

Statement of Common Ground between London Borough of Lambeth and the London Borough of Hillingdon covering strategic waste matters

1. Parties involved

- London Borough of Lambeth
- London Borough of Hillingdon

2. Strategic geography

LB Lambeth

Lambeth is an inner London borough with a northern boundary on the River Thames and situated mainly between the boroughs of Wandsworth and Southwark. It covers an area of approximately ten and a half square miles. It is surrounded by seven other London Boroughs - LB Southwark; LB Bromley; LB Croydon; LB Merton; LB Wandsworth; City of Westminster and City of London.

LB Hillingdon

Hillingdon is one of the West London Boroughs planning for waste collectively through the West London Waste Plan. The borough has a strong economy and excellent transport links to/ from London, the west of England and the world. The area to the north of the A40 is semi-rural, with Ruislip as its main district centre. The south of the borough is more densely populated, urban in character and contains the metropolitan centre of Uxbridge and the district centres of Hayes and West Drayton.

3. Strategic waste issues

Lambeth is a net exporter of waste and is planning for net self-sufficiency for LACW, C&I and C&D waste and a target of 95% beneficial use of excavation waste.

Both parties agree the following thresholds to indicate 'strategic' waste movements:

- CD&E: 5,000 tonnes per annum
- LACW/C&I: 2,500 tonnes per annum
- Hazardous: 100 tonnes per annum

Hillingdon receives a strategic amount of waste exports from Lambeth.

Both parties agree the following figures generated by the Waste Data Interrogator.

Waste exports from Lambeth to Hillingdon 2013-2017

Site	Waste	2013	2014	2015	2016	2017
Holloway Lane Materials Recycling Facility	HIC	4,159	1,703	0	0	0
Sipson North East Inert Landfill	CD&E	0	0	0	0	11,640

Source: Waste Data Interrogator 2013-2017

Both parties agree there are no known planning reasons why exports of similar amounts to those in 2013-2014 cannot continue to Holloway Lane Materials Recycling Facility.

Both parties agree that the waste received at Sipson North East Inert Landfill is part of the restoration works and is likely to be a one-off occurrence.

4. Governance arrangements

Both parties agree to monitor waste movements through Authority Monitoring Reports and engage again if these change significantly from the current trend.

Both parties agree to engage again if there are any significant operational changes to facilities receiving waste exports from Lambeth.

5. Signatories

Both parties agree that this statement is an accurate representation of matters discussed and issues agreed upon.
