

**MF3A Examination of Draft Revised Lambeth Local Plan 2020-2035**  
**Inspector's Matters, Issues and Questions (MIQ) Discussion Note**  
**Addendum**

**Introduction**

This note should be read in conjunction with the main MIQ Discussion Note. It contains an additional matter – Matter 10 – relating to infrastructure, development management, uncertainties and risks and monitoring.

---

**Matter 10 – Infrastructure, development management, uncertainties and risks and monitoring**

10.1 Are there any infrastructure needs over the plan period that are not addressed in the Plan? Can any of the Plan's infrastructure needs be described as 'showstoppers'?

10.2 Should the Plan provide sufficient guidance to cover aspects of development management which are not explicitly covered in the Plan?

10.3 Overall, does the Plan take sufficient account of uncertainties and risks?

10.4 Are the monitoring arrangements soundly based?

*Mike Fox*
