

## SEAL *School self-review primary and secondary*: aligned to the revised Ofsted Framework

The original self-review document (produced by the DCFS in 2008) has been modified by Lambeth CYPS to work alongside the revised Ofsted Framework (2009). This document is designed to support **S**ocial and **E**motional **A**spects of **L**earning (SEAL) implementation in schools by helping leaders to recognise what has already been achieved and identify future actions. The self-review can be used as the focus for discussion between those leading on SEAL, who should provide evidence to back up judgments before agreeing the next steps. Implementing SEAL effectively in a school should be seen as a journey of activity and reflection and will take time to embed.
