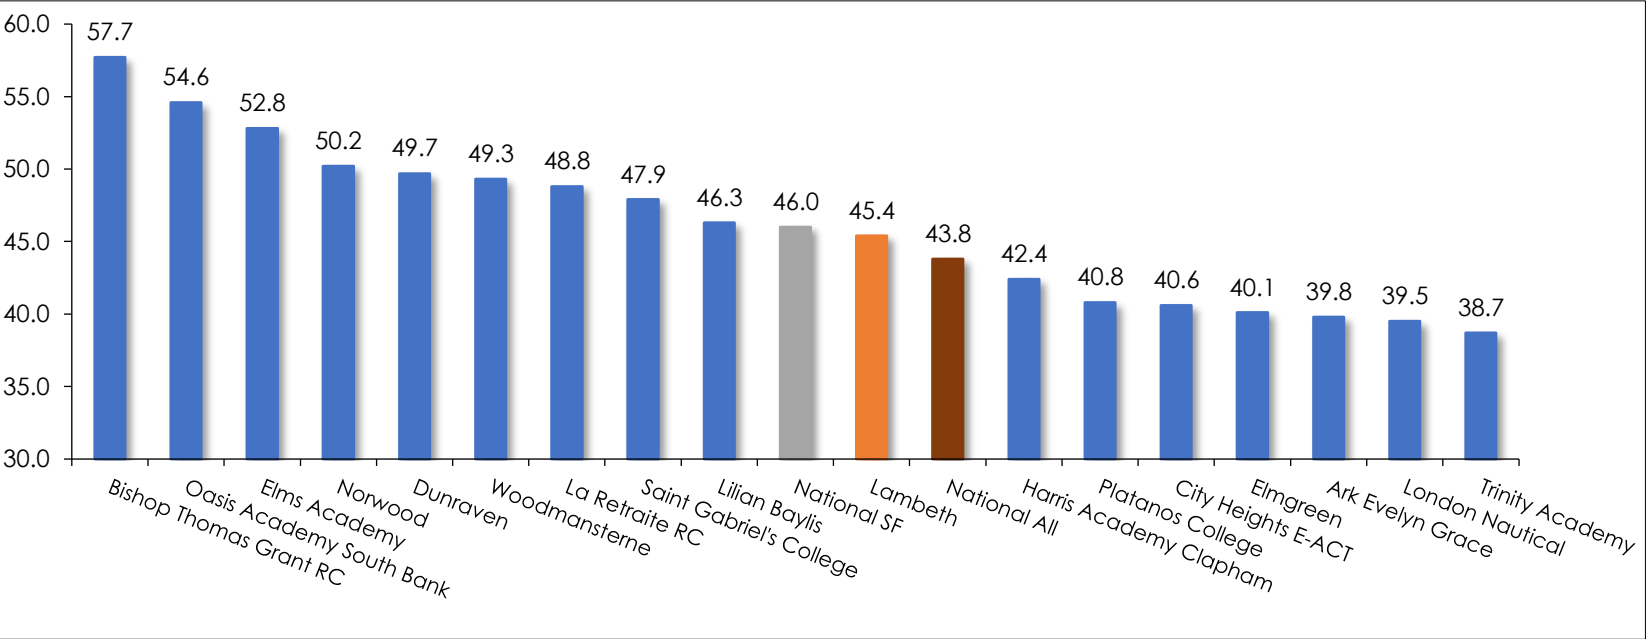

Grade 5 in the new grading system is a similar level of achievement to a high grade C or low grade B in the old system (referred to as 'strong' achievement). Grade 4 or above is referred to as 'standard' achievement.

*Progress 8 is not the most appropriate performance measure for UTCs and some FE colleges.

Attainment 8. This score is calculated using a pupil's best eight GCSE results, then averaging the results for the overall school figure. If the Attainment 8 score is divided by 10 this gives an average grade. Therefore, an Attainment 8 score of 50 is equivalent to an average grade of 4 across all eight subjects.

Progress 8. This score shows how much progress pupils at this school made between the end of key stage 2 and the end of key stage 4, compared to pupils across England who got similar results at the end of key stage 2. This is based on results in up to 8 qualifications, which include English and maths. When interpreting scores it is important to note that a score of +1.00 is equivalent to a pupil, institution or socio-economic group achieving on average one grade higher than pupils with a similar KS2 starting point nationally. Equally, -1.00 is one grade lower, +0.20 one fifth grade higher, -0.53 about a half grade lower and so on.

Sources: DfE Statistical First Releases

The figures for gender, ethnicity, FSM, first language and SEN relate to state-funded schools only as this is due to the way the DfE publish the data.

Grade 5 in the new grading system is a similar level of achievement to a high grade C or low grade B in the old system (referred to as 'strong' achievement). Grade 4 or above is referred to as 'standard' achievement.

Ebacc threshold - as of 2018 the DfE now use average points score as the headline Ebacc measure. Ebacc APS measures pupils' point scores across the five pillars of the Ebacc (English, maths, sciences, humanities and languages). This ensures the attainment of all pupils is recognised, not just those at particular grade boundaries, encouraging schools to enter pupils of all abilities.

APS = Average Points Score. The DfE scoring method includes all types of Level 3 qualification. Each one is allocated an 'equivalence' which relates to the size and challenge a qualification poses compared to an A Level. The UCAS points tariff still exists for entry into the HE sector.

Qualification types explained:

A levels are available in a wide range of subjects, including English, maths, sciences, languages and humanities. The primary purpose of A levels is to prepare students for degree-level study at university.

Academic qualifications include A/AS Levels and Baccalaureates, Extended Project and Interdisciplinary Project qualifications, and Core Maths qualifications.

Applied generals are qualifications that provide broad study of a vocational area. They are designed to lead to higher education and they include areas such as performing arts, business and health and social care.

Technical levels are level 3 qualifications for students wishing to develop the specialist skills and knowledge for a technical occupation or industry. They can lead to occupations in engineering, IT, accounting or professional cookery for example.

Students included were entered for a GCE or VCE A level or other Level 3 qualification equivalent in size to an A-level.

Croydon, Merton, Kingston and Richmond are included in these tables for information, as collectively they educate a large proportion of Lambeth residents post-16.

Academic qualifications include A/AS Levels and the following:

Baccalaureates – broad programmes that combine academic subjects with components designed to develop skills.

Extended Project Qualification (EPQ) and Interdisciplinary Project – these are taken alongside A levels and involve doing independent study.

Core Maths – a group of Level 3 maths qualifications, usually taken alongside A levels or other qualifications, to help develop mathematical skills and thinking after GCSEs.

Sources: DfE Statistical First Releases

Students included were entered for a GCE or VCE A level or other Level 3 qualification equivalent in size to an A-level.

Croydon, Merton, Kingston and Richmond are included in these tables for information, as collectively they educate a large proportion of Lambeth residents post-16.

PUPIL ACHIEVEMENT - POST-16

LA to National Gap	0.3%	-1.8%	-0.6%	-0.2%	-0.4%	1.7%

Proportion of people studying in a local authority at age 16 that reach the level 3 threshold by age 19

	Young people aged 19 at the end of:					
	2018/19	2019/20	2020/21	2021/22	2022/23	2023/24
Lambeth	60.4%	58.9%	61.7%	63.8%	61.2%	62.2%
London	66.0%	67.0%	69.8%	70.8%	70.1%	68.9%
National	57.2%	57.4%	59.5%	60.1%	59.2%	57.6%
LA to London Gap	-5.6%	-8.1%	-8.1%	-6.9%	-8.9%	-6.8%
LA to National Gap	3.2%	1.5%	2.3%	3.8%	2.0%	4.6%

Figures shown here are based on the DfE matched administrative dataset. The dataset is made up of DfE Schools Census data, ILR (individual learner record) data from the Data Service and awarding body data.

Level 2 threshold = 5 GCSEs at grades 4+ or equivalent. Level 3 threshold = 4 AS or 2 A-levels or equivalent.

LA figures are calculated with the numerator being those young people studying at a school in the LA at academic age 15 (i.e. in year 11) who reach Level 2/3 at 19 as appropriate (regardless of where they eventually gain the L2/3). The denominator is based on the Annual School Census figure for number attending schools in the given LA at academic age 14. These denominators were revised this year to include the dual registered pupils in their main institution (whereas before they were not counted).

The methodology for the LA figures differs from the national figures in the main SFR, in that achievements for young people entering the data after year 11 are not counted towards the LA numerators.

Lambeth figures in both tables relate to state-funded schools only; for comparative purposes the national data is shown in separate tables for 'all schools' and the 'state-funded' sector only.

2020 & 2021 data: 2020 results were based on a teacher assessment grade or calculated grade, whichever is higher. 2021 data is based on teacher assessed grades only. Comparisons with data pre-COVID, and the 2022 outcomes due to grade inflation, should be treated with caution.

	2025	35.0	C+	29.6	30.0	36.1	B-	28.9	30.0

2020 & 2021 data: 2020 A-level results were moderated teacher-assessed grades, with 2021 data being teacher-assessed only. Comparisons with data pre-COVID, and the 2022 outcomes due to grade inflation, should be treated with caution.

National data relates to all schools/colleges, as the DfE do not publish gender breakdowns (or other contextual characteristics) for state-funded schools only. Lambeth figures relate to state-funded schools.
