

**LONDON BOROUGH OF LAMBETH**

**PROPOSALS TO INTRODUCE ADDITIONAL CHARGES FOR PARKING DIESEL VEHICLES  
THAT ARE NOT COMPLIANT WITH THE EURO 6 EMISSIONS STANDARD IN THE  
ON-STREET PARKING PLACES AND CAR PARKS**

The Lambeth (On-Street Parking Places) (Amendment No. -) Order 202-  
The Lambeth (Off-Street Parking Places) (Amendment No. -) Order 202-

**STATEMENT OF REASONS FOR PROPOSING TO MAKE THE ABOVE-MENTIONED ORDERS**

The proposed Orders would introduce additional charges (a) for business, car club, doctor's, health care and teacher's parking permits for diesel vehicles that do not meet the Euro 6 emissions standard, and (b) for parking such diesel vehicles in the on-street parking places using Pay by Phone or Paypoint and in the Council's car parks using Pay By Phone (the Euro 6 emissions standard relates to the levels of harmful vehicle exhaust emissions, chiefly nitrogen oxides, carbon monoxide, hydrocarbons and particulate matter). These additional charges would be on top of the usual charge for those parking permits and for parking using Pay by Phone or Paypoint.

Any diesel vehicle registered on or after 1<sup>st</sup> September 2015 is compliant with the Euro 6 emissions standard and so the additional charge will not apply in respect of these diesel vehicles.

The proposed Orders are intended to encourage the adoption of vehicles that emit cleaner emissions and are therefore less damaging to air quality.
