

Milkwood Community Park News

**BETTER
STREETS**

We are working together with the Friends of Milkwood Community Park to plan and deliver improvements to the park equipment, play areas and planting.

Where the money comes from

The funding source for the project is derived from Peabody Trust development on Milkwood Road. The funds have amounted to £61,488.98, including interest. The obligation stipulates that the funds should facilitate improvements to the Milkwood Community Park, with a portion of the funds to be spent on either the provision of new children's play space or improvements to the existing children's play space in the park.

The final scope of the works will be agreed following consultation with the local community.

Lambeth

What has been suggested

Following a meeting with the Friends of Milkwood Community Park some items have already been identified that would be an improvement to the Park:

- Line marking for the Multi Games Area (this is now complete)
- Repair/renew the nest swing
- Repair the wet pour in the children's play area
- Repair the amphitheatre seating
- New outdoor gym equipment
- Repair the raised planting beds
- Accessible play equipment
- Sensory planting

Drop in Session

Public Consultation: 12 July 2018

Venue: Seventh Day Adventist Church,
Heron Road, SE24 OHZ

Time: 6pm

Followed by Milkwood Residents Association meeting

Have your say

Did you know?

The Milkwood Residents Association (est. 1992), working with Jessop and Willowfield schools back in 2000, drew up plans and raised funds to convert the neglected space to a quality park with play areas, sports facilities, meeting places and environmental area. The park opened in 2004 and received the Green Flag award for three consecutive years.

Milkwood Community Park is one of Lambeth's 14 Green Flag award-winning parks and our first ever Green Flag award park back in 2007. It has successfully retained it ever since, making it 11 years in succession.

The award recognises the considerable achievements made by everybody to provide the community with a green space we can all be proud of.
