INTRODUCTION

We aim to provide the highest standards within our Bereavement Service to meet the needs of the bereaved and all those who visit our cemeteries. It is therefore essential that Cemetery Rules and Regulations are in place to maintain the dignity and sanctity of our cemeteries, as well as to inform all Cemetery users of the reasonable requirements applicable to them, to enable us to effectively manage the service.

These Cemetery Rules and Regulations include the statutory requirements contained within the Local Government Act 1972 and the Local Authorities' Cemeteries Order 1977 and any other relevant legislation governing this service.

We reserve the right to make any amendments, alterations or additions to the Cemetery Rules and Regulations as and when necessary or to impose temporary restrictions as and when necessary.

We also reserve the right to close Streatham Cemetery or limit entry, at any time.

Everyone entering or using Streatham Cemetery must abide by these Rules and Regulations at all times and the Bereavement Services Manager has full powers to exclude or remove anyone as they see fit, without stating any reason.

Lambeth Bereavement Services adopted the ICCM Charter for the Bereaved in July 2016. The Charter provides recognition of a Council's commitment to minimum standards and continual improvements to the services provided for the bereaved.

Lambeth holds Silver accreditation under the Charter and is working towards Gold.

These Rules and Regulations apply only to Streatham Cemetery, Blackshaw Road, Tooting, SW17 0BY.

All enquiries regarding Streatham Cemetery should be directed to the cemetery office at:

1. MANAGEMENT REGULATIONS

- 1.2 Article 18 of The Local Authorities' Cemeteries Order 1977 (as amended) provides that no person shall:
 - a) wilfully create any disturbance in a cemetery
 - b) commit any nuisance in a cemetery
 - c) wilfully interfere with any burial taking place in a cemetery
 - d) wilfully interfere with any Grave or Vault, any tombstone or other Memorial, or any flowers or plants on any such matter
 - e) play at any game or sport in a cemetery
 - f) enter or remain in a cemetery at any hour when it is closed to the public unless they are an officer or servant of the Council or are authorised by or on behalf of the Council.
- 1.3 Any person who contravenes any prohibition detailed above or any prohibition specified in Article 19 of the above-mentioned Order shall be liable on summary conviction to a fine not exceeding £100 and in the case of a continuing offence to a fine not exceeding £10 for each day during which the offence continues after conviction.
- 1.4 All persons entering the Cemetery will be subject to the order and control of the Bereavement Services Manager. Any persons who infringe these Rules and Regulations may be removed from the Cemetery.
- 1.5 Children under twelve years of age are to be kept under the supervision of an adult at all times.
- 1.6 Visitors are to keep to the main roads and footpaths at all times except to the extent necessary in order to visit or attend to a Grave.
- 1.7 Visitors must conduct themselves in a quiet, orderly manner at all times.
- 1.8 No-one shall climb on or over any Memorial, boundary wall, fence, gate or tree.
- 1.9 No dogs are permitted in the Cemetery except assistance dogs.
- 1.10 Assistance dog owners must ensure that they bag and remove any fouling by their dog and place it into a rubbish bin.

Vehicles

- 1.11 All vehicles (motorised or not) are subject to the control and direction of the Bereavement Services Manager at all times when in the Cemetery.
- 1.12 The speed limit within the Cemetery is ten miles per hour, pedestrians retain priority.
- 1.13 The Council reserves the right to forbid the entry of any vehicle into the Cemetery.
- 1.14 Vehicles permitted to enter the Cemetery must not be parked anywhere other than designated parking areas or parked fully on roadways and must ensure that vehicular or pedestrian access is not impeded.

- 1.15 The Council accepts no liability for any loss from or damage to any vehicle whilst it is within the Cemetery.
- 1.16 The Bereavement Services Manager may require the immediate removal of any vehicle from the Cemetery at any time.
- 1.17 Vehicles must not be driven in any part of the Cemetery other than roadways and parking areas.
- 1.18 Access for vehicles is only allowed for the purpose of visiting the Cemetery, attending a funeral or working within the Cemetery. Other vehicles can only park within the Cemetery if they hold a valid parking permit and have paid the appropriate fee.
- 1.19 Bicycles, motorised scooters and motorcycles are permitted as transport to a funeral or for visiting a Grave. All cyclists and motorcyclists must adhere to the speed limit and be considerate of other Cemetery users.

Right of Passage

- 1.20 The Council reserves to itself and its employees, servants and agents the right of passage over any Grave for any purpose connected with the maintenance and management of the Cemetery; and to remove any Memorial from an adjoining Grave to facilitate an interment if this should be necessary. In the event of such action being necessary the cost of such works shall be borne by the person arranging the interment.

Liability of the Council

- 1.21 No liability whatsoever is accepted by the Council for any damage to property arising out of anything existing at the Cemetery or done by the Council, its employees, agents or servants or by any independent contractor at or in connection with the Cemetery.

Gratuities

- 1.22 No employee of the Council is allowed to solicit or receive any gratuity or payment for any work in connection with any Grave, Grave Space, Vault or Memorial.

Sale of Goods and Soliciting Orders

- 1.23 Unless expressly authorised to do so by the Bereavement Services Manager no person shall:
 - a) sell or offer or expose for sale within the Cemetery any goods, plants or articles; or
 - b) solicit within the Cemetery for the installation or repair of Memorials or for any work connected with Graves or Vaults.

2. BURIAL REGULATIONS

- 2.1 No burial shall take place, no cremated human remains shall be buried or scattered and no Memorial or additional inscription shall be placed in the Cemetery without the permission of the Bereavement Services Manager.

Burial Plot Plans

- 2.2 Plans for the Cemetery are held at the Cemetery office and can be viewed during office opening times.

Selection and Ownership of Graves

- 2.3 Every burial shall take place in a Private or Public Grave selected by the Bereavement Services Manager. No guarantee can be made to provide a specific plot, although the Council will try to accommodate the wishes of the applicant where possible.
- 2.4 Graves will be allocated on the basis of the next available Grave Space in the plot or area currently in use for burial purposes and will be at the ultimate discretion of the Bereavement Services Manager.
- 2.5 The Council reserves the right to reserve any portion of burial ground as it sees fit.
- 2.6 On the purchase of the Exclusive Right of Burial in a Grave, a Deed of Grant shall be issued to the person on whose behalf the Exclusive Right of Burial is purchased. This person shall be registered in the records held by the Council as the Grave Owner.
- 2.7 When a Grave is purchased the named Grave Owner will obtain the Exclusive Right of Burial in that Grave. This gives the Grave Owner(s) the right, during the period of tenure, to:
- a) Be buried in that Grave if space is available.
 - b) Authorise burials in that Grave, where space is available, or the burial in, or scattering of cremated remains over, that Grave.
 - c) Place a Memorial on that Grave, with or without inscriptions, subject to these Rules and Regulations and to the approval by the Council following the application for a Memorial Permit.
- 2.8 Purchase of the Exclusive Right of Burial and subsequent issue of a Deed of Grant does not transfer ownership of any land. The Deed of Grant gives the Grave Owner the legal right of burial in that Grave (subject to space being available) for the period of time for which the Right is purchased.

Alterations to Arrangements

- 2.9 Once a booking for a burial has been made, no alteration of any details will be allowed unless notice is given in writing to the Bereavement Services Manager at least two Working Days before the time booked for the funeral.
- 2.10 Any alteration or cancellation notified less than two Working Days before the service is to take place will result in the appropriate fee being levied.

- 2.11 Any orders or instructions given by telephone are placed at the sole risk of the applicant and must be confirmed via email or in writing within one Working Day of the call.
- 2.12 The Council shall not be responsible for any misunderstandings or errors which may arise unless the instructions are confirmed in writing in accordance with clause 2.11 above.

Certification

- 2.13 No burial will be permitted without production of the certificate of death (green certificate) and a statutory declaration certificate signed by a funeral director or other person responsible for the arrangements of the person to be buried; or the Coroner's certificate where an inquest has been held. The appropriate document(s) must be submitted to the Bereavement Services Manager prior to a burial taking place.
- 2.14 The Council reserves the right to refuse to inter individuals with a Notifiable Disease at the time of death, due to potential environmental and health implications. The Bereavement Services Manager must be informed of any persons who have died from a Notifiable Disease prior to funeral arrangements being made.

Documents of Title for Burial

- 2.15 No Grave or Vault, to which the Exclusive Right of Burial has been granted, shall be opened or re-opened without the production of the Deed of Grant and/or the written consent of the Grave Owner(s).

Transfer of Burial Rights

- 2.16 Any transfer of the Exclusive Right of Burial shall not be deemed valid unless such a transfer has been registered at the Cemetery office (an appointment may need to be made to register such a transfer).
- 2.17 Where the current Grave Owner is alive and wishes to transfer ownership to another person or persons, a Form of Assignment must be completed.
- 2.18 Transfer of Exclusive Right of Burial for a specific Grave may take place where the registered Grave Owner is deceased, by submitting the following to the Cemetery office:
 - a) Letters of Administration
 - b) Proof of a named Executor who may then decide on ownership
 - c) Completion of a Statutory Declaration.

Possession of a Deed of Grant does not necessarily give ownership of the Exclusive Right of Burial. When a Grave Owner is deceased, the Council's Transfer of Burial Rights process will need to be carried out to establish a new "legal" Grave Owner.

- 2.19 All Graves and Vaults shall be opened and back-filled by Cemetery staff only. No Grave or Vault shall be opened beyond a depth of seven feet except by special permission. Ground conditions may prevent any specific depth being attained. No coffin shall be buried in a Grave unless separated from any other coffin already in the Grave by means of a layer of earth not less than six inches in thickness.

Coffins

- 2.20 A Body will not be accepted for burial unless it is enclosed within a coffin which complies with the current industry standard.
- 2.21 Interference of any description with a coffin or its fastenings, whether before or after the committal, is not permitted within the Cemetery.
- 2.22 Cardboard, willow and homemade coffins will not be accepted for burial unless authorised in writing in advance by the Bereavement Services Manager.
- 2.23 Only coffins of wood or other perishable material shall be used in an earthen Grave.
- 2.24 All coffins for burial must bear a nameplate or other suitable form of identification which must contain the name of the deceased and the dates precisely as recorded on the Certificate for Burial.
- 2.25 The nameplate must be witnessed by the Bereavement Services Manager before the coffin is permitted to be removed from the hearse. Any discrepancies may result in the funeral being postponed until it can be clarified.
- 2.26 It is the responsibility of the funeral director or other persons conducting the funeral to ensure that enough people are available to transfer the coffin to the Graveside and lower it into the Grave.
- 2.27 Coffins may be opened for viewing in the chapel with prior notice to the office.
- 2.29 Metal caskets are only accepted for interment in the Burial Chamber section. Approval for the use of metal caskets must be detailed on the interment form.
- 2.30 The person arranging the burial is responsible for the provision of the correct coffin or casket measurements. In the event of a Grave being excavated to the wrong size due to incorrect coffin measurements being provided then the Bereavement Services Manager will need to review the situation. If it is possible to provide burial space within a larger Grave then this will be facilitated and the additional fee for a larger coffin will need to be paid. It may be necessary to relocate the burial to a more suitable part of the Cemetery.
- 2.31 Except as provided for below, all bodies are to be brought into the Cemetery in separate coffins. The only exceptions to this are:
- a) When a mother with child dies in childbirth and the child also dies, both the mother and child may be buried in the same coffin.
 - b) When twins or multiple births die in childbirth the babies may be placed in the same coffin.
 - c) With advance authorisation in writing from the Bereavement Services Manager.

Unpaid fees

- 2.32 No Grave or Vault will be re-opened in respect of which any costs, fees or charges remain unpaid.

Grave Maintenance

- 2.33 Any Grave in respect of which the Exclusive Right of Burial has been purchased shall be maintained by the Grave Owner. This includes but is not limited to the repair of Memorials, keeping the Grave area free of weeds, and ensuring that any plants, flowers, shrubs or trees are pruned, lopped or cut back as and when required.

- 2.34 In the event that the Grave Owner fails to maintain the Grave as set out in Clause 2.33 above the Council may carry out such work as it thinks fit.
- 2.35 Any costs incurred by the Council in exercising its powers under Clause 2.34 above shall be recovered from the Grave Owner.
- 2.36 Deed holders who have created 'garden-like' extensions in the main areas of the Cemetery which were previously classified as lawn cemetery and are now full kerb set sections, but have been neglecting their space over a significant period of time will be notified that they need to tend to the space or the items will be removed and disposed of by the Council and the area converted to grass.
- 2.37 The Council reserves the right to prune or remove from any Grave plants, shrubs, trees, cut flowers, artificial flowers or foliage of any sort which, in the opinion of the Bereavement Services Manager, have become unsightly, overgrown or detrimental to any adjoining Grave.
- 2.38 The placing of stone chippings is only permitted if enclosed within full kerb sets.
- 2.39 Wilted flowers, wreaths, shrubs, weeds or other items removed from a Grave shall be deposited in the bins provided on site.
- 2.40 Cemetery staff will clear away and dispose of any wilted flowers which have not been removed from a Grave by the Grave Owner or other persons tending the Grave.
- 2.41 No soil is to be deposited in any bin.
- 2.42 Any items considered by the Bereavement Services Manager to present a hazard or danger will be immediately removed without notice and stored for collection for a period of one month. After this time they will be disposed of.

- 2.44 Permanent Grave mounds are not permitted and will be cleared or levelled by Cemetery staff.
- 2.45 No herbicides and pesticides shall be used within the Cemetery.

Traditional Kerb Set Sections

- 2.46 With the introduction of these revised Rules and Regulations, most of Streatham Cemetery has been re-designated for traditional kerb set Memorials.
- 2.47 Immediately after a burial has taken place, the Cemetery staff will replace the soil and a temporary soil mound will be formed, topped up and maintained as necessary for a period of twelve months. This is to allow for any soil settlement.
- 2.48 When the mound has been formed, the Cemetery staff and/or funeral directors will sensitively place all the floral tributes on and around the mound. A temporary wooden Grave marker with the name of the deceased and the Grave number can be organised and placed at the top of the Grave. The Grave marker may remain for twelve months only.
- 2.49 After twelve months the Grave will be topped up as necessary, prior to installation of the final Memorial.
- 2.50 If, during the twelve month period, the Grave Owner has any concerns regarding the level of the soil, they should contact the Cemetery office and an instruction will be issued to top up as necessary.
- 2.51 Established Graves in the areas designated for traditional kerb set Memorials are invited to apply for full kerb sets to replace any established garden or homemade kerb sets.

Chippings

- 2.52 Any type of natural stone chipping is allowed, including but not limited to: slate, limestone, Cotswold stone or marble. These must be enclosed in a traditional kerb surround.
- 2.53 Coloured glass chippings are not permitted.
- 2.54 Any glass chippings placed on a Grave will be removed by the Council and replaced with a material of the Council's choosing. The costs of carrying out this work will be recovered from the Grave Owner.

Grave Planting

- 2.55 The Council encourages the sowing of wildflower seed mixes or the planting of nectar-rich perennials to benefit wildlife.
- 2.56 The Council also encourages the planting of bedding plants, bulbs, small patio roses or similar. Any such plants must have non-invasive root systems.
- 2.57 No plant should exceed two feet in height when fully grown.
- 2.58 The Council reserves the right to prune or remove any plant that does not comply with these requirements. The costs of carrying out such work will be recovered from the Grave Owner.

Baby and Child Graves

- 2.59 Any items placed on a child's Grave must be kept within the boundary of the Grave area.
- 2.60 Glass items are not permitted for health and safety reasons and will be removed by the Cemetery staff. Any such items will be stored and the registered Grave Owner will be invited to collect them.

- 5.17 The type and size of a Memorial will depend on the sections of the Cemetery and may alter from time to time. All information relating to the types and sizes available can be obtained from the Cemetery office.
- 5.18 Subject to Clause 5.19 below, in the event of a Grave being re-opened for an additional burial the Memorial must be removed before Grave-digging operations can commence. The applicant or Grave Owner is responsible for all related costs.
- 5.19 The Memorial must be removed at least two Working Days before the funeral, or by such other time as the Bereavement Services Manager may direct.
- 5.20 Applications may be considered for a vase or a tablet on a Grave where there is limited space for further inscriptions. This will be reviewed on a case by case basis.
- 5.21 From time to time to facilitate a burial on a Grave nearby, a Memorial may be temporarily removed or moved to one side to allow the burial to take place.
- 5.22 The Council may remove, re-fix or make safe any Memorial for any reason in pursuit of practical duties.
- 5.23 The Council will not be responsible for any damage to a Grave occasioned by storm, wind, heavy rain, lightening, subsidence or any other similar cause. This includes any Memorial, tablet, stone, tree, shrub or any item placed on the Grave. This also applies to any unauthorised items on the Grave.

Applying for Memorials

- 5.24 All applications for Memorial works must be made on the Council's standard Memorial permit form. The application must be signed by the Grave Owner.
- 5.25 The form must also be signed by the approved memorial mason and submitted to the Bereavement Services Manager for approval. The form includes a requirement to provide an illustration of the Memorial and full dimensions.
- 5.26 No work will be permitted to commence on site unless a Memorial permit has been issued.
- 5.27 All work carried out must comply with and conform to the Memorial permit. Any failure to do so must be corrected immediately by the memorial mason. If it is not, Cemetery staff will arrange removal of the Memorial and all costs will be charged to the Grave Owner.
- 5.28 Memorial masons must produce the Memorial permit to the Cemetery office prior to commencing any installation work. Failure to do so may result in revocation of the permit.
- 5.29 The Council reserves the right to revoke any Memorial permit upon reasonable notice in writing.
- 5.30 The Bereavement Services Manager reserves the right to remove anything installed without written consent or which varies from a written consent and to charge for the cost of removal.

Inscriptions

- 5.31 It is the responsibility of applicants for any form of Memorial inscription to ensure that there is no infringement of any copyright. No responsibility is accepted by the Council in the event of any such infringement.
- 5.32 Any proposed inscription must be submitted to the Bereavement Services Manager by the memorial mason on the Memorial permit application form. Where an inscription is proposed in any language other than English, an English translation must also be submitted.
- 5.33 The Bereavement Services Manager reserves the right to refuse any inscription.

Installation of Memorials

- 5.34 Memorials may only be erected on Graves for which the Exclusive Right of Burial has been purchased. On the completion of the installation, a Deed of Grant for the Memorial Rights shall be issued to the person by whom or on whose behalf such right is purchased and such person shall be registered in the books of the Council as the owner of the right. The Deed of Grant must be carefully preserved by the owner of the Memorial as this will be required for any new works, or for renewal of the Memorial Rights. The Memorial Rights shall be granted for a period not exceeding 25 years in the first instance, at the expiration of which the Memorial must pass a safety and stability inspection to allow the period of the grant to be extended for either a further five or ten year period on payment of the appropriate fee. If the Memorial Rights are not extended they will expire and the Council will reserve the right to remove the Memorial at any time.
- 5.35 No Memorial shall be installed, placed, laid upon or over any Grave Space in which the Exclusive Right of Burial has not been purchased.

Memorials on EH Chambers

- 5.36 All Memorials on the EH chamber section must be organised through the Cemetery office with no exceptions. The tablet is in situ and the initial cost of the chamber includes the first 80 characters. Any further characters, subsequent inscriptions or photo plaques will be charged at the current rate.

Memorials on WEL Chambers

- 5.37 All Memorials on the WEL chamber section must be organised through the Cemetery office with no exceptions. The tablet and foot plate are in situ and the initial cost of the chamber includes the first 80 characters. Any further characters, subsequent inscriptions, inclusion of a heritage desk tablet or photo plaques will be charged at the current rate.

Memorials on Lawn and Traditional Kerb Set Sections

- 5.38 One of the following Memorial options must be agreed with Cemetery staff when the funeral is arranged:
- a) A headstone and full kerb sets with a cover slab, stone chippings or soil for planting. Wide flexibility is allowed in terms of style and colour, but the kerb sets must cover the full Grave area (usually six feet by three feet).
 - b) A headstone and simple six feet by three feet pre-cast kerb set, installed by Cemetery

staff. This can be filled with topsoil for planting, or stone chippings. The Council offers a service to either fill the kerb set with soil and plant lavender, or to fill it with chippings.

- c) A headstone and the plot levelled with topsoil and sown with grass seed or a wildflower mix. Kerb sets can be applied for and installed at a later date if desired. The Council offers a service to sow the grass or wildflower seed.

5.39 Due to the size and weight of a kerb set and the need to ensure the stability of the ground supporting it, no kerb set can be installed before twelve months after the date of the burial.

Power to Regulate Position of Memorials

5.40 The Council reserves the right to require any Memorial to be installed in any position on a Grave as it thinks fit.

Dimensions of Memorials

5.48 All Memorials must bear the section and number of the Grave in clear, legible lettering not less than three-quarters of an inch in height in a conspicuous position.

- 5.49 The Council reserves the right to place its mark or reference on any Memorial to that Grave. Such mark shall not be removed except by or upon order of the Bereavement Services Manager.

- 5.55 No monument shall be removed from the Cemetery except by special order from the Bereavement Services Manager.
- 5.56 Any application to remove a Memorial shall be signed by the Grave Owner and shall be submitted to the Bereavement Services Manager prior to such removal.
- 5.57 All necessary work to any Memorial so removed shall be executed and re-installation or replacement completed without delay and to the complete satisfaction of the Bereavement Services Manager.
- 5.58 The Council reserves to itself and its employees, servants and agents the right to remove any Memorial from an adjoining Grave to facilitate an interment if this should be necessary. In the event of such action being necessary the cost of such works shall be borne by the person arranging the interment.

5.59 The placing of a Memorial on any building wall is strictly prohibited except in the allocated Memorial areas.
